

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

CITY OF DETROIT.

JOURNAL OF THE COMMON COUNCIL.

COMMON COUNCIL.

[OFFICIAL.]

DETROIT, January 11, 1876.

The aldermen elect were sworn in by the Clerk, Chas. H. Borgman. The new Council was called to order by the Clerk. On calling the roll the following aldermen answered to their names:

First Ward—George Wilke, Robert A. Liggett.

Second Ward—John Schmitt, Lewis B. Clark.

Third Ward—Joseph A. Kurtz, Thomas Jackson.

Fourth Ward—Charles C. Blodgett, James I. Mitchell.

Fifth Ward—Seymour Finney, George Dunlap. Sixth Ward—Montgomery P. Christian, Jacob Guthard.

Seventh Ward—Paul Gies, Wm. A. Owen.

Eighth Ward—Daniel Shanahan, John D. Finnegan.

Ninth Ward—George W. Hough, Michael Haller.

Tenth Ward—John P. Rouland, George W. Herrier.

Twelfth Ward—George Dorr, Henry Heames.

A motion to proceed to election of President by informal ballot was made and carried, as was also a motion that the Clerk appoint two tellers.

The Clerk appointed as tellers Ald. Jackson and Dorr.

The Council then proceeded with an informal ballot with the following result:

Whole number of votes cast.....	22
For George W. Hough	12
For Wm. A. Owen	9
For blank	1

The Council then proceeded to a formal ballot, with the following result:

Whole number of votes.....	22
Geo. W. Hough	14
Wm. A. Owen	8

On motion, Ald. Hough was declared unanimously elected President of the Council.

Ald. Kurtz and Shanahan escorted the newly elected President to the chair.

After being introduced, the President briefly thanked the Council for the honor conferred upon him, and expressed the hope that he would be able so to fill the office as to show that he appreciated the honor conferred upon him, and to give satisfaction to the Aldermen and their constituents.

On motion of Ald. Christian, the Council proceeded to the election of a President *pro tem.* by formal ballot, which resulted as follows:

Whole number of votes.....	22
For George Dunlap	11
For Daniel Shanahan	9

For Wm. A. Owen.....	1
For blank.....	1

There being no election, the Council proceeded to another formal ballot, with the following result:

Whole number of votes cast.....	22
For George Dunlap.....	12
For Daniel Shanahan	9
For Wm. A. Owen.....	1

The election of Ald. Dunlap as President *pro tempore* of the Common Council was made unanimous.

Ald. Christian thereupon offered the following resolution:

Resolved, That the rules of this Council for the year 1876 be and the same are hereby adopted as the rules of the present Council, until otherwise ordered.

Adopted.

Ald. Dunlap moved that the rules be suspended for the reception of any communication that the Mayor may have to present.

Adopted as follows:

Yeas—Ald. Blodgett, Christian, Clark, Dorr, Dunlap, Finney, Finnegan, Gies, Guthard, Haller, Heames, Herrier, Jackson, Kurtz, Liggett, Mitchell, Owen, Rouland, Schmitt, Shanahan, Wilke, and the President—22.

Nays—None.

Ald. Owen moved that the chair appoint a committee of two to escort the Mayor elect to the chair.

Carried, and the chair appointed as such committee Ald. Owen and Blodgett, who duly performed their duty.

The Mayor elect was introduced by Ald. Owen, and after being sworn in by Recorder Swift, delivered his inaugural address as follows:

To the Honorable the Common Council:

GENTLEMEN—In assuming the duties of mayor I acknowledge the obligations I owe to both political parties of the city for the liberal support they gave me at the recent election, and sincerely return them my thanks.

The following is an exhibit of the city finances: Cash in treasury January 1, 1875.....\$ 146,874 23 Receipts during the year.....1,568,463 53

Total.....	\$1,712,337 76
Disbursements during the year.....	1,544,014 84

Balance in treasury January 1, 1876.....\$ 198,322 88

Of the tax levy of 1875, \$897,173 69 has been paid, leaving but \$307,341 65 to be collected, and the greater portion of this amount will be paid by the 1st of June proximo.

Notwithstanding the general depression of business, it is a gratifying fact that in no year have

the taxes, both ordinary and extraordinary, been met with such promptness as during the past.

THE DEBT OF THE CITY.

The bonded debt of the city, on the first day of January, 1875, was as follows:

Market bonds (past due)	\$ 400
Redemption bonds	88,000
House of Correction bonds	100,000
City Hall bonds	600,000
Public sewer bonds	297,500

Total	\$1,079,900
Less assets in the sinking fund—	
Cash	\$18,370 50
House of Correction bonds	40,000 00
Street paving bonds	31,189 05—89,509 55

Net debt of the city \$990, 90 45

The usual transfers made at the close of the year, in accordance with law, will largely increase the assets of the sinking fund.

The debt of the Water Commission, for the payment of which the faith and credit of the city is pledged, amounts to \$1,801,000. Heretofore in statements of the debt of the city, the water debt has been almost ignored, from the fact that the interest and bonds as they become due have been paid by the Water Board. But as the city pays all interest, and provides a sinking fund for the payment of the last issue it seems proper that the water debt should be included in all statements of the city debt.

TOTAL BONDED DEBT OF THE CITY.

Bonded debt of the city	\$1,079,900
Bonded debt of the Water Commission, guaranteed by the city	1,801,000

Total bonded debt of the city \$2,880,900
None of the bonded debt of the city becomes due until 1878, and then only \$50,000. In 1879 the last of the redemption bonds, amounting to \$80,000, matures, as does also the \$50,000 of the House of Correction bonds. In 1881 House of Correction bonds to the amount of \$44,000, which are held by the sinking fund, are payable. No other bonds are due until 1896. The assets in the hands of the commissioners of the sinking fund, together with its income for 1876, will be sufficient to extinguish the above amount, leaving the income of the succeeding years to accumulate and redeem the City Hall bonds, maturing from 1896 to 1892. The credit of the city is a subject of pride to our citizens, its bonds commanding a premium of from 6 to 7 per cent in the New York market. Our debt, while small in comparison with those of other cities, is gradually increasing, and will, unless the issue of bonds is checked, ere we are aware be of such an amount as to become a heavy burden. Then let us resolve that we will not increase our debt, but pay what we owe and lessen the burden of taxation.

Of the street paving bonds issued in 1873-4-5, for the paving of streets, amounting to \$398,028 05, the commissioners of the sinking fund hold \$142,284 08. As the assessment rolls for the improvement of the streets are made a lien on the property benefited, these bonds, although guaranteed by the city, are not deemed a part of the bonded debt of the city.

THE CONTINGENT FUND.

The proceeds of the moneys collected under the State law for the sale of liquor are paid into this fund as provided, and aggregated thus far for the year \$74,188 76. As the usual annual expenditure of this fund amounts to but about \$15,000 to \$17,000, some provision should be made whereby some portion could be transferred to other funds. This can only be done by an amendment to the charter. I would suggest that after all claims upon the contingent fund are paid, a specified sum should be placed to the credit of the poor fund, and the surplus transferred to the sinking fund at the close of each fiscal year. This would obviate the necessity of taxing the people for the support of either the contingent, poor or sinking fund.

CITY POOR FUND.

There remained to the credit of this fund on the first day of December nominally \$2,900, but actu-

ally not half that amount, as all the tax will not be collected before next summer. It seems unaccountable that a fund that is raised mainly for the purpose of aiding those that are out of employment and destitute during the winter months should, on the very first day, be without a dollar to its credit except 800 cords of wood. That the whole system of relief to the city poor is wrong is undoubtedly the case; but how to remedy the evil is a question upon which few agree.

A House of Industry, where labor could be provided to those who desired to work, would in a great measure relieve a large class of worthy poor and those too lazy to work would emigrate to other localities. Instead of giving "orders," as is now the custom, supplies should be issued direct, thus not only giving the poor what they need, but at much less cost, as the articles could be bought from first hands.

In this connection, would it not be well for the committee revising the charter to provide that the office of director of the poor shall be elected by the Common Council instead of the people, as at present, or that four commissioners be elected by the Common Council, two to be selected from each political party, and that they serve without compensation, as do the water, fire and police commissioners. In this way it would be kept entirely from party or political influence. The commissioners should be empowered to appoint a superintendent and other help necessary to distribute so large an amount.

PUBLIC REVENUES.

The revenues derived from markets, public docks, licenses, etc., are out of all proportion to the benefits granted by the city, and is a subject which should receive your serious consideration. If the city grants special privileges to private parties or corporations it should receive a fair equivalent. We should endeavor to lessen the burden of taxation by every means in our power.

POLICE DEPARTMENT.

The Police Commissioners are gentlemen of the highest integrity, thorough business men, who serve the city without compensation, and deserve the thanks and indulgence of all good citizens. Coming largely in contact, as they do, with the criminal classes, and having to enforce the city ordinances, which, to say the least, is not always a pleasant duty, it is, therefore, not strange that at times some fault should be found with them.

The police force of the city now numbers 183 men, viz: nineteen officers, four detectives, 121 patrolmen, eight doormen and one janitor.

The force is detailed as follows: For day patrol, fifty-three officers and men, of which one sergeant and nine patrolmen are on duty at the courts and on sanitary duty, thus leaving forty-three men on actual day patrol and in charge at the stations; twenty-two men are on relief duty. At night the total number of officers and men on duty is sixty-seven. These are expected to patrol and protect 300 miles of streets and alleys. Is it then to be wondered at that when wanted a policeman cannot be found on every corner?

The force should be increased to at least 150 patrolmen and necessary officers at the earliest day practicable. There should also be a station-house erected in the eastern part of the city on the lot on Elmwood avenue owned by the department, as the saving of time and expense in bringing offenders to the Gratiot or Woodbridge street stations, to say nothing of the exposed condition of the ward while the patrolman is on his way to the station with his prisoner, would soon pay for the extra outlay.

BOARD OF HEALTH.

The Board of Health as at present constituted is of no practical use. The police commissioners detail six to eight men to do sanitary duty, and it has been the custom of the Board of Health to refer most of the complaints to the superintendent of police, who nine times out of ten had already attended to the matter complained of. The whole expense of this board could as well as not be saved by placing it in the hands of the city physicians and the Board of Police Commissioners.

TAX RECEIPTS.

It has been the custom for years of the receiver of taxes to give receipts without stating the assessed value of the property or the rate per cent, and if the question were asked a property holder what per cent he paid on the assessed value of his property not one in fifty could answer it correctly. Both should be stated, and then it would be easy for every man to compute for himself the correctness of the receipt which is given him, and not be left wholly at the mercy of the party giving it, as with the rush of business at tax-paying time it is impossible for each person to have access to the books. And in this connection I would suggest that when the council appoints its committees to examine the accounts of the city treasurer and the various boards that in all cases they employ an expert at book-keeping, as it is not expected that aldermen can spend weeks in making investigations of this kind, and in many cases they are not familiar with the duties required of them in this way, and at a small expense thousands of dollars would be saved to the city where they are now lost.

FIRE DEPARTMENT.

This department, managed as it is by gentlemen who have served an apprenticeship at the business, could not be placed in better hands, therefore it cannot fail to continue to be a success. Having made a personal examination within a few days of the engine-house, etc., I find them complete in every respect, the employees civil and gentlemanly. We have reason to be proud of, and it may well be called, a model fire department. The commissioners serve the city without compensation. For a city so well regulated otherwise, Detroit possesses the poorest fire limit system of any city in the country. The power given the council to grant permission to violate the fire limits practically nullifies the office of fire marshal. Where citizens in open defiance of the fire limits ordinances have erected wooden buildings without permission, and have been stopped by the fire marshal, in four cases out of five the council have given the parties permission to complete them. The result is that the city of Detroit contains more wooden buildings than any city of its size in the country. The fire department of Detroit attends nearly twice as many fires and alarms as the departments of other cities of the same population. In a number of cities throughout the country the fire limits have been made coextensive with the city limits, and this has proved no hardship to the working classes, for the difference between the cost of constructing of brick and of wood is more than made up by the increased durability of the building, the lessened rates of insurance and the enhancement in the value of the property which inevitably accrues from the erection of brick buildings. The ordinances relating to building, fire limits, the storage of inflammable goods, and highways need an extensive and thorough revision. In their present state they have been but very little altered from what they were when Detroit was a small town, and do not now meet the requirements of so large a city.

PAVING.

The royalty bumber should be done away altogether. The city has already paid much more than it should, and it is high time that a stop be put to that kind of business. All pavements to be laid hereafter should be either stone or cedar, and it seems to me that it requires no great genius to devise some way of putting it down without paying rials for the privilege of doing so.

MANUFACTURING.

There seems to be a regular stagnation in the different branches of manufacturing, and I would recommend that instead of taxing new enterprises of this kind heavily, as is sometimes done, that the buildings and improvements be exempt from taxation for say from two to three years. In this way we will draw capital to our city, and at the same time it will be an inducement for moneyed men among us to invest more freely in a business that has heretofore paid more largely than any other, and it will be the means of adding thousands to both our population and wealth.

BUILDING PERMITS.

There should be an ordinance passed requiring persons contemplating building to procure permits of the Board of Public Works, stating at the time if the structure is to be wood, or brick, and the probable cost, so that accurate information could at any time be had of the growth of the city and the amount invested yearly. The certificate should be issued free of charge to the person applying.

LINDEN PARK.

As to this park, it would seem as if there should be a specified time inserted in the deed when the expenditure of \$3,000 per year should cease, say ten years.

The city would then have expended enough to make its further improvement certain, as the citizens would not be likely, after laying out so large an amount, to either abandon or stop improvements. In this way the city would not, in failing to make the required appropriation, either through carelessness or omission, forfeit its rights, and at the same time it would work no injury to Mr. Field who so generously donated this large tract of land to the city, for the reasons stated above.

WATER.

This department is in the hands of gentlemen who are experienced at the business, are among the largest taxpayers in the city, of unquestioned integrity, and devote a large amount of their time to the work you have intrusted to them. We need therefore have no fears as to the faithful management of this trust. The following is a statement of receipts and disbursements during the year 1875:

The bonded debt of the board is.....	\$1,301,000 00
The estimated value of the works is..	1,934,379 80
Cash balance on hand Jan. 1, 1875 ..	173,030 08
Receipts during the year 1875	444,936 98

Total	\$219,017 01
Expenditures during the year 1875....	\$307,301 57

Cash balance on hand Jan. 1, 1876.. \$111,715 44

Of the receipts \$300,000 was from the sale of bonds, \$6,656 25 for premium and \$3,159 59 for accrued interest thereon, and \$18,225 57 from the city of Detroit. The balance, \$318,645 52 being current receipts, mainly water rates.

Of the expenditure, \$326,994 10 were on account of the new works, \$50,522 50 for interest upon the bonded debt, and \$137,474 97 for construction and current expenses of the present works. Sixteen and one eighth miles of pipe were laid during the past year. The total amount of pipeage of the works is 199 1/2 miles.

The total amount of water pumped during the year was 4,307,454,360 U. S. gallons, a daily average of 11,527,322 gallons.

BOARD OF PUBLIC WORKS.

The work done by the Board of Public Works during the past year has fully demonstrated the wisdom of placing that branch of the public service in the hands of practical, energetic and reliable gentlemen, not only in the character of the work done, but at a saving to the city of nearly one-quarter of what it formerly cost, as shown by the following report, viz: The cost per lineal foot for constructing public sewers this season is \$5, while formerly it cost nearly \$7 per lineal foot, and the same may be said of street cleaning and other work that comes under their control. In years past the money that was appropriated to the different wards for purposes enumerated above was usually, at the commencement of the fiscal year, all expended. This board, when called upon to furnish work for the poor of the city, responded at once, and hundreds were employed, and yet the different funds have a surplus to their credit more than sufficient for the work necessary to be done next spring.

STREETS PAVED IN 1875.

Wood pavement, square yards	137,917
Stone pavement, square yards	14,994
Length eight miles, 3,307 feet, and cost \$397,172 25, or an average of \$173 per square yard.	

SEWERS BUILT IN 1875.

Public—Six miles and 3,636 feet; cost, \$186,193 65, or an average of \$5 43 per lineal foot.

Lateral Sewers—Eight miles and 3,355 feet; cost \$37,742 89, or an average of 83 cents per lineal foot.

Among the sewers built this year Canfield avenue sewer was extended from Eighteenth street to Cass avenue. This sewer is five feet five inches by seven feet six inches, and is intended as a receiver or outlet for the sewers in the western portion of the city. In connection with this sewer McDougall avenue sewer will next year be extended from its present terminus on Gratiot avenue to Fremont street, and from thence to John R street, and when completed will afford an outlet for the surplus water in the northeastern portion of the city. In addition to the sewers constructed, five outlets have been built and included in the price per foot for sewers. Had it not been for constructing these outlets, the cost of the sewers would not exceed \$5 per lineal foot.

RECEIVING BASINS.

Two hundred and ninety-seven basins were constructed, and cost \$30,130 21, or an average of \$77 75 each.

STREETS GRADED.

Five thousand one hundred and ninety-five rods of new streets were worked and graded; cost, \$1,570 20.

STONE INTERSECTION SIDEWALKS.

Eight thousand three hundred and seventy-two square feet of stone intersections constructed, and cost \$2,946 48.

CROSSWALKS.

Twenty-eight thousand and seventy-seven lineal feet of crosswalks constructed, and cost \$3,964 84.

STONE SIDEWALKS.

Four thousand three hundred and forty-two lineal feet of stone sidewalks constructed, and cost \$6,352 48.

WOOD SIDEWALKS.

Forty seven thousand and twenty-two lineal feet of plank sidewalk constructed; cost \$13,636 96.

HOUSE OF CORRECTION.

The number of prisoners in the House of Correction on the 31st of December was 674, being an increase of 164 over last year. The whole number received during the year from the city is 1,417, and from elsewhere, including Wayne county, 913, making a total of 2,330 for the year. The repairs and alterations now nearly completed will increase the capacity of the prison, otherwise it would be difficult to find room for more prisoners.

The Intermediate State Prison now being built at Ionia will to some extent relieve the House of Correction, as convicts sentenced from the western and northern parts of the State will be sent there instead of here. The report of the superintendent of the House of Correction, as to its financial standing, will not be made out until February 1st, and will then be laid before you.

THE CHARTER.

The city charter and ordinances should be revised at the earliest time practicable. As they stand now, one can read and study section after section, and at the end of the chapter will find that not only sections have been amended, but in some cases the whole act itself has been repealed.

HOUSE OF INDUSTRY.

The question how best to provide for the poor and prevent pauperism is always of great importance and now of special interest. It is also an intricate and difficult question. The instincts of our humanity move us to provide liberally for the real needs of the one, and due regard for the public welfare demands efficient means to guard against the other. I believe the present system fosters pauperism and fails to provide properly for the poor. A different and better organization seems to be needed to put the poor department upon the best basis. The main object at present is to relieve, temporarily, the last extremes of want, namely, food and fuel,

and these are supplied grudgingly, gratuitously direct from the treasury, apparently without sympathy or systematic effort to stimulate the hope and energy of the recipient. It is believed, also, that the present system of furnishing supplies upon orders from the director of the poor is extravagant, open to improper influences, and not suitably protected against unworthy applicants. I am of opinion that the first object of this department should be the prevention of pauperism by the relief of poverty, then the care of pauperism by restoring applicants to the self-sustaining condition, and lastly, the temporary relief of immediate destitution. Is not such an order of procedure best calculated to reduce suffering from want to its minimum, best prevent the spread of pauperism, and prove ultimately the truest economy?

The "tramps" who apply for relief may be removed toward the place of their legal settlement or be provided for in the House of Correction. Many worthy applicants may be put in communication with friends willing to aid them or forwarded to more favorable surroundings for self-support, while wise advice and aid will find for others permanent employment near at hand. It has been found that the payment of rent in arrears, the loan of tools or other aid, upon pledges or otherwise, is a satisfactory mode of relief, often preserving the self-respect of the recipient and encourage renewed efforts for maintenance. Of course fuel, clothing, food and medical attendance must be supplied from the public purse when absolutely needed, but the department may be so organized and administered as to reduce the amount of such distress. As a city we are not neglectful of the poor. We have benevolent societies, charitable institutions, churches and generous citizens, actively interested and at work, whose efforts, if properly organized and directed by some centralized authority, would, in connection with the public poor department, sufficiently care for the worthy poor. There seems to be needed, however, some additional means for testing the worthiness of able-bodied applicants and to provide for them temporary shelter and work. Certainly the city may be kept in the best sanitary condition by such as are willing to work under the direction of the Board of Public Works, and an arrangement may sometimes be made with contractors to supply them with labor from this source.

I cannot recommend any great outlay by the city for what is known as an "Industrial Institution for the Poor," but believe the project is worthy of the most careful consideration and of an experiment. It cannot be prudent for the city in its corporate capacity to undertake the conduct of manufacturing enterprises affording employment to many when those interests cannot be successfully carried on by private concerns, and in times of general prosperity there is no need of it. I very much doubt the policy of reproducing here anything like the pauper work-houses of England; indeed, the grouping together of dependents in institutions or elsewhere is of exceedingly doubtful propriety. The better plan, probably, is their distribution from large centers of population to localities where labor is in demand. But, after all, there must always remain in cities like ours some able-bodied poor who will occasionally need relief, and for such an industrial establishment may be most useful. I am impressed, however, that its use should be scrupulously limited to those

I recommend that the grounds in rear of the House of Correction belonging to the city be prepared, inclosed, and, under the direction of the inspector of that institution, suitable temporary buildings be erected and industries organized, to enable us to test practically next year the value of such an agency for the purpose named. The buildings should be work rooms, dormitory, scullery, bath house, dining hall and the necessary out buildings. They may be cheaply constructed and so as to be divided up and made salable for small dwellings or out buildings, to be moved off if that should prove desirable. Only those who cannot be furnished with work elsewhere should be employed here. Some branches of simple manufacture might be

carried on here in connection with the already well organized work at the House of Correction. It is not to be expected that any profit can be derived from this industrial if it even shall be self-sustaining. It is expected and desired that the workers may be transient and probably it may be entirely closed in summer and in seasons of general business prosperity. The location named is convenient enough, is close to water, gas and steam power supply, and sewerage, and in connection with the House of Correction the work may be inexpensively supervised. I do not attach much importance to the possible objection that the proximity of the House of Industry to the House of Correction is likely to shade it with the taint of criminality. I have already indicated my conviction that we need a better organization of the poor department. Some central governing authority comprised of at least four persons having power to appoint their own agents. They should devote themselves to the study of the whole question of poverty and pauperism; they should be held responsible for the distribution of the public funds and such private means as may be intrusted to them. It is hoped that they might form also a kind of charity clearing-house for the voluntary charities of the city. Not now entering into details, I recommend such action as shall bring about the change as soon as may be.

In conclusion, gentlemen, it seems to me that I should be wanting in duty if I failed to impress upon you the necessity of rigid economy in all expenditures, and that in all improvements, except those actually necessary, be delayed until such time as the business of the country is again prosperous, which with abundant crops, such as Providence has favored us with the past years, and the wise provision of law requiring the resumption of specie payments in 1879, cannot fail to bring about the desired result. Hoping that all your actions and deliberations will be guided by right, equity and justice, I trust you will ever find me ready to aid and co-operate in all measures that will tend to promote the interest, growth and prosperity of our beautiful city.

The following protest of Ald. Horn, contesting the legality of the election of Lewis B. Clark as alderman of the Second Ward, was submitted:

To the Honorable the Common Council of the City of Detroit:

GENTLEMEN—The protest of John Horn, Jr., against the legality of the election of Lewis B. Clark to the office of alderman of the Second Ward in the city of Detroit, on the second day of November, 1878.

Your petitioner, John Horn, Jr., respectfully shows that he is a resident of the Second Ward of Detroit, and has been for several years, and that

he is an alderman of the Second Ward of said city. That at a municipal election held in said city on the 2d day of November, 1878, he was a candidate for re-election to the office of alderman for said ward on the Republican ticket, and that the said Lewis B. Clark was a candidate for said office on the Democratic ticket; that while said Clark claims to have been elected to said office by a majority of eight votes, yet your petitioner claims to have been elected thereto by a majority of fifty votes, and insists that he is entitled to his seat in the Common Council of said city for a second term for the following reasons:

First—That over forty persons who voted at said election were not registered in said ward, and were not entitled to be registered; that they were principally sailors, and who did not reside in the city of Detroit, and were brought to the polls to vote against your petitioner; that several others lived in other wards of the city, and were brought to the Second Ward to vote against your petitioner, and did vote against him; that persons were brought to the polls in said ward, concerning whom it was said openly by the persons bringing them that they had paid said voters to vote against your petitioner; also, that several persons not entitled to vote voted over the names of others who were registered in said ward.

Second—That owing to the violent conduct of parties engaged in opposing the election of your petitioner on said day, many voters in said ward were intimidated and prevented from casting their votes in said ward.

Third—That during said election many persons not entitled to vote in said ward were objected to by your petitioner (who was one of the inspectors) as not entitled to vote but that afterward, during the absence of your petitioner, the Board of Inspectors received the said votes. That during said day said Board frequently permitted persons to come inside of the room where the ballot boxes were for the purpose of depositing their votes, many of whom had no right to vote. That your petitioner frequently remonstrated against the improper conduct of said Board and finally left the room in which they were.

Your petitioner further shows that the disorderly conduct of said election attracted the attention of many citizens and called out the severest comment.

Your petitioner therefore protests against the said Clark being sworn in as alderman by the clerk of said Council, and that a committee be appointed to investigate all matters touching the general conduct of said election, as well as the legality of the alleged election of said Clark.

Respectfully submitted,

J. HORN, JR.

City of Detroit, Wayne County, se.

On this tenth day of January, 1879, before me came John Horn, Jr. who being duly sworn deposes and says, that the foregoing petition by him subscribed is true.

Respectfully submitted,

F. G. RUSSELL,

Notary Public, Wayne County, Mich.

Accepted, and consent being granted, Ald. Blodgett submitted the following:

WHEREAS, John Horn, Jr., has filed his petition alleging the illegality of the election of Lewis B. Clark to the office of Alderman of the Second Ward of the city of Detroit, at the charter election in said city on the second day of November, 1878, for reasons set forth in said petition; and also claiming that he, the said John Horn, Jr., was duly elected to said office, and praying that this Council would investigate the matter set forth therein; therefore,

Resolved, That a committee of three be appointed by the chair to investigate all of the matters pertaining to the legality of the election of the Alderman of said ward, as well as the general conduct of said election, and that they have full power to send for witnesses and papers pertaining to said issue, and to do all other things necessary to a full and complete determination of said matter, and to report to this Council as to the person entitled to his seat in this body as Alderman of the Second Ward.

Laid on the table for one week.

COMMUNICATION FROM THE MAYOR.

CITY OF DETROIT, MAYOR'S OFFICE,
January 20, 1876. }

To the Honorable the Common Council:

GENTLEMEN—I return to your honorable body, without my approval, that part of your proceedings of the 18th inst, which leases to C. A. Lorman the foot of Riopelle street for three years, at \$100 per year, as the rent is less than one-half its actual value. And furthermore, I am of the opinion that no property belonging to the city should be rented without first instructing the Controller to advertise for sealed proposals, or that it be put up at public auction and rented to the highest bidder. I therefore recommend that the foot of the following streets, that now bring no revenue to the city, be leased as suggested above:

Riopelle street,	Woodward avenue.
Adair street	First street,
Joseph Campan street,	Second street,
Randolph street,	Third street,
Bates street,	Eighteenth-and-a-half
Griawold street,	street,
Wayne street,	Twenty-fourth street.

ALEXANDER LEWIS,
Mayor.

COMMUNICATIONS FROM CITY OFFICERS.

FROM THE COUNSELOR.

To the Honorable the Common Council:

GENTLEMEN—There are two suits against this city to recover damages alleged to have arisen from defective sidewalks, pending in the Circuit Court of the United States for this District.

The Supreme Court of the United States has announced that it is no longer an open question in that court, that cities are liable for damages caused by defective sidewalks, and the Circuit Court will follow that decision of the Supreme Court instead of the decision of the Supreme Court of this State which holds the contrary to be the law.

These cases are important, and I think an attempt should be made to settle them amicably if possible, and therefore ask that the same be referred to the Committee on Judiciary or Claims.

and Accounts to ascertain and report on the matter.

Respectfully submitted,
D. C. HOLBROOK,
City Counselor.

Accepted and referred to the Committee on Claims and Accounts and Judiciary.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—The undersigned to whom was referred on the 28th ult., the report of the Committee of Ways and Means and the Controller against the changing of the charges for interest, rent, printing, etc., from the poor to the contingent fund reports that such charges arose from the necessary steps providing for the poor and directly connected with the purposes of such fund and I fully concur with the report that such charges cannot be changed as it would be a transfer of one fund to another in violation of the charter.

Respectfully submitted,
D. C. HOLBROOK,
City Counselor.

Accepted and placed on file.

FROM THE BOARD OF PUBLIC WORKS.

To the Honorable the Common Council:

GENTLEMEN—The Board of Public Works to whom was referred the petition of J. G. Dickinson and others, owners of 8,688 feet front on Woodward avenue for widening the pavement on said avenue so as to give a roadway of fifty feet, report:

Woodward avenue as now laid out is seventy-four feet wide and has a paved roadway of thirty-six feet, through which it is proposed to run two railway tracks, in which case but little room remains on either side of the tracks for teams to pass, and no doubt exists as to the necessity for said improvement. Should the pavement be widened without widening the street, only twelve feet on either side of the roadway would remain for sidewalk, (from the line of the lots to the curb), which would in the opinion of the Board meet with the same objections that the narrow roadway now does.

However, if the property owners will dedicate eight feet on either side of the avenue to the city the widening of the pavement would be an improvement much needed, and the Board recommend that when said property owners shall so dedicate sixteen feet to the city, that seven feet on either side of the roadway be paved.

Respectfully submitted,
ALEX. CHAPOTON,
President.

Accepted and placed on file.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—The Board of Public Works to whom was referred the petition of Messrs Avery & Murphy for a brick lateral sewer in and from the alley intersecting Ninth avenue north of Grand River avenue, through the alleys intersecting therewith to McLean street, respectfully recommend that the prayer of the petitioners be granted.

Respectfully submitted,
ALEX. CHAPOTON,
President.

Accepted, and on leave, Ald. Guthard offered the following:

Resolved, That a brick lateral sewer is hereby ordered to be constructed in and from the alley intersecting Ninth avenue north of Grand River avenue through the alleys intersecting therewith to McLean street, and the Board of Public Works shall and is hereby directed to advertise for five days for proposals for constructing the same.

Adopted as follows:

Yeas—Ald. Blodgett, Christian, Clark, Dorr, Danlap, Finney, Finnegan, Gies, Guthard, Haller, Heames, Herrick, Jackson, Kurtz, Liggett, Mitchell, Owen, Rouland, Schmitt, Shanahan, Wilks, and the President—22.

Nays—None.

FROM THE CITY TREASURER.

To the Honorable the Common Council:

GENTLEMEN—I have the honor to inform you

that the Street Paving and Redemption Law Bonds of the city of Detroit, which have become due, and have been presented and paid during the past fiscal year, are now ready for inspection in this office.

I respectfully request that you will appoint a special committee from your honorable body, as required by charter, to examine and cancel the same as early as practicable.

I have the honor to be
Very respectfully,
WM. PARKINSON,
City Treasurer.

Accepted, and the recommendations were concurred in.

Thereupon the Chair appointed the Committee on Ways and Means and City Controller a committee to accomplish the purpose above set forth.

FROM THE ENGINEER.

To the Honorable the Common Council:

GENTLEMEN—A resolution was passed at your last session directing the City Engineer to fix the proper numbers on all lots and all newly opened and platted streets in the City.

I desire to state in reference to this matter that the books now used for house numbers are not nearly large enough to contain the proposed additions. A new set of books are therefore needed.

As a considerable amount of time and labor is requisite to carry out the proposed measure I respectfully suggest that the matter be referred to a Committee to decide upon the proper course to pursue.

Very respectfully,
H. D. LUDDEN,
City Engineer.

Accepted and referred to the Committee on Streets.

FROM THE POLICE JUSTICE.

To the Honorable the Common Council:

GENTLEMEN—The undersigned, Police Justice of the city of Detroit, would most respectfully ask that an additional compensation may be allowed to him for services rendered, during the year 1875, at the "Police Central Station Court."

The reasons for asking for such an allowance are briefly these:

That for a number of years the compensation of the Police Justice has been invariably fixed at the sum of twenty four hundred dollars, as will appear by the reports of the Committee of Ways and Means and by the city manual, of each year.

That of this amount of twenty-four hundred dollars, there has been paid for the last ten years, by the county the sum of eighteen hundred dollars, and by the city the sum of six hundred dollars.

That the amount of \$1800, was continued to be paid by said county, up to the 1st of March, 1875, when it was for the first time discovered, that an act of the Legislature, approved March 31st, 1871, Session Laws, vol. 3, page 124, had been passed. Whereby the Police act of 1860, was so amended, that the County Auditors could only allow and pay a sum "not to exceed twelve hundred dollars," thereby taking away the power heretofore exercised by said Auditors, of allowing additional compensation to the Police Justice, whenever the duties of the office should be so increased as to justify the same. A communication from the Prosecuting Attorney, is herewith presented.

The County Auditors now say that under this amended law they have no power or authority to continue the allowance of \$1,800 per year, and instead of paying \$180 per month, as they had done up to the 1st of March 1875, only now pay \$100 per month.

That the effect of this amendment and the action of the Board of County Auditors, reduced the compensation of the Police Justice, for the year 1875, just five hundred dollars, and that for the services rendered for the year he has only received \$1,900 instead of the twenty-four hundred dollars as fixed upon at the beginning of the year as the compensation he should receive.

The undersigned has always understood that the small sum of six hundred dollars per year as allowed by the city for services at the Police Central Station Court was

fixed by ordinance at that amount, for the reason that \$1,800 was allowed and paid by the county, thus making the salary \$2,400, and which was thought to be a fair compensation for all the services rendered by the Police Justice, and now, that the Auditors cannot allow this \$1,800 it is respectfully submitted, if it is just and right, that additional compensation to make up that sum should be withheld.

"It must be borne in mind that the allowance now claimed, of five hundred dollars, is not an increase of compensation, but only to make up the amount of \$1,400, which has been paid to the Police Justice for the last ten years, and which was intended to be paid to him for services for the year 1876."

That the duties of the Police Justice at the Police Central Station Court are arduous and constant. That during the year 1876 there have been tried and disposed of 3,587 cases, and the sum of \$7,485 in fines, received and paid over by the Clerk of said Court. In view of the amount of business done, it is most respectfully submitted, that the allowance of the claim now presented, would be no more than a fair compensation for the services thus rendered—and if not allowed by the Common Council no compensation can be obtained elsewhere, and the singular fact would be presented, that among all the city officers for the year 1876, the Police Justice was the only one whose compensation was reduced and that too without any intention of the Common Council to do so.

The Common Council alone have the power to afford relief from the strange and singular complication, in which the compensation of the Police Justice is now involved, and the whole matter is now submitted to the Common Council with a full belief that they will do what is right and just in the premises.

The undersigned also begs leave to state that in view of the fact that it was not intended to reduce the salary of the Police Justice, in fixing the compensation of city officers for the year 1876, it will become necessary for the Common Council to amend Section 4 of Chapter 27, of the Revised Ordinances of the City, establishing a Police Central Station Court, so that the compensation of the Police Justice shall be twelve hundred dollars instead of six hundred, as now fixed by said ordinance, and which the undersigned most respectfully requests may be done.

Respectfully submitted,

D. E. HARBAUGH,
Police Justice.

[COPY.]

Hon. D. E. Harbaugh, Police Justice:
DETROIT, January 19, 1876.

DEAR SIR—In reply to your enquiry with regard to the power of the Board of Auditors over the salary of the Police Justice, I answer that by the law they cannot pay him more than \$1,800 a year. "He shall receive an annual salary not to exceed twelve hundred dollars per year for the time he shall exercise the duties of such office, to be fixed from year to year by the Board of County Auditors." *Sess. L. 1871, vol. 3, p. 184.* This is clear and explicit, and admits of no controversy.

Yours, truly,

JOHN G. HAWLEY,
Prosecuting Attorney.
Accepted, and referred to the Committee on Judiciary and Counselor.

JUDICIARY.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Judiciary, to whom was referred a communication of Wm. A. Throsp, Receiver of Taxes, relative to the chief clerkship in his office, beg leave respectfully to report that the charter (chapter 2, section 14) provides that the official terms of all officers who are appointed shall commence and expire on the third Tuesday of January, and Mr. Hiram S. CLAIMS AND ACCOUNTS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Claims and Accounts, to whom was referred the Controller's list of approved accounts of the 18th of January, 1876, respectfully report, that they have examined the same, and believing them to be correct, would recommend that they be paid from the proper funds.

SEYMOUR FINNEY,
JACOB GUTHARD,
DANIEL SHANAHAN.

Accepted and adopted as follows:

Yeas—Ald. Blodgett, Christian, Clark, Dorr, Dunlap, Finney, Finnegan, Gies, Guthard, Haller, Heames, Herrick, Jackson, Kurtz, Liggett, Mitchell, Owen, Rouland, Schmitt, Shanahan, Wilks, and the President—22.

STREETS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Streets, to whom was referred the petition of J. B. Wilson and others, for the construction of a bridge over

the Michigan Central Railroad track on Thirteenth-and-a-half street, report:

Thirteen-and-a-half street, from Howard to Marquette street, is very low, and before a bridge is constructed across the Michigan Central Railroad track at that point, the street should be raised or filled up, and in order to have the earth compact and firm it would require two years to settle. It is therefore deemed unnecessary under these circumstances to undertake this improvement at the present time.

The necessity for this bridge does not seem urgent, for the vicinity in which it is to be located is but sparsely settled, and by opening Marquette street at its intersection with Twelfth street, or by constructing a sidewalk on the north side of Howard street, from Thirteenth to Fourteenth street, an outlet will be afforded.

Your committee therefore recommend that the prayer of the petitioners be denied.

Respectfully submitted.

GEORGE DORR,
DANIEL SHANAHAN,
JACOB GUTHARD.

Accepted and concurred in.

FIRE LIMITS.

To the Honorable the Common Council:

GENTLEMEN—The Committee on Fire Limits respectfully report that they have considered the various matters referred to them and report thereon as follows: John Noonan asks to be allowed to erect a wooden shed on Woodbridge, between Beaubien and Antoine streets. The locality is thickly settled, and is in the midst of factories and wooden structures, and any additional woodwork would but increase the risk by fire. Your committee cannot recommend that permission be granted. Mr. McGeldrick petitions to build a new house entire on Abbott street near Ninth avenue. We have heretofore expressed ourselves as opposed to the construction of new buildings, believing that all necessary precautions and safeguards should be adopted for the safety and protection of property from danger by fire, and we report adversely to the petition. The remonstrance of Xavier Groyean sets forth that permission was granted to Joseph Gitre on January 9th to erect a barn on the southeast corner of Grand River avenue and Eighth street, and that the said barn is 30x40 feet in size, and is used for the accommodation of farmers and the general public. The construction of the barn is a detriment to the surrounding locality, and Mr. Groyean asks that relief be afforded him. The committee would beg to suggest in this connection that all matters of this character be referred to the Fire Committee or Marshal for investigation, but would report that they are unable to furnish Mr. Groyean the relief asked for. The petition of Mrs. Della A. Magee to board up a small store No. 180 Gratiot avenue, we have examined, and find that a brick wall has been erected, and the repairs furnished. We also find that the walls adjoining are in a dangerous condition, being old and decayed, and would recommend that the Board of Public Works be instructed to investigate the premises and ascertain if the said walls are in a safe condition. Washington Roberts petitions to remove a frame house on Macomb street, near the railroad track, inside the fire limits. The Committee report adversely thereto for obvious reasons, and would recommend that no such changes be permitted unless necessity imperatively requires it. Adelaide Smith, No. 308 Congress street, east, asks to be allowed to construct a woodshed 30x14 feet, between wooden buildings adjoining thereto. The change will unquestionably increase the fire risk, and the Committee report adversely thereto.

Very respectfully,

SEYMOUR FINNEY,
JACOB GUTHARD,
JOHN D. FINNEGAN.

Accepted and adopted.

ORDINANCES.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Ordinances to whom was referred the petition of George F. Thompson and others asking for an amendment to

the ordinance, relating to the occupation of sidewalks for the display of goods, so as to permit the display of signs, images and bulletin boards, indicating the nature and place of business, respectfully report that they have examined the matter and would recommend the adoption of the accompanying amendment thereto.

R. A. LIGGETT,

FROM THE ATTORNEY.

To the Honorable the Common Council:
GENTLEMEN—The undersigned respectfully informs your honorable body that in a suit now pending in the Supreme Court of the State of Michigan, wherein the People ex rel. The Michigan Paving Company are relators and the Common Council of the city of Detroit, respondent, a copy of the petition, together with a certified copy of an order granted in said cause, has been served upon me commanding the respondent to show cause on the first day of the next April term of said court, why a peremptory mandamus should not issue to compel the respondent to levy an assessment upon the owners of property properly taxable to pay a balance due relator on a contract for grading and paving St. Antoine street, in the city of Detroit.

Respectfully submitted,

WILLIAM C. MAYBURY,

City Attorney.

Accepted and referred to the City Counselor.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—The undersigned, to whom was referred the petition of James Rathwell, David Fleming, Isaac Winch, Hamlin & DeMars, and Thomas Bunt, praying that the amounts of money severally paid by them for benefits assessed in the matter of opening Twenty-first street, might be refunded to them, would respectfully report as follows: It appears from the testimony of the several parties herein named, that within sixty days from the date the notice of assessment had been served upon them by the City Attorney, and before a warrant had been placed in the hands of the City Collector to enforce the payment of the tax, the petitioners paid their several assessments into the office of the City Treasurer accompanied by verbal protests against such payment.

At the time, and under the circumstances, in which the payments were made in these cases, there could have been no duress or compulsion influencing the parties, except such as arose in their own minds from the mere apprehension of a distress warrant, or the threat to use legal process to collect the assessment which might have been implied from the notice of the City Attorney.

The authorities are very clear that the payment of a tax under the mere apprehension of a legal process, or even under a threat to use legal remedies, to collect does not make the payment a compulsory one. A recovery can be had only in this class of cases where the tax has been paid to release the property from a levy or to the Collector armed with legal process to enforce payment.

The warrant when placed in the hands of the Collector is in the nature of an execution running against the property of the party named therein, and payment in such a case is necessary to prevent the seizure of goods or levy upon the real estate of the debtor, but a payment to the City Treasurer is a payment made to an officer clothed with no power to enforce the same, and the law construes such a payment to be a voluntary one. I am therefore of the opinion that the petitioners cannot legally recover the several amounts claimed by them, and would recommend that the prayer of the petitioners be denied.

Very respectfully,

WILLIAM C. MAYBURY,
City Attorney.

Accepted and concurred in.

FROM THE COUNSELOR.

To the Honorable the Common Council:

GENTLEMEN—The undersigned being requested to report to the Council whether, under the late decision of the Supreme Court the resolution passed last year allowing saloons, restaurants, etc., to keep open after ten o'clock P. M. is valid, states that under the act of May 3d, 1875, it is competent from the Council to fix the hours that saloons, restaurants, etc., shall close their doors, and that a resolution to have them closed at 10 o'clock P. M. is, in my opinion, valid.

Respectfully submitted,

D. C. HOLBROOK,
City Counselor.

Accepted and placed on file.

FROM THE GAS INSPECTOR.

To the Honorable the Common Council:

GENTLEMEN—The public street lamps throughout the city will be lighted and extinguished in the month of February as follows, viz: 1st to the 3d inclusive, light at 5 P. M. and put out at 5 A. REPORTS OF COMMITTEES.

JUDICIARY.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Judiciary to whom was referred the communication of D. E. Harbaugh, police justice in reference to his salary, beg leave respectfully to report:

That the statements made in said communication are substantially correct, that in the opinion of your committee the original total salary of \$3,400 per annum is not too large for the services demanded and performed, that the law for the proportion of the salary paid by the county cannot at present be changed and that it will make a difference to the city of only about \$100 per year whether this is paid by the county or by the city alone.

Therefore we recommend the adoption of the ordinance presented herewith.

FROM THE ATTORNEY.

To the Honorable the Common Council:

GENTLEMEN—The undersigned respectfully informs your honorable body that he has received from the Controller a declaration served upon him in a suit commenced in the Superior Court of Detroit, wherein the Detroit Gas Light Company is plaintiff and the City of Detroit defendant. The cause of action is founded on the refusal of the city to refund the plaintiff the amount of an assessment collected in the matter of opening Twenty-first street.

Respectfully submitted,

WILLIAM C. MAYBURY,

City Attorney.

Accepted and referred to the Committee on Judiciary and City Counselor.

FROM THE COUNSELOR.

To the Honorable the Common Council:

GENTLEMEN—I have reason to believe that my communication to the Council at its last session relating to the power of the Council to regulate the time for the opening and closing of saloons has been construed to apply to the first day of the week as well as other days; and that there may be no misunderstanding on the subject I wish to say that the Council cannot in any way or manner authorize any place where malt or spirituous liquors are sold to be opened on the first day of the week.

Respectfully submitted,

D. C. HOLBROOK,

City Counselor.

Accepted and placed on file.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—In compliance with a resolution offered by Ald. Liggett requesting the undersigned to report whether, under the charter, the Council has the right to remit a pro rata amount of the liquor tax to the dealer, if he ceases the business prior to the expiration of the time for which he has paid reports that the tax being collected by the Sheriff instead of the city officers has nothing to do with the matter, and if the refunding was to be governed entirely by the act of May 3d, I would not hesitate to say it could not be done, but I am of the opinion that section 28, chapter 5, of amendments of 1869, has something to do with the question. That section is as follows: "The said Common Council shall have power when it shall appear that any tax or assessment is unjust or is based upon property not owned by the person to whom it is assessed, by a two-thirds vote of all the members elect, repay the same out of the contingent fund if collected or if not collected, to vacate the assessment in whole or in part in the manner and with like effect as is provided for in case of illegal taxes and assessments in this chapter."

In carrying into effect many of the provisions of the charter, certain assessments are made according to law, and could not be done otherwise, which are certainly unjust, and in such cases relief is, and ought to be had under this section.

The tax assessed upon the business of dealing in certain liquors is not assessed directly, as such for revenue merely, and is very different from an assessment for general purposes on property.

The law provides for the payment of a part of the tax for a part of the year, when the year has partly expired; and there are, or may be cases where, from death, fire, or any other cause, the person who has paid the tax for the whole year is compelled to give up the business. All such cases are subject to the discretion of the Council whether it would be just or unjust to retain the money.

A large and very respectable class of our citizens contend that the tax should not be collected at all, for the reason that the business should not be tolerated, and that to collect a tax on a business from which more misery and crime arises than all other causes, is to give it countenance. This may be so; yet I think no one will say it is just to compel any one who desires to discontinue the traffic, to continue it in order to reap some small personal benefit for the right he is entitled to exercise, even against his will. We all know it would be better, peculiarly, for the city to refund every dollar paid into the treasury if every one would quit the business; and if this is correct, why is it not unjust to retain the money from one who would prefer giving up such business?

I look upon the question as one entirely in the discretion of the Council, and the more the Council exercises this discretion the more it will be abused.

Respectfully submitted,
D. C. HOLBROOK,
City Counselor.

Accepted and placed on file.

FROM THE BOARD OF PUBLIC WORKS.

To the Honorable the Common Council:

GENTLEMEN—In response to the following resolution of your honorable body, to wit:

Resolved, That the Board of Public Works be and they are hereby directed to examine the records and ascertain if there is not a lease on record granting the use of the foot of Randolph street to A. M. Campan, said lease running for ninety-nine years from the year 1824, leaving an unexpired term of fifty-seven years, said lease having been given by the Land Board and confirmed by Congress.

The Board of Public Works respectfully report: On the fifth day of August, 1894, an act was approved authorizing Peter Berthelet, his heirs and assigns, to construct a wharf sixty feet wide at the foot of Randolph street and running to the ship channel bank, with the right to use the same for the term of ninety-nine years from the approval of the act.

The conditions of this act are that said Berthelet shall deed to the city a site suitable for market purposes, and to keep at his own expense, at or near the end of said wharf, a good and sufficient pump which all persons residing in the city may have access to, without charge, and free of wharfage, in conveying merchandise, etc., over said dock. Also that he shall, during the continuance of the lease, at his own expense, keep the same in proper repair, but not to erect any buildings thereon.

It is also provided that parties owning lots fronting or adjoining said street shall have the free use of said street for all needful purposes.

As required by the act, Mr. Berthelet conveyed to the city lot 83, section 4, Governor and Judges' plan, for market purposes.

The foregoing being the facts in the case, the board submit the same for such action as in your wisdom may be deemed expedient.

Respectfully submitted,
ALEX. CHAPOTON,
President.

Accepted and placed on file.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—The Board of Public Works to whom was referred the petition of Joseph Frey and others for a lateral sewer in the alley bounded by Croghan, Lafayette, Rivard and Hastings street and the remonstrance of Peter Ulrich and others against the same respectfully report:

In 1856, a wooden box drain was constructed in this alley from Rivard street to the west line of Rivard farm, and in 1869, this drain was extended from the west line of the Rivard farm to the alley east of Hastings street. This box drain has been laid some fourteen years, and except for the accommodation of three of the property owners has proved to be of sufficient capacity to drain the premises in this vicinity. Without a proper examination of the same, the Board are unable to determine the necessity therefor and recommend

that the further consideration of the matter be postponed until next spring when the weather will permit the alley to be excavated and the necessity for a brick lateral sewer determined.

Respectfully submitted,
ALEX. CHAPOTON,
President.

Accepted and placed on file.

FROM THE CITY TREASURER.

To the Honorable the Common Council:

GENTLEMEN—In 1874 proceedings were instituted and in 1875 concluded, to open the alley in the block bounded by Larned and Congress streets, Elmwood and McDougall avenues, and damages were awarded and assessed to sundry persons, some of which were collected and paid out, but owing to the decision of the Supreme Court the alley was never opened and proceedings were abandoned: Mr. Thomas A. Parker was paid two hundred dollars for damages and he executed a release to the city which was and is of itself useless. Mr. Parker desires to refund the money on return of his release, which I recommend, and that the matter be referred to the Committee on Streets for consideration.

I have the honor to be
Very respectfully,

WM. PARKINSON,

To the Honorable the Common Council:

GENTLEMEN.—Your Committee on Ways and Means, to whom was referred the resolution of the Board of Health relative to the establishment of public baths, have had the same under consideration, and respectfully report, that whilst they believe that cleanliness of person is the duty of all, and one of the most vital requirements to health in communities as well as individuals, and that a free use of the same both outwardly and inwardly, are to be commended, we still believe that in view of the depressed state of business, and the large numbers of our citizens and taxpayers out of work, it would not be wise or proper to indulge in any unnecessary expenses at the present time, but that all the energies of all classes should be bent to the one end of relieving the public and private burdens to the greatest extent possible and not to an increase of the same. We therefore report adverse to the adoption of the resolution at the present time. All of which is respectfully submitted.

To the Honorable the Common Council:

GENTLEMEN.—The Committee on Fire Limits report upon the petition of Messrs. The petitioners occupy the premises in the capacity of tenants, and the owners thereof have signed their petition as set forth. The change if granted, will in our opinion enhance the fire risk, and as the people residing in the location are opposed to the construction of the building, they recommend the prayer of the petition be not granted.

Very respectfully,

JACOB GUTHARD,
PAUL GIES,
SEYMOUR FINNEY.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—The Board of Public Works respectfully recommend that the Griswold street sewer be extended from its present terminus to the north line of Grand River avenue; also, that in extending said sewer it be let in two sections and to different contractors, thereby affording an opportunity for a greater number of laborers to be employed on said work. For this purpose there is sufficient money to the credit of the public sewer

fund, and by extending this sewer now the obstructions caused thereby to the business community would not be felt as much as if the work was deferred until spring. It is therefore recommended that the Board be directed to advertise ten days for proposals for constructing said sewer.

Respectfully submitted,

ALEX. CHAPOTON,

President.

Accepted, and on leave Ald. Guthard offered the following:

Resolved, That the Board of Public Works is hereby directed to advertise ten days for proposals for extending Griswold street sewer from its present terminus to the north line of Grand River avenue.

CLAIMS AND ACCOUNTS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Claims and Accounts, to whom was referred the Controller's list of approved accounts, respectfully report that they have examined the various pay-rolls contained therein, and believing them to be correct would recommend that they be paid from the proper funds.

SEYMOUR FINNEY,

DANIEL SHANAHAN.

Accepted and adopted as follows:

STREETS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Streets, to whom was referred the communication of William Parkinson, City Treasurer, setting forth that Thomas A. Parker had made a proposal to him the said Parkinson to refund the amount of an assessment paid said Parker for damages assessed in the matter of opening an alley, bounded by Larned and Congress streets, McDougal and Elmwood avenues, the consideration for such refunding on the part of said Parker to be the cancellation of his deed of release executed to the city in said above-mentioned matter, would respectfully report, that a careful examination of Mr. Parker's proposal fails to disclose any equitable reasons for accepting the same, while manifest injustice would result to other parties interested. As to the legality of such a proceeding, your committee have serious doubts, even if such a course were found desirable. They therefore recommend that the proposal of Mr. Parker be not accepted.

Respectfully submitted.

GEORGE DORR,
DANIEL SHANAHAN,
JACOB GUTHARD.

Accepted and adopted.

FIRE LIMITS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Fire Limits to whom was referred the petition of Henry Maybury asking permission to repair and enlarge a barn in rear of his premises No 356 Lafayette avenue, would respectfully report that they have examined the barn and premises in question and find the barn old and dilapidated and ready to fall

down. If the barn is repaired, it must have new sills, new posts, new siding, new roof, in fact must be rebuilt. The purpose of the fire ordinance is to prevent as much as possible the erection and maintenance of such structures, so that finally they will pass out of sight, and the fire limits be reasonably safe from racing conflagrations. This purpose can never be accomplished if every old wooden building is permitted to be rebuilt by your honorable body. We, for the reasons noted, report adversely to granting the prayer of the petitioner.

Respectfully submitted.

JACOB GUTHARD,
SEYMOUR FINNEY.

Accepted and adopted.

TAXES.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Taxes, to whom were referred the petitions of Timothy Gorman, Henry Miller, P. G. Cory & Co., F. Fanke, C. J. Campbell, John West, C. Verdun, C. Vogelaar, F. J. Kaufman, Henry Einsenroth, and Christian Schroeder, asking to be refunded a portion of the liquor tax paid by them in consequence of their having quit its sale, beg leave to report that they have given the matter very careful and serious consideration.

In the opinion of the City Counselor, given to your honorable body January 28th, it is within the power of the Council to remit a pro rata amount for the unexpired time if in its judgment the refusal to repay the tax would be an act of injustice. The question of legality therefore being settled, it remains for the Council to decide whether the refusal to refund the tax would be disregarding the just rights of persons quitting the business, and also whether one of the objects intended to be accomplished by the enactment of the liquor traffic law that of preventing as much as possible its sale would not thereby be defeated.

When a person desires to engage in the sale of malt or spirituous liquors, he applies for permission to the proper officers, and upon the payment of the appropriate tax and giving bonds, such permission is granted for one year, or for a fractional part thereof, in case the application is made after the assessment rolls are completed at the beginning of the fiscal year. He is then at liberty to engage in the sale of liquor or not, as his inclinations may direct or his business prospects warrant. He pays for the special privilege for a stated time, and it is not the fault of the assessor or tax collector that he does not enjoy it, neither do we believe it to be the duty of the Common Council to guarantee him a profitable business in order to justly hold the tax nor to refund in case of a failure to continue for the time paid for. The tax being legally and justly collected the subsequent and voluntary act of the dealer in going out of business does not render it unjust. If a person applies at the beginning of the fiscal year for the privilege of selling liquor, he is required to pay for one year although he may not intend to follow it for one month; but should he begin at any other time in the year he is only required to pay a pro rata tax for the unexpired time in order that the fiscal year of all should begin and end at the same time; for by this arrangement only could the collection of the tax be rendered systematic, and it cannot be inferred from this that the law does not intend to impose the tax only for the time actually engaged in the business, or that it should be refunded provided he quits it before the expiration of the time for which he paid.

The tax assessed for the privilege of selling liquors is not solely for the purpose of deriving a revenue therefrom but also for the prevention of their sale. We think it safe to assume that persons engaging in this business, like any other, and finding it profitable will continue, and the knowledge or assurance that the pro rata amount of the tax would be refunded would be no inducement whatever for them to go out of it. Only those who fail to meet the success expected discontinue and it is not for the return of the tax that they go out but entirely for want of success. It certainly would be better pecuniarily for the city to refund every

dollar paid into the treasury if every one would quit the business; but no one will believe that such a proposition would be accepted or in fact that any number would be induced to quit it simply because the tax paid would be returned, and we do not believe that any one will be compelled, against his will to remain in the business after it ceases to be profitable, because of such refusal.

Now that many are out of employment in this city, and the risk of engaging in this business being greatly lessened by the fact that the Council would refund the tax, in case of failure to succeed, many would go into it who otherwise would not assume the risk of losing the amount paid for tax in the event of failure in business. Saloons are rapidly increasing in numbers in this city, and we believe it to be one of the objects of the law to prevent this as far as possible; and we also believe that that object can best be secured by the refusal to repay the tax.

There may be extreme cases where it would be, in a degree, just to refund the tax; but believing that no such circumstances exist in either of the petitions named in this report, your committee would therefore recommend that the prayers of the petitioners be denied.

Respectfully submitted,

C. C. BLODGETT,
R. A. LIGGETT,
H. HEAMES.

Ald. Gies moved to lay the report on the table.
Carried as follows:

Yeas—Ald. Clark, Dorr, Gies, Guthard, Haller, Herrick, Jackson, Kurtz, Mitchell, Owen, Rouland, Schmitt, Shanahan—18.

Nays—Ald. Blodgett, Christian, Dunlap, Finney, Finnean, Heames, Liggett, Wilks, and the President—9.

PARKS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Parks, to whom was referred the resolution offered by Ald. Owen relative to cutting down the fence around Case Park and furnishing padlocks for the same, would respectfully report that we have had the matter under consideration, and are of the opinion that the proposed change is necessary and proper improvement. We therefore recommend the adoption of the original resolution.

Respectfully submitted,

WM. A. OWEN,
GEORGE DORR,
GEORGE WILKS.

The report was accepted, and the resolution was adopted by the following vote:

Yeas—Ald. Blodgett, Christian, Clark, Dorr, Dunlap, Finney, Finnean, Gies, Haller, Heames, Herrick, Jackson, Liggett, Mitchell, Owen, Schmitt, Shanahan, Wilks and the President—19.

Nays—Ald. Guthard, Kurtz, and Rouland—3.

SPECIAL.

To the Honorable the Common Council:

GENTLEMEN—Your special committee, consisting of the Committee on Judiciary and the City Counselor, to whom was referred the communication of Moses P. Hutchins, respectfully report that the facts as to his appointment and removal from office are substantially as therein set forth; that the resolution adopted by the Council on the 2d of August, 1875, ordering the clerkship occupied by him vacant was under the charter a legal removal of Mr. Hutchins from the office, and that he has no legal or valid claim on the city for salary since that date.

Respectfully submitted,

GEORGE DUNLAP,
JOHN D. FINNEGAN,
JAMES I. MITCHELL.

Committee.

D. C. HOLBROOK,

After a careful consideration of the subject, your Committee would recommend that all bids be rejected, and that the Controller be directed to re-advertise for five days for new bids.

STREETS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Streets, to whom were referred the respective petitions of C. M. Stoddard and William A. Kruger, praying that permission might be granted them to occupy a portion of the street, or alley adjacent to their premises, with vehicles used by them, would respectfully report: That they are averse to granting the prayer of the petitioners. To grant the permission desired by the petitioners would be to confer upon them the special privilege of violating the ordinance now in force, and which is binding upon all other citizens. This kind of legislation is discriminating in its character and does injustice. However, the frequent presentation to this Council of petitions of the nature of these under consideration has made it appear expedient to your committee that the ordinance governing the temporary occupation of streets, alleys and other public spaces should be amended so as to confer a more equitable and uniform distribution of privileges. The ordinance as it now stands gives to carriage makers and blacksmiths the right to place in the streets in front of their places of business for the space of six feet all wagons, carts and other vehicles undergoing repairs. The amendment proposed by your committee extends the privilege referred to in the ordinance to inn-keepers and keepers of livery stables, and further provides under proper regulation for the use of alleys by draymen, expressmen, and other persons using vehicles in the prosecution of their business. Your committee recommend the adoption of an ordinance herewith presented.

Respectfully submitted,

GEORGE DORR,
JACOB GUTHARD,
DANIEL SHANAHAN.

Accepted, and the ordinance was read the first and second time by its title, as follows:

"An ordinance to amend section 6 of chapter 37 of the Revised Ordinances of 1871 as amended by ordinance passed June 17, 1873.

The ordinance was then laid on the table and ordered printed in the proceedings.

The following is the ordinance:

An ordinance to amend Section 6 of Chapter 37, of the Revised Ordinances of 1871, as amended by ordinance passed June 17th, 1873.

It is hereby ordained by the Common Council of the City of Detroit,

SECTION 1. That section 6, of chapter 37, of the Revised Ordinances of 1871, as amended by ordinance passed June 17th, 1873, be, and the same is hereby amended so as to read as follows:

SECTION 6. No person shall leave any wagon, cart, or other vehicle standing in any street, alley or other public space, without the same is actually in use at the time. Provided, that this section shall not be construed as prohibiting carriage makers, blacksmiths, inn-keepers, and keepers of livery and lodging stables from temporarily occupying the street for the space of six feet immediately in front of the premises occupied by them with vehicles undergoing immediate repairs, or with vehicles from which horses have been unhitched for the purpose of being shod, or with vehicles of farmers, and other persons temporarily lodging with said inn-keeper or keeper of a livery stable. Nor shall this section be construed to prohibit draymen, expressmen or other persons from occupying the alley for the space of six feet immediately in the rear of the premises occupied by them with such vehicles as are being actually used by them in the prosecution of their several business callings.

SECTION 2. This ordinance shall take immediate effect.

ined the premises and would recommend that the petitioner be allowed to construct a kitchen 22x16, and ten feet high, provided the spaces between the studding be filled in with brick.

Respectfully submitted

JACOB GUTHARD,
SEYMOUR FINNEY,

Yeas—Ald. Blodgett, Christian, Clark, Orr, Dunlap, Finney, Finnegan, Gies, Guthard, Haller, Heames, Jackson, Kurtz, Liggett, Mitchell, Rouland, Schmitt, Shanahan, Wilks, and the President—20.

Nays—None.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Taxes to whom was referred the petition of Mathias Blings asking to be refunded the sum of \$5 53, the amount claimed to have been erroneously assessed against him, report: That in 1861 he was assessed 98c for the construction of a plank crosswalk and that he paid the same and now holds the receipt; but through error the same was not entered on the books; and that recently he was assessed again, the original amount together with charges amount-

ing to \$5 58. We would therefore ask the adoption of the annexed resolution:

Respectfully submitted,

C. C. BLODGETT,
R. A. LIGGETT,
H. HEAMES.

Resolved, That the Controller be and he is hereby directed to draw his warrant on the proper funds in favor of Mathias Shings for the sum of \$5 58.

FROM THE SAME.

To the Honorable the Common Council:

MARKETS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Markets, to whom was referred the petition of S. W. Cummings and others, praying that the stalls in the Central Market might be rented on private terms, and not at public auction, as is now the custom, would respectfully report that they are averse to granting the prayer of the petitioners: that your committee are in favor of the method now in operation in leasing the stalls in said market as being the most beneficial to the public interests, and creating competition, in which equal opportunity to obtain stalls is afforded to every citizen.

Your committee would take this occasion to suggest to your honorable body the advisability of putting said Central Market in a better state of repair than it is at present, with a view to increasing the revenue to be derived therefrom. The income now obtained from the rent of stalls is very small, and your committee believe that by a slight expenditure of money in making necessary repairs the revenue can be at least doubled. Your committee therefore recommend that the Board of Public Works be instructed to examine into the condition of the stalls in the Central Market, especially that portion used for the sale of vegetables, etc., and report to this Council at the earliest day possible what repairs seem desirable to be made, and also the estimated cost of the repairs recommended, with plans and specifications of the work to be done.

Respectfully submitted,

DANIEL SHANAHAN,
GEORGE DORR,
GEO. W. HERRICK.

Laid on the table for one session.

JUDICIARY AND COUNSELOR.

The undersigned therefore

recommend that the prayer of the petitioner be granted, and they submit a resolution in accordance therewith.

Respectfully submitted,

GEORGE DUNLAP,
JOHN D. FINNEGAN,
JAMES I. MITCHELL,
Committee.

D. C. HOLBROOK,

COMMUNICATIONS FROM CITY OFFICERS.

FROM THE BOARD OF PUBLIC WORKS.

To the Honorable the Common Council:

GENTLEMEN—It having been represented that Lafayette street bridge is in a dangerous condition, the Board caused the same to be examined by Mr. Willard S. Pope, an expert in the construction of bridges, who recommends that the broken pin in the north truss should be replaced at once, for without it the truss is liable to fall at any time; also that rollers should be inserted under the end of the arches to provide for the expansion and contraction of the iron work. Also the entire span should be tightened up and adjusted. The eastern abutment is also in a bad condition and requires immediate attention. In making inquiries the lowest figures that can be obtained for making the necessary repairs will be about \$850, and it is recommended that the Board be authorized to have the bridge put in a safe condition.

Respectfully submitted,

ALEX. CHAPOTON,

President.

Accepted, and in connection therewith Ald. Dorr offered the following:

Resolved, That the Board of Public Works is hereby directed to cause the Lafayette street bridge to be repaired at a cost not exceeding eight hundred and fifty dollars, this being the lowest estimate therefor.

Adopted as follows:

Yeas—Ald. Blodgett, Christian, Clark, Dorr, Dunlap, Finnegan, Gies, Guthard, Haller, Heames, Herrick, Jackson, Kurtz, Mitchell, Rouland, Schmitt, Shanahan, and the President—18.

Nays—None.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—In response to the following resolution, to-wit:

WHEREAS, Macadamized pavement can be made more cheaply than any other kind; and

WHEREAS, Cobble stone for such pavement is abundant, and male labor in the House of Correction is lying idle for want of employment, and said institution is adjacent to the Milwaukee Railway track, making the transportation of material cheap; therefore,

Resolved, That the Board of Public Works be and are hereby instructed to inquire into the expediency of constructing said pavement in our city.

The Board of Public Works have the honor to report:

In but few cities are the streets macadamized. Chicago has six miles of this pavement with limestone. There it is not considered a very desirable pavement, for in dry weather the dust arising therefrom is very objectionable, and the mud is correspondingly so in wet weather.

The cost of the same there is about \$1 36 1/2 per square yard. This is for a road 18 inches deep. The durability of the same depends to a certain extent on the hardness of the stone used, the amount and kind of travel thereon, and the care and attention it receives. In Detroit by paying laborers from the House of Correction (for breaking stone) 30 cents per day, the streets can be macadamized with broken cobble stone for the

sum of \$1 33½ per square yard, which is about the average cost of cobble stone pavement.

The cobble stone pavement being free from the objections attending the Macadam pavement, the Board cannot see any benefit to be derived by substituting the latter for the former.

Respectfully submitted,

ALEX. CHAPOTON,

President.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—The Board of Public Works to whom was referred the petition of Chas. Wirtz and others for a brick lateral sewer in the alley in the block bounded by Antoine, Beaubien, Montcalm and Columbia streets, respectfully recommend that the prayer of the petitioners be granted.

Respectfully submitted,

ALEX. CHAPOTON,

President.

Accepted, and in connection therewith Ald. Guthard offered the following:

Resolved, That a brick lateral sewer is hereby ordered to be constructed in the alley in the block bounded by Antoine, Beaubien, Montcalm and Columbia streets, from the east line of L. Beaubien farm to St. Antoine street, and the Board of Public Works shall and are hereby directed to advertise five days for proposals for constructing the same.

Adopted as follows:

Yeas—Ald. Blodgett, Christian, Clark, Dorr, Dunlap, Finnegan, Gies, Guthard, Haller, Heames, Herrick, Jackson, Kurtz, Mitchell, Rouland, Schmitt, Shanahan, and the President—18.

Nays—None.

FROM THE CLERK.

That he presented the proceedings of the last session of the Council to the Mayor on the 9th inst., and they were approved on the 10th inst.

Accepted and placed on file.

FROM THE ATTORNEY.

To the Honorable the Common Council:
GENTLEMEN—The undersigned to whom was referred the resolution of Alderman Rouland, instructing the City Attorney to transmit to this Council an ordinance to provide for the keeping of correct statistics of mortality in the City of Detroit, would respectfully submit to your honorable body the ordinance herewith presented.

Respectfully submitted.

WM. C. MAYBURY,

City Attorney.

On motion of Ald. Rouland the communication was accepted, the ordinance was placed upon its first and second readings by its title, laid upon the table and ordered printed in the proceedings.

The following is the ordinance:

An ordinance to amend section 12 of chapter 72 of the Revised Ordinances of 1871, relating to the care and regulation of cemeteries.

It is hereby ordained by the Common Council of the City of Detroit:

SECTION 1. That section 12 of chapter 72 of the Revised Ordinances of 1871, be and the same is hereby amended so as to read as follows:

Sec. 12. It shall be the duty of every undertaker or other person acting as such, having in charge the interment of any deceased person, to deposit with the city sexton, or sextons, or superintendent of the cemetery wherein said interment is to take place, a certificate from the attending physician of the deceased, or, in case no physician was in attendance, from one of the city physicians called by said undertaker to make examination into the case, stating all the particulars as to the

name, age, sex, nativity, social condition, manner of death, or character of disease of the deceased person, which said certificate in blank shall be furnished to any undertaker or other person applying therefor to the City Clerk; and it shall be the duty of the City Sexton, sextons and superintendents of cemeteries in the City of Detroit to keep a register, to be provided by said city, of all persons buried in each of said cemeteries, giving in alphabetical order the name of the deceased, the number of the lot in which the body was buried, together with a transcript of the certificate furnished in the case, which said register shall be kept in the office of the City Clerk. It shall further be the duty of the sextons or superintendents aforesaid at least once in each month to record in the register herein provided for and in the manner herein set forth the burials which have been made since their last report, and also to file in the office of the City Clerk all certificates in their possession. Provided, that in all cases of persons dying in the City of Detroit where interments are to be made in cemeteries beyond the limits of the said city the certificate herein before mentioned shall be served by the undertaker in charge on the City Sexton, and shall be by him recorded and filed as in other cases provided.

Sec. 2. This ordinance shall take immediate effect.

FROM THE BOARD OF PUBLIC WORKS.

To the Honorable the Common Council:

GENTLEMEN—The Board of Public Works to whom was referred the petition of Charles F. Burton and others for a lateral sewer in the alley in the block bounded by Twelfth and Thirteenth streets and Laurel and Magnolia streets, respectfully recommend that the prayer of the petitioners be granted.

Respectfully submitted.

ALEX. CHAPOTON,

President.

Accepted, and in connection therewith Ald. Guthard, leave being granted, offered the following:

Resolved, That a brick lateral sewer is hereby ordered to be constructed in the alley in the block bounded by Twelfth and Thirteenth streets and Laurel and Magnolia streets, and the Board of Public Works shall and is hereby directed to advertise five days for proposals for constructing the same.

Adopted as follows:

Yeas—Ald. Blodgett, Christian, Clark, Dorr, Dunlap, Finney, Finnegan, Gies, Guthard, Haller, Heames, Herrick, Jackson, Kurtz, Liggett, Mitchell, Rouland, Schmitt, Shanahan, Wilks, and the President—81.

Nays—None.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—The Board of Public Works, in compliance with the report of the Committee on Markets, adopted by your honorable body on the 11th inst., have examined the stalls in the Vegetable and Fish Market, and respectfully report:

The stands in the Vegetable Market should be uniform in appearance and size, with the necessary shelving and counters over which the occupants can transact business. In the Fish Market, it is the opinion of the Board, that the wooden platforms now used should be dispensed with and stone slabs placed on suitable tables substituted therefor.

The Board herewith transmit a plan for such changes as are required, and estimate the whole cost for making the same about \$300.

Specifications will be furnished when the plan is accepted.

Respectfully submitted.

ALEX. CHAPOTON,

President.

Accepted and placed on file.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—On examining the tower of the City Hall, it is found that two of the iron girders rest on the arch over the dial of the clock, and two iron columns are supported by the girders which support the bell. On the striking of the

bell it has so weakened the brick arch as to cause a crack in the dial. The dial is now cracked across the center, and on the upper half in two places. In order to prevent further injury to the same, it is deemed necessary to have two iron columns and a girder so constructed as to rest on the floor below, for the purpose of lessening the weight now resting on the brick arch. The Board are of the opinion that these repairs should be made forthwith. The expense thereof will be from \$350 to \$400.

In connection with the above the Board would call your attention to a communication submitted January 8th, 1875, relative to the free access to said tower, and recommend that more stringent rules be enforced.

Respectfully submitted,
ALEX. CHAPOTON,
President.

Accepted, and in connection therewith, leave being granted, Ald. Rouland offered the following:

Resolved. That the Board of Public Works be directed to make all necessary repairs to the City Hall tower, as recommended in their communication this evening.

Adopted as follows:

Yeas—Ald. Blodgett, Christian, Clark, Dorr, Dunlap, Finney, Finneyan, Gies, Guthard, Haller, Heames, Herrick, Jackson, Kurts, Liggett, Mitchell, Rouland, Schmitt, Shanahan, Wilks, and the President—31.

Nays—None.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—The Board of Public Works, to whom was referred the petition of Messrs. Henkel & Voorhees for permission to place a platform wagon scale in the alley between Randolph and Bates and Woodbridge and Atwater streets respectfully report:

In order to comply with the prayer of the petitioners it will be necessary to grade and pave the alley, so as to permit the water to run from Randolph street to the alley running to Atwater street, and when so paved the alley should be of an even surface, and the scales placed flush therewith. The board, therefore, recommend that on the above condition being complied with the petitioners be granted permission to so place their scales. Also that all the work shall be done under the supervision and direction of the board and at the expense of said petitioners.

Respectfully submitted,
ALEX. CHAPOTON,
President.

Accepted and placed on file.

FROM THE SAME.

assessed the above amount for the opening of said street by the jury, under the Street Opening law, as it was in force up to the spring of 1875. Under the operation of that law very many streets were opened, and the result was in the main satisfactory, causing complaint only from that class of our citizens who are not always in favor of public improvements, when their own private interests are no to be subserved thereby. The matter went to the Supreme Court in one case, and said court decided against the law, and hence all proceedings were declared invalid, and all street and alley openings were abandoned for the time being. As many persons had paid assessments in these openings they endeavored to have the amounts refunded which the Council can only do, if said amounts have been paid under an actual threat of a levy, made by the collector, with his warrants in hand, and ready to seize upon any property for the tax. This, the courts have decided, is the law upon the subject, and we must abide by it. We take the liberty however of expressing our dissatisfaction with such proceedings, for the reason that the good citizen, who pays his taxes and assessments willingly, and without trouble to the collector, is thereby debarred from recovering his money, which in many cases he has worked hard for, while the shrewd and oftentimes tardy citizen, who has more opportunities to watch legal matters, more money to spare, but usually less willing to pay, by waiting till the collector threatens to levy, thus giving the city and the collector as much trouble and expense as he knows how, manages to recover his money. We found, upon careful consideration that Mr. Prentiss paid the above mentioned amount only after having been repeatedly so threatened by the City Collector, and only to save his horse and buggy from actual levy did he pay the tax to the City Collector, and therefore under the law is entitled to recover. We reluctantly recommend the adoption of the following resolution:

J. A. KURTZ,
J. B. ROULAND,
MICHAEL HALLER.

Resolved, That the Controller be and he is hereby directed to draw his warrant on the proper fund in favor of George E. Prentiss, for the sum of eighty-six and ninety-nine one hundredths dollars (\$86.99), for refunding the assessment on opening Twenty-first street.

Ald. Heames moved to indefinitely postpone the resolution.

Ald. Guthard moved to lay the matter upon the table until the question as to whether the city is legally bound to refund, is decided by the courts.

Carried.

OBITUARY.

Shadrach Gillette, died February 15th, 1876, aged 75 years.

A venerable man has passed away. His life is intimately connected with the history of this city for more than half a century. He loved his fellow-men with pure, unselfish friendship, which grew brighter as his years increased. To alleviate suffering and distress in the world seemed to be, to him, the greatest of pleasures. He had a smile for all, both young and old, and was always cheerful. His superior talent, purity of life, honesty of purpose, have all been devoted to truth and justice; and the impress of his character has been left not only upon his fellow-men, but upon the spirit of his day and generation. "The memory of his virtues still lingers, like twilight hues when the sun is set."

Resolved, That in token of our respect to the memory of Shadrach Gillette, an old and faithful public servant, the Controller be and he is hereby directed to cause the flag to be displayed at half-mast on Friday, February 18th, 1876.

COMMUNICATION FROM THE MAYOR.

To the Honorable the Common Council:

GENTLEMEN—Herewith I send a communication received from James M. Smith, Governor of Georgia; C. C. Hammock, Mayor of Atlanta; and Benj. E. Crane, President of the Board of Trade of the same city, extending to your honorable body an invitation to visit the State of Georgia.

The trip at this season of the year cannot fail to be an enjoyable one; I trust, therefore, that the communication will receive the consideration that its generous offer and the high source from which it emanates, entitles it.

ALEX. LEWIS,
Mayor.

Accepted.

[COPY.]

ATLANTA, Georgia, February 1, 1876.

To the Mayor and Council, Board of Trade, Editors, etc. of Detroit, Michigan:

GENTLEMEN—The representative people of Georgia wish to become acquainted with the representative men of all classes of the great North-west—a people so noted for their energy, intelligence, progressiveness, liberality, and patriotism, as well as independence and magnanimity. We desire to have a visit from you as of old: to have you mix with us, see us in our homes, in our public and private places. We wish to extend to you the hospitality of old days to the extent of

our means. With that end in view, an excursion has been organized, to which you are cordially invited, with a request that you extend the invitation to others at your discretion. We offer you a *free ride* from Chattanooga, in Tennessee to Atlanta, Georgia, (188 miles), from thence to the following beautiful cities, viz: Augusta (171 miles), thence to Port Royal (112 miles, when an opportunity will be given of visiting its splendid harbor and the United States Squadron, now concentrating there, thence to Savannah, (79 miles), thence to Thomasville and Albany (258 miles), and return. Several other road officials have declared that if the excursionists wished to see more of the State than will be seen by the trip marked out, they will pass them over their roads. Arrangements are being made by which it is expected half-fare tickets will be on sale to Chattanooga from all the larger Western places, and our hotels will provide for you at reduced prices.

In passing over the several roads, many of the lofty mountains, (including the greatest curiosity in the South, Stone Mountain), beautiful rich valleys, fine timber, creeks and rivers, and a portion of the vast mineral regions of North Georgia, and the productive cotton plantations of Middle and Southern Georgia, will be seen. There are no finer plantations in the South than are found around Thomasville, and its citizens have pledged themselves to give all an opportunity to see the mode of preparing the ground, the raising and preparing the cotton for market, as well as a full insight into the homes of the colored folks who do the work, with all the novel surroundings incident to their every-day life. We frankly admit that our chief object in inviting *representative citizens* of the liberal West is, that they may see and examine for themselves not only our vast resources, but more especially have them the better understand the friendly feeling existing among our people towards our Northern brethren, with the further hope of setting at rest forever the clamors so often raised, and kept alive by misrepresentations made because of a want of a knowledge of the true facts.

Ours is now a common country—our interests are one; we buy your produce, you our cotton, etc.; why longer remain separate? We are satisfied your report will be such as to remove all doubts, and do much towards harmonizing the sections.

Invitations to participate in this excursion have been extended to all the cities and leading places of the Northwest. Already many have signified their intention of coming to visit us.

Parties accepting this invitation, to be recognized by the railroad conductors, must be provided with a credential signed by the mayor of a city and its seal attached, or the official certificate of any railroad president. The visitors are expected to be in Atlanta by the 15th of March, as on that day, or the day following, the party will leave Atlanta for the several cities above marked out to be visited. You will please advise the Committee on Invitation, at the earliest day possible, of your acceptance or rejection of this invitation—if the former, the number that will probably come—that proper arrangements may be made.

Respectfully,

C. C. HAMMOCK,
Mayor of Atlanta, Ga.

We also cordially extend the same invitation to your Board of Trade. We desire to personally know the merchants and business men with whom we deal.

BENJ. E. CRANE,
President of Atlanta Board of Trade.

I fully endorse this invitation. It is a move in the right direction. The people of Georgia will be pleased to see the Northern people in their midst.

JAMES M. SMITH,
Governor.

DR. W. H. WHITE,
G. W. ADAIR,
W. C. MORRELL,
E. F. MADDOX,
CAMPBELL WALLACE,
Committee on Invitation.

Since the above was printed, the following telegram has been received:

CHATTANOOGA, Tenn., February, 1876.
I heartily approve of the movement, and will cheerfully pass the party from either Union City or Nashville to Chattanooga, and return free.

E. W. COLE, President.
Ald. Owen moved to refer the communication to the President of the Council, Committee on Ways and Means and Controller.

Ald. Dunlap moved to amend by referring the matter to a committee of five of which the Mayor shall be chairman.

Adopted.
The motion as amended was then adopted, and the chair appointed as such committee Ald. Owen, Blodgett, Liggett and Gies.

FROM THE ATTORNEY.

To the Honorable the Common Council:

GENTLEMEN—The undersigned would respectfully inform your honorable body that he has received from the Controller a declaration served upon him in a suit wherein Eugene Robinson and Jesse H. Farwell are plaintiffs and the City of Detroit is defendant. The action is brought to recover a balance claimed to be due said plaintiffs on account of paving Duffield street.

Respectfully submitted,

WILLIAM C. MAYBURY,

City Attorney.

Accepted and referred to the City Counselor.

FROM THE BOARD OF PUBLIC WORKS.

To the Honorable the Common Council:

GENTLEMEN—The Board of Public Works to whom was referred the petition of Jacob Wilson and others for a brick lateral sewer in the alley in rear of lots on the west side of Eighteenth street, between Michigan avenue and the Michigan Central Railroad track, for the purpose of carrying off the surface water on their premises, respectfully recommend that the prayer of the petitioners be granted.

Respectfully submitted,

ALEX. CHAPOTON,

President.

Accepted, and by unanimous consent Ald. Dorr offered the following:

Resolved, That a brick lateral sewer is hereby ordered to be constructed in the alley in the rear of lots on the west side of Eighteenth street, be-

tween Michigan avenue and the Michigan Central Railroad track, and the Board of Public Works shall and is hereby directed to advertise five days for proposals for constructing the same.

Adopted as follows:

Yeas—Ald. Blodgett, Christian, Clark, Dorr, Dunlap, Finney, Finnegan, Gies, Haller, Heames, Herrick, Jackson, Kurtz, Liggett, Mitchell, Owen, Schmitt, Shanahan, Wilks and the President—20.
Nays—None.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—In compliance with a resolution adopted by the Board of Health on the 17th inst., the Board of Public Works caused the box drain in the alley bounded by Croghan, Lafayette, Hastings and Rivard streets to be examined. An opening was made about twenty feet west of Rivard street, and the box drain was found to be about five and a half feet below the grade, and in the center of the block it is only four and a half feet below the level of the lots, thereby rendering the same inadequate for the purpose of draining cellars. On inspecting some of the cellars in this block it was found that they contain more or less water, and the dampness arising therefrom is a source of annoyance to the occupants of buildings in said block. As a sanitary measure it is the opinion of the board that a sewer is much needed, and recommend that your honorable body order the same to be constructed.

Respectfully submitted,

ALEX. CHAPOTON,

President.

Accepted, and leave being granted, Ald. Dorr offered the following:

Resolved, That a lateral sewer is hereby ordered to be constructed in the alley in the block bounded by Croghan, Lafayette, Hastings and Rivard streets, and the Board of Public Works shall and is hereby directed to advertise five days for proposals for constructing the same.

Adopted as follows:

FROM THE SAME.

Referred to the Committee on Ways and Means.

FROM THE SAME.

The Controller presented his annual report, which, on motion of A. d Dunlap, was ordered printed and referred to the Committee on Ways and Means.

The following is the report:

CONTROLLER'S OFFICE, Feb. 22, 1876

To the Honorable the Common Council:

GENTLEMEN—In compliance with the requirements of the charter, I submit herewith my annual report for the fiscal year of 1875-6.

The cash balance in the City Treasury,
February 1st, 1875, was \$ 127,569 95
Received during the year 1,595,566 75

Total \$1,723,136 71
Disbursements for the year 1,534,600 32
Balance in Treasury, February 1st,
1876 \$ 198,536 49

ISSUE AND SALE OF BONDS.

Of the public sewer bonds authorized to be issued in 1874, \$27,500 remained unsold at the close of the last fiscal year. In 1875 additional sewer bonds to the amount of \$100,000 were authorized to be sold. The cost of building the public sewers was much less than estimated, and for this reason, the necessity of selling the full amount did not arise. The bonds have been sold as the work progressed. May 12th, \$25,000 of these bonds were sold at a premium of 2½ per cent. Since that time bonds have appreciated in value, and sales have been made by the Water Board at a premium of 5 per cent. The balance of the public building loan, issued for improvements at the House of Correction, amounting to \$16,000, was taken by the Commissioners of the Sinking Fund.

Street paving bonds to the amount of \$169,685 44 have been issued for work done in paving streets, the payment of which is fully provided for in the charter and ordinances, by special assessment upon the property benefited. Of this class of bonds issued in 1872-3-4, \$98,065 68 have been presented and paid. During the present fiscal year \$141,677 32 of the issue of 1875-4-5 mature. By an oversight in the act authorizing the issue of these bonds, it was provided that all interest should be paid into, and out of, the Street Paving Interest fund. If all taxpayers should take advantage of the time allowed by the law, the amounts received and paid out would exactly correspond, but many pay the entire assessment at once, and thus avoid the payment of interest into the Street Paving Interest fund, while the bonds are bearing a rate of 7 per cent. The commissioners of the Sinking Fund have purchased these bonds from time to time for the benefit of the Sinking Fund, and the result is that a surplus exists in the Street Paving Sinking Fund, while, for the reason given above, the Street Paving Interest Fund shows a debit balance. To remedy this, an amendment should be made to the act, authorizing the Council to transfer a sufficient amount from the Street Paving Sinking Fund to the Street Paving Interest Fund to cover the debit balance, or perhaps consolidate both funds, as they are in reality one and the same.

With reference to the increase of the debt, I only desire to repeat what has already been said in former reports, to wit: Issue

no bonds, pay what we owe, get out of debt and then keep out. In view of the alarming increase of municipal indebtedness generally, would it not be wise to urge the passage of an act by the Legislature prohibiting the creation of city indebtedness anywhere in the State, except, as has been suggested in cases of war or invasion.

THE DEBT OF THE CITY.

The entire bonded debt (except the debt of the Water Commission) was, February 1, 1875 \$1,081,900 00
Additional public sewer bonds issued 25,000 00
Additional public building stock issued 16,000 00

Less bonds paid \$1,122,900 00
48,000 00

Total bonded debt of the city, February 1, 1876 \$1,079,900 00

The indebtedness as stated is classified as follows, viz:

Berthelet market bonds (past due, probably lost) \$ 400 00
Redemption bonds 88,000 00
House of Correction bonds 100,000 00
City Hall bonds 600,000 00
Public sewer bonds 297,500 00

Total \$1,079,900 00

Means on hand for paying the debt:

Cash in charge of commissioners of the sinking fund \$ 114,667 12
House of Correction bonds 40,000 00
Redemption bonds 1,000 00
Street paving bonds 30,139 05

Total redemption means, February 1, 1876 \$ 185,806 17

Total redemption means, February 1, 1875 131,285 64

Increase of means, 1875-6 \$ 64,540 53

THE NET DEBT OF THE CITY.

Total bonded debt February 1st, 1876 \$1,079,900 00

Total means on hand for paying the same February 1st, 1876 185,806 17

Net debt of the city February 1st, 1876 \$ 894,093 83

Net debt of the city February 1st, 1875 960,614 36

Decrease of net debt \$ 66,540 53

The decrease of gross debt during the year was 2,000 00

The increase of means for paying the debt was 64,540 53

Net decrease of the debt as above .. \$ 66,540 53

THE SINKING FUND.

On the first day of October, 1875, redemption bonds (issued in 1836) to the amount of \$45,000 became due, of which \$43,000 have been presented to the city treasurer and paid. The remaining \$2,000 will probably be taken up during the year. No portion of the funded debt matures until 1878, and then redemption bonds to the amount of \$50,000. Of the House of Correction bonds \$50,000 become payable in 1879, also redemption bonds (issue of 1839-41) amounting to \$30,000. If no change occurs in the laws governing the income of the Sinking Fund, and no more bonds are issued, the assets of the Sinking fund will, in eight years, equal the amount of the bonded debt, thus extinguishing the entire debt of the city, with the exception of the Water bonds.

As suggested by the Mayor in his inaugural address, all statements of the bonded debt of the city should include the Water bonds.

The bonds issued by the Water Commissioners are guaranteed by the city, principal and interest, but the interest upon all bonds issued by that board, and also the bonds as they become due are paid from the receipts for water rates, etc., and no part of the general tax levy has been used for such purpose until the past year. The act of the Legislature authorizing the last issue of \$1,000,000 in bonds for the erection of the new works also

provides for a tax levy of \$75,000 to pay the interest and secure a sinking fund for the payment of the bonds. As the bonds are issued as the work progresses, the Board of Estimates placed only \$35,000 in the budget for 1875. The collections made and paid over to the Water Board for the year amount to \$19,366 39.

TOTAL BONDED DEBT OF THE CITY.

Bonds issued by the city..... \$1,079,900 00
Bonds issued by the Water Board,
guaranteed by the city..... 1,301,000 00

Total debt (gross)..... \$2,380,900 00

Reference is made to the report of the Board of Water Commissioners for the details of the city indebtedness originating in that department, the condition of the sinking fund, etc.

Of the street-paving bonds outstanding, amounting to \$238,038 05, the Commissioners of the Sinking and Street Paving Sinking fund hold \$38,568 32.

INTEREST FUND.

The amount of interest paid during the year upon coupons presented is \$78,846 00.

GENERAL FUND.

The principal items of disbursements during the year are as follows:

Pay roll, city officers.....	\$38,875 75
Pay roll, clerks in offices.....	36,198 77
Board of Review.....	91 00
Janitors and care of City Hall.....	2,123 50
Expenses of election.....	4,150 00
Printing, advertising and stationery.....	17,949 96
Gas in street lamps and City Hall.....	61,270 87
Lamp-posts, lamps and repairs.....	3,961 74
Pay roll, lamplighters.....	7,400 10
Expenses of Superior Court.....	15,607 85
Fuel for City Hall and markets.....	2,400 38

For the year of 1874 the amount received from the markets for rents, etc., was \$ 8,235 50
For the year of 1875 11,450 80

Increase..... \$ 3,215 30

For your information I give the receipts in detail for each of said years. It will do doubt be a surprise to many to observe the increase in receipts from wagon rents, and to learn that nearly four times the number of farmers' wagons were on the market in 1875 than in any previous year. The efficiency of the present market clerk, without doubt, contributes to this gratifying exhibit.

Market rents, stall and bench.....	\$7,094 00	\$ 7,879 00
Wagon rents.....	846 41	3,114 10
Sale of calves and sheep.....	258 10	345 20
Ones Market.....	105 00	112 50

\$8,235 50 \$11,450 80

The new burner known as the "Boston burner" is at this date upon all lamp-posts where the gas is supplied by the Detroit Gas Light Company, and will be upon all others in a few days. The first were put on during the month of August last. The entire cost of the change thus far amounts to \$1,965. The decrease in gas bills rendered is \$3,905 82. The saving during the present year, according to this rate and showing, with all new burners in use, will exceed \$20,000.

Until some steps are taken to increase the revenue of the city, or amendments made to the charter that will decrease rather than add to the expenses, I fail to discover how the General Fund can be cut down.

CONTINGENT FUND.

The aggregate amount paid from this fund during the year is \$12,068 27, of which the following are the principal items:

Pay roll of Aldermen.....	\$3,305 00
Pay roll of Board of Health.....	386 00
Taxes refunded.....	2,115 40
Attorney fees.....	1,233 27
Liquor tax refunded.....	957 38

The balance in this fund January 31st, 1876, amounting to \$71,899 70, was transferred to the Sinking Fund. The income of this fund is amply

provided for, and the surplus is used to extinguish the public debt.

CITY POOR FUND.

The expenses of this fund for the year amount to \$23,556 95.

It is hoped that some change will be suggested by the committee who now have the matter under consideration, whereby the faults of the present "poor system," so called, may be corrected. In my judgment the laws may be so amended, and the system so simplified and improved, that the deserving poor of the city can be more effectually reached and at a much less expenditure of money.

It affords me pleasure in closing my fifth annual report to show a decrease, although small in the gross bonded debt of the city, and a large decrease in the net debt. It has been the aim of this office to foster the income of the sinking fund, and endeavor to decrease, if possible, the debt. By proper management the entire debt of the city, can be extinguished without taxing the people directly one dollar. A firm determination to stop the issue of bonds, to economize in expenditures and to see that for every dollar spent, an equivalent is given, will go far to preserve the financial high standing of the city and relieve it of all its obligations.

My thanks are due to you, gentlemen, and my fellow officials.

Reference is made to the annual report of the City Treasurer, Board of Public Works, Board of Education, Board of Water Commissioners, Board of Fire Commissioners, Board of Metropolitan Police Commissioners and the Inspectors of the House of Correction.

Very respectfully, etc.,

E. I. GARFIELD,
Controller.

FROM THE COUNSELOR.

To the Honorable the Common Council:

GENTLEMEN—The undersigned, in compliance with the resolution introduced at the last session requesting the undersigned to inform the Council of the status of the Beckman case against the city, report that a judgment was rendered against the city for \$900 damages, with costs. A motion was made for a new trial and denied. A writ of error was issued to remove the case to the Supreme Court.

This case involves the question whether the city is liable, under any circumstance, for damages where a person leaves a main and good-traveled way and drives into drains at the corner of the intersection of unpaved streets.

Respectfully submitted,
D. C. HOLBROOK,
City Counselor.

Accepted and placed on file

WAYS AND MEANS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Ways and Means, to whom was referred the bonds of Louisa Archer and Jennie Quinn, liquor dealers, the former for malt and spirituous liquors, the latter for malt liquors only, respectfully report that we have examined the same and find them correct in form, and believing them satisfactory recommend their approval.

Committee.

Accepted and adopted as follows:

Yeas—Ald. Blodgett, Christian, Clark, Dorr, Dunlap, Finney, Finnegan, Gies, Guthard, Haller, Heames, Herrick, Jackson, Kurtz, Liggett, Mitchell, Owen, Ronland, Schmitt, Shanahan, Wilke, and the President—25.

Nays—None.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Ways and Means, to whom was referred the petition of Neil Grant, praying that he might be relieved from the bond of Jacob Pfeifer, Collector of the Twelfth ward, would respectfully report as follows:

It appears by the petition of Mr. Grant that he was induced to sign the bond of the Collector named on representations made to him which he is now convinced were untrue, and were intended to deceive him as to the nature of the obligation he was assuming. If the facts, as briefly set forth in the petition, are true, they are such as to entitle the petitioner to relief, provided the interests of the city are not prejudiced thereby. Your committee believe that no man should be absolutely compelled to continue as surety on a bond after his confidence in his principal has failed—more especially is this true when the suretyship is procured by false and fraudulent means. The city charter (section 30 of chapter 3) confers upon the Common Council authority to require any officer, whether elected or appointed, at any time to execute and file with the clerk of the city new official bonds in the same or in such further sum, and with new and such further sureties as said Council may deem requisite for the interests of the corporation. In view of the peculiar nature of the case made by the petitioner your committee would make the following recommendations:

First—That Jacob Pfeifer, Collector of the

Twelfth ward, be required to file a new official bond in a like sum with that now on file, and with sufficient sureties, to be approved by the Common Council, and that the Clerk be instructed to notify said Pfeifer to present a new official bond to said Clerk within ten days after service upon him of the notice herein provided.

Second—That when said Pfeifer shall have filed the bond to be demanded, and the same has been approved, the bond now on file shall be treated as null and void, provided no defaults have been made in the conditions thereof, and no right of action shall have accrued to the city thereon.

All of which is respectfully submitted, etc.

M. P. CHRISTIAN,
GEORGE DUNLAP,

Accepted and adopted.

STREETS, COUNSELOR AND ATTORNEY.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Streets, to whom, with the City Counselor and City Attorney, was referred the petition of David B. Wilcox and others, praying that the toll-gate of the Detroit and Howell Plank Road Company, located near the corner of Seventeenth street and Grand River avenue, might be removed beyond the limits of the city, would respectfully report that the Council has no power to grant the prayer of the petitioners, or to set such proceedings in operation as would accomplish the desired result. Your committee, however, in view of the facts brought forward by the petitioners believe that the location of the gate complained of is a most unreasonable exercise of the discretion allowed the company in the location of its gates—is dangerous to the public travelling on said road, and is in this and other respects a public nuisance. Your committee would therefore recommend that the City Attorney be instructed to cause a complaint to be made in the Recorder's Court against the party keeping and maintaining such nuisance—that the remedy provided in like cases may be applied in this viz., the imposition of a fine or imprisonment of the party.

Respectfully submitted.

GEORGE DORR,
DANIEL SHANAHAN,
JACOB GUTHARD,
D. C. HOLBROOK,

City Counselor.

WILLIAM C. MAYBURY,
City Attorney.

Accepted, and adopted by the following vote:

Yeas—Ald. Blodgett, Christian, Clark, Dorr, Dunlap, Finney, Finnegan, Gies, Guthard, Haller, Heames, Herrick, Jackson, Kurtz, Liggett, Mitchell, Owen, Ronland, Schmitt, Shanahan, Wilke, and the President—25.

Nays—None.

TAXES.

To the Honorable the Common Council:

From the books of the Assessor it appears that the valuation of the property, as assessed, was obtained from the owner, and no effort being made by him to have it reduced by the assessors or Board of Review, your committee are bound to accept it as correct, and recommend that the prayer of the petitioner be denied.

COMMUNICATIONS FROM CITY OFFICERS.

FROM THE CONTROLLER.

To the Honorable the Common Council:

GENTLEMEN—In compliance with the recent amendatory ordinance, in reference to Public Markets, notice has been given that the stalls upon the Vegetable Market will be sold at public auction on Monday, March 6th, at two o'clock p. m.

Upon a careful consideration of this mode of disposing of the stalls, I am led to believe that the best interests of the city will not be subserved by a public sale. An erroneous impression prevails in relation to the rental value of the stalls. If they are valued too low, it is competent for the proper committee to place them at such rate as they are worth, and give the present occupants who have built up a little trade an opportunity to keep their stalls if they wish.

I predict that the sale of the stalls at auction will apparently be a success, but that in the winter nearly all will be thrown back on the city.

The old method is far preferable, and I recommend that the present ordinance be repealed and that the former one be enacted.

Respectfully submitted,

E. I. GARFIELD, Controller.

Accepted, and Ald. Liggett moved to suspend the rules to introduce an amendatory ordinance repealing the ordinance referred to.

Adopted.

Ald. Liggett thereupon offered an ordinance to repeal an ordinance amending section 3 of chapter 59 of the Revised Ordinances of 1871.

The ordinance was placed upon its first, second and third readings, and passed by the following vote:

Yeas—Ald. Christian, Clark, Dorr, Dunlap, Finney, Finnegan, Gies, Gushard, Haller, Heames, Herick, Jackson, Kurtz, Liggett, Mitchell, Owen, Bealand, Schmitt, Shanahan, Wilke, and the President—51.

Nays—None.

The title of the ordinance was confirmed, and the Council resumed the regular order of business.

The following is the ordinance: AN ORDINANCE

To repeal an Ordinance, entitled an Ordinance, amending section 3, of chapter 59, of the Revised Ordinances of 1871.

It is hereby ordained by the Common Council of the City of Detroit.

SECTION 1. That amended section 3, of chapter 59 of the Revised Ordinances of 1871, as approved December 18th, 1876, be, and the same is hereby repealed.

SECTION 2. This ordinance shall take immediate effect.

FROM THE ATTORNEY.

To the Honorable the Common Council:

GENTLEMEN—An investigation of the ordinance relative to nuisances has convinced me that the ordinance as it now reads is not sufficiently broad to cover many complaints to which it is intended to apply a remedy. In view of this fact, I herewith present to your honorable body an ordinance to remedy the defects of the ordinance now in force, and recommend its passage.

Respectfully submitted,

WILLIAM C. MAYBURY,

City Attorney.

Accepted, and the ordinance was read the first and second times by its title, laid on the table and ordered printed in the proceedings.

The following is the ordinance:

AN ORDINANCE

To amend section 5, of chapter 73, of the Revised Ordinances of 1871.

It is hereby ordained by the Common Council of the city of Detroit:

SECTION 1. That section 5, of chapter 73, of the Revised Ordinances of 1871 be, and the same is hereby amended, so as to read as follows:

SEC 5. No owner or occupant of any grocery, cellar, tallow chandler shop, soap, candle, starch or glue factory, tannery, butcher shop, slaughter-house, stable, barn, privy, sewer, or other building or place, shall allow any nuisance to exist or remain on his or her premises; nor shall any person, persons or corporation, operating, owning, occupying or using any public or private street, alley, way or any premises whatever, within the limits of the city of Detroit, create or maintain a nuisance thereon.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—In compliance with the resolution of your honorable body, passed at the last session, I have requested and received from the Secretary of State of the State of Michigan a copy of paragraph 5, of section 33, chapter 5, of an act to amend an act entitled "An act to revise the Charter of the city of Detroit," approved February 5th, 1867, certified as having been compared with the original on file in his office.

The document is herewith presented.

Respectfully submitted,

WILLIAM C. MAYBURY,

City Attorney.

Accepted and placed on file.

FROM THE BOARD OF PUBLIC WORKS.

To the Honorable the Common Council:

GENTLEMEN—From all the information that can be obtained, it appears that the alley between Congress and Larned streets and McDougall and Elmwood avenues was legally opened, and so much of said alley as is now occupied by Mr. T. A. Parker is the property of the city. Mr. Parker received the award of the jury and accepted therefor, and has no legal claim thereto. Subsequently he proposed to return the award, which was refused by the city, and the matter has since then remained in "statu quo." As the Board have no jurisdiction in the premises, and as the power is vested solely in the Common Council and Police Commissioners, the Board respectfully recommend that such action be taken by your honorable body as will secure the removal of the obstructions in said alley.

Respectfully submitted,

ALEX. CHAPMAN,

President.

Accepted, and in connection therewith, leave being granted, Ald. Dorr offered the following:
Resolved, That the Commissioners of the Metropolitan Police be directed to notify the occupants, agents or owners of lots abutting on the alley in the block bounded by Congress and Larned streets and McDougall and Elmwood avenues, to remove all obstructions from said alley within five days, or in default, said Metropolitan Police Commissioners proceed and remove the same, in accordance with the law in such case made and provided.

Adopted as follows:

Yeas—Ald. Christian, Clark, Dorr, Dunlap, Finney, Finnegan, Gies, Guthard, Haller, Heames, Herrick, Jackson, Kurtz, Liggett, Mitchell, Owen, Rouland, Schmitt, Shanahan, Wilks, and the President—21.

Nays—None.

FROM THE CLERK OF THE RECORDER'S COURT.

To the Honorable the Common Council:

GENTLEMEN—I hereby respectfully report to your honorable body, that the fines and costs imposed in the Recorder's Court for violations of city ordinances, during the February term thereof, amount to one hundred and ninety-nine dollars.

Very respectfully,

A. I. McLEOD,

Clerk of the Recorder's Court.

Accepted and placed on file.

FROM THE PRESIDENT OF THE BOARD OF HEALTH.

Detroit, March 3, 1876.

To the Honorable the Common Council:

GENTLEMEN—At a meeting of the Board of Health, held March 1st, I was directed to send to your honorable body a communication on the proposed abolition or remodeling of the Board of Health. The discussion which took place pending the adoption of the resolution which requires me to address you plainly showed an unanimous opinion on the necessity of such a board, not only on the part of the medical men present, but also on the part of the other members present.

The necessity and usefulness of a Board of Health I need hardly enumerate. Scarcely a week passes but the Council, the Police Commissioners or the Board of Public Works refer to us some health matters. We investigate, report, and suggest; and, although we cannot always carry out our ideas, other boards and bodies do it. We furnish the idea, we make the recommendation, others work them out. When, a few years since, our city was visited by an epidemic of small-pox, the authorities, by rousing public attention and the adoption of energetic measures, soon rooted out the scourge. The board at present, by requiring all children attending school to be vaccinated, by not allowing a child to attend school, while members of the same family of the child are affected with contagious diseases, have undoubtedly prevented many deaths from such disorders, and saved many families from such diseases.

Although we cannot put our finger on a child or person, and say, "That person would have died of small-pox, that of scarlet fever, that of measles, of croup, of diphtheria, etc., but for the Board of Health," still, undoubtedly (this is the opinion of physicians, and medical men are certainly the most capable of judging such cases), much good is done, if only by the moral influence wielded by a board, by the continual agitation of sanitary questions, by incessantly instructing the people in laws of hygiene. How much misery may have existed, how many tears shed for the idolized child, the true husband, the beloved parents that are on earth no more, but for the Board of Health. How much, how many, no one can tell. But that much lamentation has been prevented, any one can know by simply bearing in mind what sanitary science has already done for humanity. The lives of consumptives have been prolonged 5 to 10 years; the average life of man has in the last century increased from 30 to some odd 39 years; all this good has been accomplished by means of a more thorough knowledge of sanitary laws. We must indeed praise and honor, the noble, self-sacrificing and financially unremunerated efforts of sanitarians.

If, however, your honorable body sees fit to remodel the Board of Health to increase its usefulness, I most respectfully offer the following suggestions:

Appoint a "Health officer," whose duty shall be to look after the sanitary condition of the whole city, who shall see to it that public and private buildings are put up as not to endanger the lives and the health of the occupants, that the buildings are well ventilated, etc.; that no adulterated food is sold; take measures to prevent the invasion of epidemic, and suppress in present; have nuisances abated; superintend the collection of vital statistics; tabulate the same; show that our city is exceptionally healthy and by this means attract emigrants and increase our city's ability to pay for a Board of Health. By means of lectures and publications instruct the people in laws of hygiene, etc.; pay such a man say \$1,500 salary a year. You will say no one will do the work for so little. My idea is this: take a young man just graduated from college, who is well educated, has thorough knowledge of chemistry, and assure him the position for four or six years. He can in six months be well drilled in, by studying his duties, and be as efficient as a \$5,000 man. But he must devote his whole time to this sanitary science, and not be engaged in any other private business of any kind. Such a man will be endorsed by the whole medical fraternity of the city, he is not in competition with other physicians and no jealousies will arise.

Second—Appoint four (4) city physicians at \$450 each, salary per year, (although two city physicians with double pay would be just as well or better). Require these to treat and supply with the necessary medicine the destitute poor of the city; to report weekly or oftener to the health officer the sanitary condition of their respective districts; report to him nuisances and everything injurious to health.

This change not to take place until at the expiration of the year, as it would be unjust to put men out of place that have just been appointed.

Third—Make the Mayor, the President of the Council, and the President of the Police Commissioners members of the Board of Health, to attend weekly meetings without pay.

Such a board would be effective and useful. This is the opinion of the best medical men in the city, as I have brought this question up for discussion in the Medical Society heretofore, and my plan was endorsed.

COST.

Proposed Board, including City Physicians.

One Health Officer.....	\$1,500 00
Four City Physicians.....	1,800 00
Other members.....	

\$3,300 00

Present Board, including City Physicians.

Six City Physicians.....	\$3,700 00
Board of Health (per Controller's report)...	386 00

\$3,095 00

The proposed plan of a Board of Health would only increase the expense \$300, but it would be an hundredfold more useful and effective.

Respectfully submitted,

J. HENRY CARSTENS, M. D.,

President of the Board of Health.

Accepted and referred to the Committee on Health.

FROM THE SECRETARY OF THE BOARD OF HEALTH.

To the Honorable the Common Council:

GENTLEMEN—By instruction of the Board of Health, I beg leave to inform your honorable body that the entire expense of the Board of Health during the past year was \$396.

Very respectfully,

CHAS. H. BORGMAN,

Secretary.

Accepted and placed on file.

FROM THE CLERK.

Accepted and placed on file.

Also, that Dr. J. P. Corcoran, City Physician of the Second District, has filed his report for February.

Accepted and placed on file.

Also, that Carl Dible, Julius Schauer, John G. Klinck, William Houghton and W. and R. Millar have filed indemnity bonds for trafficking in liquors.

Referred to the Committee on Ways and Means.

REPORTS OF COMMITTEES.

WAYS AND MEANS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Ways and Means, to whom was referred the reports of various city officers for the week ending February 26th, 1876, respectfully report that we have examined the same, and, believing them to be correct, recommend their adoption.

Respectfully submitted,

M. P. CHRISTIAN,
GEORGE DUNLAP,
H. HEAMES.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Ways and Means, to whom was referred the bonds of George Rickel, John J. Becker, James Flannigan, Geo. McManus, Wm. L. Smith & Co. and Joseph Beyer, liquor dealers, respectfully report that we have examined the same and find them correct and satisfactory, and recommend their approval.

Respectfully submitted,

M. P. CHRISTIAN,
GEORGE DUNLAP,
H. HEAMES.

Accepted, and adopted as follows:

Yeas—Ald. Blodgett, Christian, Clark, Dorr, Dunlap, Finney, Finnegan, Gies, Guthard, Haller, Heames, Herrick, Jackson, Kurtz, Liggett, Mitchell, Owen, Rouland, Schmitt, Shanahan, Wilks, and the President—22.
Nays—None.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Ways and Means, to whom was referred the Annual Reports of the City Controller and City Treasurer, respectfully report that we have examined the same, and believing them to be correct, recommend their adoption.

Your Committee would also recommend that the Controller be directed to charge over to "Suspense Account" the balance due the city from the late City Treasurer, E. S. Leadbeater, thus avoiding the trouble and annoyance of carrying the same in his cash account.

Your Committee also take pleasure in calling attention to the large increase of market rents during the past year, especially in the amount collected from wagons, which have increased from \$646 40 in 1874, to the extraordinary sum of \$3,114 10 in 1875, or about 375 per cent. Your Committee are at a loss to account for so large an increase in this item unless it is in a great degree owing to the diligence and untiring perseverance of the Market Clerk. The result at any rate is as gratifying as it is surprising.

All of which is respectfully submitted,

M. P. CHRISTIAN,
GEORGE DUNLAP,
H. HEAMES.

Accepted and adopted.

CLAIMS AND ACCOUNTS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Claims and Accounts, to whom was referred the Controller's list of approved accounts of February 29th, 1876, respectfully report that they have examined the same, and believing them to be correct, would recommend that they be paid from the proper funds.

Respectfully submitted,

SEYMOUR FINNEY,
JACOB GUTHARD,
DANIEL SHANAHAN.

Accepted and adopted as follows:

Yeas—Ald. Blodgett, Christian, Clark, Dorr, Dunlap, Finney, Finnegan, Gies, Guthard, Haller, Heames, Herrick, Jackson, Kurtz, Liggett, Mitchell, Owen, Rouland, Schmitt, Shanahan, Wilks, and the President—22.
Nays—None.

MARKETS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Markets, to whom was referred the petition of John Zimmerman, wood inspector of the Western District, requesting that an ordinance might be passed authorizing him to inspect all wood wherever offered for sale in his district, would respectfully report that by the provisions of an act of the Legislature passed in 1871, the charter of the city of Detroit was so amended in the matter of the power of the Council to provide for the inspection of wood that no wood offered for sale on the public markets was subject to inspection except at the request of the buyer or seller. The ordinances now in existence provide that no wood shall be offered for sale in the city of Detroit except at one of the public markets located for this purpose, and further provides that the Inspector shall collect a market fee from each and every person going upon said market to offer wood for sale, whether the wood is inspected or not. In view of these facts your committee believes that the ordinances, if enforced by the Inspector will afford him ample protection, and are certainly as broad in their provisions as the restrictions in the charter will permit.

Respectfully submitted,

DANIEL SHANAHAN,
GEORGE DORR,
GEO. W. HERRICK.

Accepted and placed on file.

LICENSES.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Licensees, to whom was referred the petition of C. M. Welch, asking for a rebate and refunding of a portion of the license paid by him on the Adelphi Theater, would respectfully report that upon examination we find that Mr. Welch paid \$50 for a year's license upon said theater, and occupied the same but two nights a week for a period of less than seven months, and that said institution has been given up by him as a theater. Your committee are of opinion that justice requires that, having paid for the privilege of exhibiting there for twelve months, and having exercised said privilege for but seven, he is entitled to be refunded an amount equal to five-twelfths of said \$50, which is \$30 80, and your committee therefore ask the adoption of the annexed resolution.

Respectfully submitted,

PAUL GIES,
LEWIS B. CLARK,
GEORGE WILKS.

Resolved, That the Controller be and he is hereby directed to draw his warrant on the contingent fund for \$30 80 in favor of C. M. Welch, late lessee of the Adelphi Theater.

Accepted. Objected to and laid over.

SPECIAL.

To the Honorable the Common Council:

GENTLEMEN—Your Committee to whom was referred the communication of citizens of Georgia, inviting a visit from your honorable body, city officials, the Board of Trade and other prominent citizens, for the purpose of investigating their material wealth and the resources of their State, enjoying their hospitality and cultivating commercial relations between them and the Great Northwest, met in conjunction with a similar committee from the Board of Trade, and this combined committee agreed to accept the invitation extended in said communication.

The combined committee appointed a sub-committee consisting of the President of the Common Council, the President of the Board of Education and the Secretary of the Board of Trade, to perfect all necessary arrangements for transportation or otherwise. The sub-committee have completed, through the efforts of D. B.

Tracy, Esq., passenger agent of the Cincinnati, Hamilton and Dayton Railroad, satisfactory and very favorable arrangements for transportation to Nashville via the Lake Shore or Canada Southern Railroad to Toledo, thence via the Cincinnati, Hamilton and Dayton Railroad to Cincinnati, thence via the Louisville and Cincinnati Railroad to Louisville, thence via the Louisville and Nashville Railroad to Nashville. We are informed by the invitation that arrangements have been made for free transportation from Nashville to Georgia and various points of interest in the State and return.

Tickets to Nashville and return may be secured from the city ticket-offices of the Canada Southern or Lake Shore Railroad at \$21; said tickets good to go from the 10th to the 14th inst., inclusive, and to return till April 15th. The journey, your committee believe, will by this route be very pleasant, touching as the excursionists will, at Toledo, Dayton, Hamilton, Cincinnati, Louisville, Nashville and Chattanooga, some of which places undoubtedly possess, in view of past events, a peculiar interest to the Northern people.

In order to arrive at Chattanooga by the 15th inst., the time specified in the invitation, parties should leave Detroit not later than Monday evening, the 13th inst., at 6.40.

Trains leaving at this time will reach Chattanooga on the morning of the 15th inst.

Your committee deem it unnecessary to enlarge upon the desirability of a trip through the South at this season of the year, when change of latitude presents almost startling changes in natural scenery. Added to this is the cordiality of the invitation, which induces your committee to believe that all who accept and go will be instructed, profited and pleased.

Very respectfully,

GEORGE W. HOUGH,
Acting Mayor.
WM. A. OWEN,
R. A. LIGGETT,
PAUL GIES,
C. C. BLODGETT.

Accepted and adopted.

OFFICE.

DETROIT, February 25, 1876.

PROPOSALS FOR PAVING BLOCKS

Sealed proposals will be received at this office until Thursday, March 2, 1876, at 10 o'clock a. m., for furnishing the city during the fiscal year 1876, with Pine and Cedar Paving Blocks for repaving paved streets.

The pine blocks are to be sawed from white pine plank three and four inches thick, and from four and a half to five and a half inches long.

The cedar blocks shall be cut from good sound timber, free from loose or rotten knots or other defects, in lengths of four and a half and six inches, and shall not be more than ten nor less than four inches in diameter.

The blocks shall be delivered at such times, in such quantities, and at such places as the Board of Public Works shall direct.

All blocks that the Board may consider unsound shall be rejected and good sound blocks substituted therefor by the contractor.

For Pine Blocks, bidders will bid so much per thousand feet per plank, and for Cedar Blocks so much per cord for the timber.

Bidders are required to file a satisfactory bond with the Board of Public Works, before the proposals are opened, conditioned that, should they be found to be the lowest bidders, they will enter into a contract with good and sufficient sureties, to perform the work.

Proposals to be indorsed with the names of the parties bidding.

The right to reject any or all proposals is expressly reserved.

COMMUNICATION FROM THE MAYOR.

To the Honorable the Common Council:

GENTLEMEN—I return without my approval that part of your proceedings of the 3d inst., repealing an ordinance, entitled an ordinance amending Section 3, of Chapter 59, of the Revised Ordinances of 1871, approved December 13th, 1875, for the purpose of having it corrected by the City Attorney, for if it passed in its present form it would virtually be repealing the whole market ordinance.

ALEX. LEWIS,

Mayor.

Accepted, and on motion of Ald. Christian the vote whereby the ordinance was passed, was reconsidered by the following vote:

Yeas—Ald. Blodgett, Christian, Clark, Dorr, Dunlap, Finney, Finnegan, Gies, Guthard, Haller, Heames, Herrick, Jackson, Kurtz, Liggett, Mitchell, Owen, Rouland, Schmitt, Shanahan, and the President—31.

Nays—None.

Ald. Christian moved to refer the ordinance to the City Attorney for correction.

Adopted.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—I return to your honorable body without my approval that part of your proceedings of the 3d inst. which authorizes the keeping open of all places where liquors are sold on Sundays from 1 to 11 P. M., for the reason that the Supreme Court in its decision in the Kurtz case has indicated in language so plain that it cannot be misunderstood that that part of the Liquor Tax law giving municipalities the power permitting dealers in liquors to sell and keep their places of business open on Sundays is unconstitutional.

If the law-obeying and church-going people of this city in their crowded public meetings at Young Men's Hall and the Opera House had not fully demonstrated by the great interest manifested in this question, that it was the wish of the citizens that the Sabbath should continue to be a day of rest, as it has been since the establishment of the government; or if the records of the Police Court did not fully prove by the sending of scores of miserable beings who desecrate the Lord's-day and are sent to the House of Correction on Mondays; and if all this failed to convince me the peace, quiet and good order that has prevailed throughout the city since the enforcement of the law, would alone be sufficient to do so.

Respectfully submitted,

ALEX. LEWIS,

Mayor.

On motion of Ald. Christian the vote whereby the resolution was passed was reconsidered by the following vote:

Yeas—Ald. Blodgett, Christian, Clark, Dorr,

Dunlap, Finney, Finnegan, Gies, Guthard, Haller, Heames, Herrick, Jackson, Kurtz, Liggett, Mitchell, Owen, Rouland, Schmitt, Shanahan, and the President—21.

Nays—None.

The question then being, shall the resolution pass notwithstanding the veto of the Mayor, the same did not prevail by the following vote:

Yeas—None.

Nays—Ald. Blodgett, Christian, Clark, Dorr, Dunlap, Finney, Finnegan, Gies, Guthard, Haller, Heames, Herrick, Jackson, Kurtz, Liggett, Mitchell, Owen, Rouland, Schmitt, Shanahan, and the President—21.

FIRE LIMITS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Fire Limits, to whom was referred the petition of Wm. P. Rathbone, asking permission to remove his frame building on the west side of Woodward avenue, recently damaged by fire, at No. 833, and also to repair building No. 381 damaged by the same fire, would respectfully report in favor of allowing all necessary repairs, the damage done not being so much as to take the matter out of the ordinance relating to repairs in such cases; but this permission shall not be construed to allow said Rathbone to make said building, No. 381, of larger dimensions than it was before the fire. Your committee also report in favor of allowing Mr. Rathbone to occupy a part of Woodward avenue with building material, said occupying to be done under the ordinance.

Respectfully submitted,

JACOB GUTHARD,
PAUL GIES,
SEYMOUR FINNEY.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Fire Limits, asking permission to erect a one story frame addition 7x18 feet and ten feet high on the south side of his building on the northwest corner of St. Aubin avenue and Clinton street would respectfully report that upon examination of the premises your committee are of the opinion that the fire risk will be increased. The neighbors in that vicinity also take the same view of the matter. Your committee therefore report adversely to the prayer of the petitioner.

Respectfully submitted,

JACOB GUTHARD,
PAUL GIES,
SEYMOUR FINNEY.

Accepted and adopted.

STREETS

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Streets, to whom was referred the petition of E. Y. Swift, President, and Frederick Carlisle, Secretary of the Congress and Baker Street Railway Company, praying that the ordinance authorizing the constructing and operating of a street railway by a corporation known as the Detroit and Grand Trunk Junction Railway Company, on and through the streets named in said ordinance, might be so changed where Larned and Randolph streets and Joseph Campan avenue are mentioned, Brush and Fort streets and St. Aubin avenue may be substituted, would respectfully report that they

are in favor of granting the prayer of the petitioners, and believe the public will be greatly benefited by the extension of the railway through the streets in question. It appears that the corporation known as "The Detroit and Grand Trunk Junction Railway Company," to which the right to operate the line of road now under consideration was originally given, by ordinance, is now dissolved and has no legal existence, its franchisees having passed to the present company, under the corporate name of "The Congress and Baker Street Company." Your committee would recommend that the ordinance when amended to carry out the privilege granted the petitioners, should also have the corporate name of the new company inserted wherever the name of the old company appears in said ordinance. Your Committee would further recommend that the City Attorney be instructed to bring in an ordinance for the purposes herein expressed, and containing such other changes of the present ordinance as in his opinion are required.

Respectfully submitted,

GEORGE DORR,
JACOB GUTHARD,
DANIEL SHANAHAN,

Accepted and laid upon the table for one week.

FROM THE BOARD OF PUBLIC WORKS.

To the Honorable the Common Council:

GENTLEMEN—The Board of Public Works to whom was referred the petition of Ferdinand Wien and a great many others for the extension of Orleans street sewer from its present terminus on Division street to the north line of Wilkins street report:

On examining the locality it is found that the representations made by the petitioners are correct, and as a sanitary measure the sewer is much needed. Should the sewer be constructed it will not require any additional amount to be added to the estimates submitted by the Board for sewer purposes. It is therefore recommended that the prayer of the petitioners be granted and the Board authorized to advertise for proposals for constructing the same.

Respectfully submitted,

ALEX. CHAPOTON,

President.

Accepted, and in connection therewith leave being granted, Ald. Guthard offered the following:

Resolved, That Orleans street sewer is hereby ordered to be extended from its present terminus on Division street to the north line of Wilkins street, as recommended by the Board of Public Works, and said Board is hereby directed to advertise five days for proposals for extending the same.

Adopted as follows:

Yeas—Ald. Blodgett, Christian, Clark, Dorr, Dunlap, Finney, Finnegan, Gies, Guthard, Haller, Herrick, Jackson, Kurtz, Liggett, Mitchell, Owen, Rouland, Schmitt, Shanahan, Wilks, and the President—21.

The board therefore recommend that the prayer of the petitioners be granted.

Respectfully submitted,

ALEX. CHAPOTON,

President.

Accepted, and leave being granted, Ald. Guthard offered the following:

Resolved, That a brick lateral sewer is hereby ordered to be constructed in the alley north of Grand River avenue, between Thirteenth and Thirteenth-and-a-half streets, from Grand River avenue to Merrick street, and the Board of Public Works shall and is hereby directed to advertise five days for proposals for constructing the same.

Adopted as follows:

Yeas—Ald. Blodgett, Christian, Clark, Dorr, Dunlap, Finney, Finnegan, Gies, Guthard, Haller, Herrick, Jackson, Kurtz, Liggett, Mitchell, Owen, Rouland, Schmitt, Shanahan, Wilks, and the President—21.

Kline, Carl Dible, Julius Schaefer and Carl Berghahn, liquor dealers, respectfully report that we have examined the same and find them correct in form, and believing them to be satisfactory, recommend their approval.

Respectfully submitted,

M. P. CHRISTIAN,
GEORGE DUNLAP.

Accepted and adopted as follows:

Yeas—Ald. Blodgett, Christian, Clark, Dorr, Dunlap, Finney, Finnegan, Gies, Guthard, Haller, Herrick, Jackson, Kurtz, Liggett, Mitchell, Owen, Rouland, Schmitt, Shanahan, Wilks, and the President—21.

M. P. CHRISTIAN,
GEORGE DUNLAP.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Ways and Means, to whom was referred the Controller's annual estimates for the ensuing year, respectfully report that we have carefully investigated the same, and find that in nearly all the items over which the council have control, the controller has placed them at the lowest figures compatible with the public interests. The amounts recommended by the Board of Education, the Police Commissioners and the Water Commission, are mandatory so far as the action of this Council is concerned, but may be reviewed by the Board of Estimates. Your committee therefore recommend that the estimates, as presented by the Controller, be concurred in by the Council and referred to the Board of Estimates.

Your committee also recommend the adoption of the following resolution:

Resolved, That the Committee on Loans be and they are hereby authorized and directed to issue

\$70 000 of Public Sewer bonds, in accordance with the act of the Legislature authorizing the city of Detroit to issue bonds for the construction of public sewers, to defray the expense of constructing the sewers recommended by the Board of Public Works, as contained in the Controller's estimates, said bonds not to be issued until the work is completed and the proceeds required to pay for the expenses of the same.

All of which is respectfully submitted.

M. P. CHRISTIAN,
GEORGE DUNLAP.

Accepted and laid on the table for one session.

CLAIMS AND ACCOUNTS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Claims and Accounts, to whom was referred the Controller's list of approved accounts of March 7th, 1876, respectfully report that they have examined the same, and believing them to be correct, would recommend that they be paid from the proper funds.

Respectfully submitted,

SEYMOUR FINNEY,
JACOB GUTHARD,
DANIEL SHANAHAN.

Accepted and adopted as follows:

Yeas—Ald. Blodgett, Christian, Clark, Dorr, Dunlap, Finney, Finnegan, Gies, Guthard, Haller, Herrick, Jackson, Kurtz, Liggett, Mitchell, Owen, Rouland, Schmitt, Shanahan, Wilks, and the President—21.
Nays—None.

STREETS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Streets, to whom was referred the petition of the President and Board of Directors of the Fort Wayne and Elmwood Railway Company, praying for permission to lay a single track through Lafayette street east, Elmwood avenue and Monroe avenue, would respectfully report that having investigated, with care, the benefits which the public would derive from granting the prayer of the petitioners, we have become satisfied that greater benefits would accrue to the public by granting the wishes of the petitioners, with such modifications and changes as are hereinafter recommended. Your committee favor the abandonment by the company of so much of its line of road as extends from Woodward avenue through Michigan Grand avenue and Randolph street to its intersection with Croghan street. This portion of the line of road operated by the company extends through streets already too narrow to accommodate the public traffic therein, and greatly hinders the public use of said street. It is also a fact, well-known to all citizens, that the operating of the road in question, in that portion around the public market, is the occasion of great inconvenience and even danger to the large number of people who assemble there to transact their business. Your committee also favor the use of Macomb street for the purposes of the proposed track—in preference to Lafayette street as prayed for in the petition. The preference of your committee for the use of Macomb street is due to the fact that a petition is already before this Council in behalf of the "Congress and Baker Street Railway Company," for the use of Fort street east and upon which your committee has made a favorable report. If the privilege of laying their track in Lafayette street is now granted the petitioners, then there will be four (4) parallel streets, one block apart, upon which a line will be operated, viz: Congress, Fort, Lafayette and Croghan streets. On the contrary if the track is laid in Macomb street there will be an unoccupied street intervening between each two lines of road. The petitioners on being made aware of the wishes of your committee positively refused to concur therein, alleging as a reason for not accepting Macomb street in place of Lafayette street, the fact that Lafayette street leads directly out to the proposed Linden Park, to which point they propose extending their road eventually. As to abandoning the road on Michigan Grand avenue and Randolph street, the petitioners consider this

too valuable a franchise to surrender. In view of the differences existing between your committee and the petitioners, the following recommendations are made, viz:

First—The Fort Street and Elmwood Railway Company to abandon so much of its line as extends through Michigan Grand avenue and Randolph street, to the intersection with Croghan street.

Second—That the company be permitted to extend a line of road from the intersection of Fort street west with Woodward avenue, across said Woodward avenue to Monroe avenue, thence through Monroe avenue to Croghan street, thence through Croghan street to Elmwood avenue, thence southerly through Elmwood avenue to Lafayette street, thence westerly through Lafayette street to Farrar street, thence through Farrar street to intersect the line on Monroe avenue.

Respectfully submitted,

GEORGE DORR,
DANIEL SHANAHAN,
JACOB GUTHARD.

Accepted, and laid on the table for one session.

FIRE LIMITS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Fire Limits, to whom was referred the petition of Mrs. A. H. Stowell for permission to raise the roof of her kitchen, would report that her building is not in the fire limits, and we ask to be discharged from consideration of the petition.

Respectfully submitted,

JACOB GUTHARD,
PAUL GIES,
SEYMOUR FINNEY.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Fire Limits, to whom was referred the petition of William Zoph, asking permission to erect a temporary shed at his premises, northwest corner of Russell and Montcalm streets, would report that the structure contemplated will not increase the fire risk, and we therefore report in favor of granting the prayer of the petitioner.

Respectfully submitted,

JACOB GUTHARD,
PAUL GIES,
SEYMOUR FINNEY.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Fire Limits, to whom was referred the petition of Samuel B. Dixon, asking permission to lower the roof of his house, would respectfully report that said house is an ice house, of very large dimensions; that it is the purpose of the petitioner to reconstruct the same and make a dwelling out of it. It is the opinion of your committee that such a change, considering the surroundings of the locality where it is situated, will increase the fire risk very materially. We therefore report adverse to granting the prayer of the petitioner.

Respectfully submitted,

JACOB GUTHARD,
PAUL GIES,
SEYMOUR FINNEY.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Fire Limits, to whom was referred the petition of John O'Brien, asking permission to erect a summer kitchen, would respectfully report that the fire risk will not be appreciably increased, and we therefore report in favor of granting the prayer of the petitioner.

Respectfully submitted,

JACOB GUTHARD,
PAUL GIES,
SEYMOUR FINNEY.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:
 GENTLEMEN—Your Committee on Fire Limits, to whom was referred the petition of Mrs. D. B. Connerston, asking permission to remove her frame building on second street to the corner of Howard and Sixth streets, would respectfully report that the lot to which she proposes to move her house has two houses upon it already. The addition of a third would pack the houses so closely together, thus increasing the fire risk, that your committee cannot approve it. We therefore report adversely. Respectfully submitted,

JACOB GUTHARD,
 PAUL GIES,
 SEYMOUR FINNEY.

Accepted and adopted.

SEWERS.

To the Honorable the Common Council:
 GENTLEMEN—Your Committee on Sewers, to whom was referred the petition of G. S. Wormer & Sons against a lateral sewer through the alley in the rear of lots on the west side of Eighteenth street, between Michigan avenue and the Michigan Central Railroad, would report that in our opinion a sewer is much needed there, both for the convenience of the neighborhood and for the protection of the public health. One man living in the locality who must pay at least half of the tax is in favor of it. Messrs. Wormer & Sons only claim ownership in one lot, and do not live there. We report adverse to granting the prayer of the petitioner. Respectfully submitted,

JACOB GUTHARD,
 MICHAEL HALLER,
 GEORGE DÖRR.

Accepted and adopted.

COMMUNICATION FROM THE MAYOR.

To the Honorable the Common Council:

GENTLEMEN—In my communication of January 11th to your honorable body I mentioned that no steps had been taken to secure a proper revenue from the foot of the public streets or docks. On inquiry I find that many of them are used by

private individuals and corporations without the city receiving one dollar benefit.

It would seem but just that property-holders on each side of the docks owned by the city should have the first privilege of renting them at a price fixed by the Common Council, and if no satisfactory agreement can be arrived at, then they can be let at auction to the highest bidder above the price fixed by the Council; and in this connection I would say that the dock foot of Woodward avenue was leased to H. Jenkins and others for the term of three years, from August 1, 1871, at \$800 per year, and that a large share of this rent remains uncollected, nor does it appear to the credit of the city, in either the Controller's or Treasurer's reports. It seems strange that so large an amount should remain so long outstanding, and more particularly so when the parties are perfectly responsible; and then, too, since the expiration of the lease August 1, 1874, not a cent of revenue has been received of the occupants. It is unaccountable that so valuable a property, and one that can so readily be rented should bring no income for so long a time.

I therefore trust that you will take immediate steps in the matter, so that the amount will not be lost to the city, and that a proper rent be charged for the future.

Respectfully submitted,

ALEX. LEWIS,

Mayor.

Accepted and referred to the Committee on Streets and Controller.

PUBLIC BUILDINGS AND BOARD OF PUBLIC WORKS.

To the Honorable the Common Council:

GENTLEMEN—In response to the following resolution, to wit:

"Resolved, That the Committee on Public Buildings and Board of Public Works be directed to examine into the necessity and the cost of constructing water closets, etc., for the Recorder's and Circuit Court rooms, and report the same to this Council."

The Committee on Public Buildings and Board of Public Works, respectfully report:

In drawing the designs for the City Hall, the architect could not have had any conception of the requirements of nature or the conveniences incident to the wants thereof, or else it was a great oversight on the part of those having the construction of the building in charge in neglecting to provide

suitable closets in the upper story. In the third story are located the Circuit and Recorder's Court rooms and offices for the Clerk of the Recorder's Court and Sheriff. The attendance on these courts is generally large and the want of water closets is apparent.

At times in the midst of important trials the Judge is compelled to suspend business and descend to the basement in order to comply with the demands of nature, and so it is with others, both male and female, whose business requires their attendance in said courts.

The water used in the upper story is carried from the basement, and the waste water must either be thrown out of the windows or carried to the lower story, which requires much extra labor.

The City Hall, externally, makes an imposing appearance, but the internal arrangements for convenience are defective.

After making several tests it is found that the water from the street mains will not flow above the second story of the building without the aid of a pump, thereby requiring the purchase of a boiler and pump.

The whole cost of this improvement, according to the estimates received, will be about \$2,000.

All of which is respectfully submitted,

J. B. ROULAND,

THOMAS JACKSON,
Committee on Public Buildings.

ALEX. CHAPOTON,
President Board of Public Works.

Accepted and placed on file.

To the Honorable the Common Council:
GENTLEMEN—The Board of Public Works, to whom was referred the petition of Jeremiah Connor and others for a lateral sewer in the alley between Crawford, Sixth, Cutler and Brigham streets, also the remonstrance of Susan M. Crowe and others, against the construction of said sewer, report:

The Board after a careful examination of the locality, consider a lateral sewer in said alley a public necessity, and as both parties pro and con are pretty evenly divided in regard to said sewer, respectfully recommend that the prayer of the petitioners for the building of said sewer be granted.

Respectfully submitted.

ALEX. CHAPOTON, President.

Accepted and laid on the table for one session.

FROM THE ATTORNEY.

To the Honorable the Common Council:

GENTLEMEN—The undersigned would respectfully inform your honorable body that he has received from the Controller a summons served on him in a suit commenced before Daniel B. Brown, Esq., a Justice of the Peace, wherein George H. Prentiss is plaintiff and the City of Detroit is defendant. This action is brought to recover money paid by the plaintiff—under compulsion—on an illegal assessment; also that the undersigned has received from the Controller a subpoena served on him in a suit now pending in the Superior Court of Detroit, in chancery—wherein Andrew J. Smith, Attorney General ex rel., Joseph B. Bloss and Samuel Zug is complainant, and The Common Council of the City of Detroit is defendant. The bill in this case is filed to test the legality of a resolution of this Council permitting the opening of saloons on the first day of the week, commonly called Sunday.

Respectfully submitted,

WM. C. MAYBURY,
City Attorney.

Accepted and referred to the City Counselor with instructions to defend the interests of the city.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—In compliance with the instructions of your honorable body, I herewith transmit an ordinance to provide for the appointment of an assistant to the City Controller, City Clerk, and City Treasurer, respectively.

Respectfully submitted,

WILLIAM C. MAYBURY,
City Attorney.

Accepted, and the ordinance was placed upon the first and second readings by its title, laid upon the table and ordered printed in the proceedings.

The following is the ordinance:

AN ORDINANCE

To provide for the appointment of an assistant to the City Controller, City Clerk, and City Treasurer, respectively, and to prescribe the duties of said assistants.

It is hereby ordained by the Common Council of the City of Detroit.

SECTION 1. That on application to the Common Council of either the City Controller, City Clerk or City Treasurer, there may be appointed an assistant to the officer making such application.

Such assistant shall in the absence or inability, for other cause, of his principal to act, perform all the duties required by the charter and ordinances to be performed by his said principal. The acts performed by the said assistant shall be the acts of his principal, and for such acts the principal shall be liable.

Sec. 2. This ordinance shall take immediate effect.

FROM THE CLERK.

That he presented the proceedings of the last session of the Council to the Mayor on the 11th inst., and the same were approved on the 24th inst.

Also that he has approved an ordinance to amend section 6 of chapter 56 of the Revised Ordinances, and an ordinance amending section 8 of chapter 36 of same.

Accepted and placed on file.

Also that Jean Baptiste Clary and J. Wendel Karka have filed indemnity bond for trafficking in liquors.

Referred to the Committee on Ways and Means.

REPORTS OF COMMITTEES.

WAYS AND MEANS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Ways and Means to whom was referred the petition of Michael Blev praying that he might be relieved from his obligations as surety on the bond of Michael Allor, a dealer in spirituous liquors, would respectfully report that we are in favor of granting the prayer of the petitioner when it appears that no right of action has accrued on said bond, and when the said Michael Allor shall have filed a new bond approved by this Council.

Your committee would, therefore, recommend that the City Clerk be instructed to notify Michael Allor to file a new liquor bond forthwith; and

further, that the bond now on file shall, upon the approval of said new bond, be treated as null and void, except as to rights of action accruing prior to the date when said new bond shall be filed with the County Treasurer.

Respectfully submitted,

M. P. CHRISTIAN,

Chairman Committee on Ways and Means.
Accepted and adopted.

FIRE LIMITS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Fire Limits, to whom was referred the petition of C. J. Brady & Co., asking permission to erect a wooden shed adjoining their mill, would report that they have examined the premises, and find that it is the purpose of said firm to erect a shed, consisting of upright posts and a gravel roof. This will be a great assistance to them in their business, and cannot add much if anything to the fire risk, as there are no buildings near their mill. We therefore report in favor of granting the prayer of the petitioners, provided that no part of said shed shall be enclosed.

Respectfully submitted,

JACOB GUTHARD,

PAUL GIES,

SEYMOUR FINNEY.

Accepted and adopted.

SEWERS.

To the Honorable the Common Council:

GENTLEMEN—The Committee on Sewers, to whom was referred the petition of Thomas Crotty and others for a lateral sewer in the alley in the block bounded by Humboldt and Sullivan avenues, and Ash street and Michigan avenue, beg to report:

As a very large majority of the owners of property abutting on said alley are unfavorable to the building of said sewer, the committee deem it expedient to report adverse to constructing the same at the present time.

Respectfully submitted,

JACOB GUTHARD,

MICHAEL HALLER.

Accepted and adopted.

RECONSIDERATION.

Ald. Gies moved to reconsider the vote by which the Estimates were approved at the last session. The motion prevailed by the following vote:

Yeas—Ald. Blodgett, Christian, Finney, Finnegan, Gies, Guthard, Haller, Herrick, Jackson, Liggett, Rouland, Schmitt, Wilks, and the President—14.

COMMUNICATIONS FROM CITY OFFICERS.

FROM THE CITY COUNSELOR.

To the Honorable the Common Council:

GENTLEMEN—The suit of George H. Prentis against the city commenced before Daniel B. Brown, Esq., a justice of the peace, was this day dismissed by Mr. Prentis, and he now threatens to commence a suit in the Superior Court for the same demand, in which he will, of course, recover with costs, as there is no reason why his claim should not be paid.

Respectfully submitted,

D. C. HOLBROOK,
City Counselor.

March 24th, 1876.

Accepted, and in connection therewith Ald. Christian offered the following:

Resolved, That the Controller draw his warrant on the contingent fund in favor of George H. Prentis for the sum of \$86 99 in accordance with the report of the Committee on Streets, February 15th, in payment of his claim for money paid under compulsion for the opening of Twenty-first street.

Adopted as follows:

Yeas—Ald. Blodgett, Christian, Finnegan, Gies, Guthard, Haller, Herrick, Liggett, Rouland, Schmitt, Wilks and the President pro tem.—12.

Nays—None.

FROM THE BOARD OF PUBLIC WORKS.

To the Honorable the Common Council:

GENTLEMEN—The Board of Public Works, to whom was referred the petition of C. B. Taylor and others, for the construction of a lateral sewer in the alley in the block bounded by Harrison avenue and Twelfth street, and Myrtle and Laurel streets, recommend that the prayer of the petitioners be granted.

Respectfully submitted,

ALEX. CHAPOTON,
President.

Accepted, and in connection therewith Ald. Guthard offered the following:

Resolved, That a brick lateral sewer is hereby ordered to be constructed in the alley in the block bounded by Harrison avenue and Twelfth street and Myrtle and Laurel streets, and the Board of Public Works shall and is hereby directed to advertise five days for proposals for constructing the same.

Adopted as follows:

Yeas—Ald. Blodgett, Christian, Finnegan, Gies, Guthard, Haller, Herrick, Liggett, Rouland, Schmitt, Wilks, and the President pro tem.—12.

Nays—None.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—The Board of Public Works report to you that complaint having been made to them of the dangerous condition of the chimney connected with Ives, Green & Co.'s saw-mill, an examination of the same has been made, and it found to be unsafe and liable to fall, in the event of a heavy gale of wind, thereby endangering life and property. Due notice has been given the above named parties, who have failed to make the same secure.

The Board therefore asks from you the necessary instructions.

Respectfully submitted,

ALEX. CHAPOTON,
President.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—The Board of Public Works to whom was referred the petition of Charles Krebs and others in regard to obstructions in an alley bounded by Hastings, Prospect, Columbia and Montcalm streets, report the same back to you with the opinion of the City Attorney, which indicates further legal action.

Respectfully submitted,

ALEX. CHAPOTON,
President.

Accepted and referred to the Committee on Street Openings.

The following is the opinion of the City Attorney:

To the honorable the Board of Public Works:

GENTLEMEN—In the matter submitted to me relative to the legality of the proceedings taken in the opening of the alley bounded by Hastings, Prospect, Columbia and Montcalm streets, I would state that the record of the proceedings is not sufficiently full to disclose all the facts required to give a decided opinion, and I would suggest that several of the petitioners, best acquainted with the premises, becailed to appear at this office for examination as to the facts not shown by the records.

In the meantime I am of the opinion from the facts shown by the assessment book in the office of the City Treasurer that many of the persons assessed have not accepted their awards, and the proceedings as to them would be void and the alley not legally opened.

Respectfully submitted,

WILLIAM C. MAYBURY,
City Attorney.

FROM THE ATTORNEY.

To the Honorable the Common Council:

GENTLEMEN—The undersigned, to whom was referred the resolution of your honorable body, directing that in the suit commenced before Daniel B. Brown, Esq., a Justice of the Peace, wherein George H. Prentis is plaintiff and The City of Detroit, defendant, the right of said Daniel B. Brown to exercise the duties of a Justice of the Peace in the city of Detroit might be tested, would respectfully report that the right of said Brown to exercise the duties of the office in question cannot be tested in a collateral proceeding of this nature, and can only be tested in a direct proceeding by a writ of quo warranto.

Respectfully submitted,

WILLIAM C. MAYBURY,
City Attorney.

Accepted and placed on file.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—In the suit of Michael McCall vs. The City of Detroit, now pending in the Superior Court of Detroit, in chancery, permit me to present the following facts for your consideration: On consultation with Ashley Pond, Esq., special counsel retained to defend the interest of the city in the above suit, I find his opinion to be that the proceedings out of which this suit arose are factually defective in essential particulars, and the decision of the court must be adverse to the city. Upon some of the points raised in the complainant's bill the Supreme Court of the State has already passed and settled the law. In view of these facts, Mr. Pond, believing that his services in the suit will not avail to save the city from liability, is willing to forego his claim for services rendered, thereby saving the city the sum of \$300, provided proceedings in the case on the part of the city cease and the complainant be permitted to take a decree, in accordance with the prayer of his petition.

I present these facts without recommendation, and would submit that investigation of the case in question has led me to a like conclusion as that arrived at by Mr. Pond.

Respectfully submitted,

WILLIAM C. MAYBURY,
City Attorney.

Referred to the Committee on Judiciary and City Counselor.

FROM THE CLERK OF THE RECORDER'S COURT.

To the Honorable the Common Council:

GENTLEMEN—I hereby report to your honorable body that the fines and costs imposed in the Recorder's Court during the March term thereof, for offenses against the ordinances of the city, amount to thirty-nine dollars (\$39).

FIRE LIMITS.

To the Honorable the Common Council:

GENTLEMEN—The petition of M. M. Fisher, referred to the Committee on Fire Limits, we have examined, and report that he wishes to change and remodel the front of his residence, corner of Woodward avenue and Duffield street. He desires also to remove a shingle roof and substitute a Mansard therefor. The change, if effected, will very materially improve the building, and as it is removed from other buildings and comparatively isolated, the committee report in favor thereof, especially as there will be no material enhancement of the fire risk.

On the petition of Mary Duffee, corner Gratiot and Riopelle street, we report that on examination we find she wishes to construct a glass front to her dwelling, thereby converting the same into a store. The front will project out a distance of four feet, and will then be flush with the surface of adjoining buildings. The committee can see no objections to allowing her to proceed, and in their judgment there will be no increased risk by fire if the change is made; they therefore recommend that the prayer of the petitioner be granted.

Respectfully submitted,

JACOB GUTHARD,
PAUL GIES.

Accepted and adopted.

SPECIAL.

To the Honorable the Common Council:

GENTLEMEN—Your Committee of Reference to whom was referred the resolution offered by Ald. Herrick one week ago, would report that we find that cars are left on the Transit Railway Company's track, occupying Wight street for many days together to the great inconvenience and annoyance to the property holders living on said street, and would respectfully recommend the passage of the resolution in relation to the same.

Respectfully submitted,

J. B. ROULAND,
GEO. W. HERRICK.

Accepted, and the resolution referred to in the report was adopted.

COMMUNICATION FROM THE MAYOR.

To the Honorable the Common Council:

GENTLEMEN—On looking over the act establishing the Recorder's Court of the city of Detroit I find that the State is liable to the city for the board of male persons between the ages of sixteen and twenty-two, convicted for the first time, and all females, without reference to age, convicted for offenses, murder and treason excepted, punishable by imprisonment in the State Prison. The law is plain, and says that the expenses attending the confinement of the prisoner after sentence

shall be paid by the State Treasurer quarter yearly, on the certificate of the City Controller that such expenses have been incurred; and it is only just that the State should do so, as the persons referred to above are imprisoned for violation of State law, and not city ordinances. I understand that the county and city have an unadjusted equitable claim against the State for the board of prisoners at the House of Correction and Jail, as stated above, of upwards of \$10,000. As the city represents four-fifths of the county, it may well be said that nearly the whole amount belongs to the city. I therefore urge that you take such measures in the matter as may in your discretion seem best.

ALEXANDER LEWIS,

Mayor.

Accepted and referred to the Committee on the House of Correction and the City Counselor.

REPORTS OF COMMITTEES.

STREETS AND CITY ATTORNEY.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Streets, to whom, with the City Attorney, was referred the joint petition of the Detroit City Railroad Company and other companies operating in the city of Detroit, praying that some action might be taken to prevent the moving of frame buildings through streets used by said companies would respectfully report that the petitioners have in many cases good cause for complaint. The tracks laid by the companies are often obstructed for many days in succession by buildings in the process of removal through the streets. The result is pecuniary loss to the company whose line is thus obstructed, and great inconvenience to the public.

Your committee would therefore recommend that all petitions for the privilege of moving buildings through any streets in which a street railway may be operated be referred to the proper committee, with instructions to report as to the propriety of granting the prayer of the petitioners; and if a favorable recommendation is made to designate the street or streets through which the building shall be moved, and such other restrictions as the public convenience and sound discretion may dictate.

Respectfully submitted,

GEORGE DORR,
DANIEL SHANAHAN,
JACOB GUTHARD,
WILLIAM C. MAYBURY,
City Attorney.

Accepted and the recommendations concurred in.

STREETS.

GENTLEMEN—Your Committee on Streets, to whom was referred the petition of the Detroit City Railway Company to construct a single track, with necessary side tracks, from the present terminus of the line on Jefferson avenue through Woodbridge street to Tenth street, would respectfully report that in the opinion of your committee the part of Woodbridge street mentioned is already occupied completely with the large traffic done on said street, and would be greatly obstructed by permitting the construction and operation of a railway as desired by the petitioner. There appears to be no urgent cause or reason why the prayer of the petitioner should be granted—certainly no cause sufficient to overcome the objection herein set forth, and your committee would recommend that the prayer of the petitioner be denied.

Respectfully submitted,

GEORGE DORR,
DANIEL SHANAHAN,
JACOB GUTHARD.

Accepted, and recommendation concurred in.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Streets, to whom was referred the petition of Joseph Mathers, requesting permission to have his wagon stand in front of his shop at the corner of Michigan avenue and Fifteenth street, would respectfully report that to grant the prayer of the petitioner would be in effect to devote so much of the public space to his private and exclusive use. Your committee believe this would be an unwise precedent to establish, and would originate numerous petitions of a like character, until our public spaces would be largely devoted to private use and enterprise. We therefore recommend that the prayer of the petitioner be denied.

Respectfully submitted,

GEORGE DORR,
DANIEL SHANAHAN,
JACOB GUTHARD.

Accepted and adopted.

MARKETS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Markets, to whom was referred the petition of Benjamin P. Fish and others, requesting that some means might be adopted "to abate the nuisance of street peddlers dealing in oranges, lemons, nuts, etc., to the injury of the trade conducted by the petitioners," would respectfully report that the petition sets forth no facts sufficient to warrant this Council to interfere with, or interrupt the business complained of. If it be true, as stated in the petition, that the trade as conducted by street peddlers is such as to constitute a nuisance, then the petitioners should seek the remedy which the law applies in such cases. We are unable to see how the business of dealing in oranges, lemons, etc., becomes legitimate as conducted by the petitioners, and a nuisance as conducted by other parties, unless some law is violated by the latter. The Revised Ordinances of 1871, chapter 67, section 4, exempts from license any person selling or offering for sale any vegetables, berries, fruit, butter or eggs. By its terms the ordinance appears to favor the business complained of, and unless conducted at an improper place, or in an improper manner, is entitled to the rights accorded other classes of trade.

Your committee, therefore, on the showing made by the petitioners, do not deem any action advisable in the premises.

Respectfully submitted,

DANIEL SHANAHAN,
GEORGE DORR,
GEORGE W. HERRICK.

Accepted and adopted.

MARKETS AND CONTROLLER.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Markets and the Controller, on whom rests the duty of establishing the minimum rent to be paid per month upon all stalls in the public markets, have had the subject under consideration, and believing that the rents heretofore fixed have been much too low, they beg leave to submit the following schedule for the present year:

To the Honorable the Common Council:

Respectfully submitted.

DANIEL SHANAHAN,

FROM THE COUNSELOR AND ATTORNEY.

To the Honorable the Common Council:

GENTLEMEN—The undersigned being requested to report whether a contract by the Board of Public Works for cleaning and removing the dirt from paved streets could legally be made when the cost is to exceed \$300, without having advertised for bids for the same, report that they are of opinion that it is not competent for the board to enter into any contract for the cleaning and re- moving dirt from paved streets, the costs of which exceed \$300, without advertising for bids and let- ting the contract to the lowest bidder. We are also of the opinion that the Board of Public Works

may employ men and teams by the day or month to clean streets and remove dirt, where the labor is performed under the immediate direction and control of the board.

Respectfully submitted,

D. C. HOLBROOK,
City Counselor.
WILLIAM C. MAYBURY,
City Attorney.

Accepted and placed on file.

FROM THE CITY COUNSELOR.

To the Honorable the Common Council:

GENTLEMEN—William B. Moran, Esq., as the attorney of the Hon. Charles Moran, has desired me to call the attention of the Council to the payment of his claim for an assessment paid under compulsion for opening two alleys.

This claim was reported by the special committee to whom the same was referred as one that ought to be paid, but the report was laid upon the table to await the result of the case of Martin against the city.

The claim of Mr. Moran is based upon the fact that the money was paid to prevent the seizure of his personal property. The case of Martin is upon the ground that his real estate was assessed, and he notified to pay.

I contend that the cases are not alike, for the reason that the city could not disturb Mr. Martin, as the tax was illegal, and it could not in any manner injure his title, and therefore there was no necessity of his paying; but as every one is presumed to know the law and as no force could be used it was certainly a voluntary payment, and he is not entitled to recover it back.

There is no question as to Mr. Moran's right to his money, and to save costs I think it better to pay the claim now before a suit, which is threatened, shall be commenced.

Respectfully submitted,

D. C. HOLBROOK,
City Counselor.

Accepted and placed on file.

SUSPENSION OF THE REGULAR ORDER OF BUSINESS.

STREETS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Streets, to whom was referred the petition of the Russell Street, St. Aubin Avenue and Detroit and Milwaukee Junction Railway Company requesting permission to lay a track for the use of said company from Gratiot avenue down Russell street to Lafayette street, or some other street lying between Lafayette street and Jefferson avenue, and running parallel thereto—thence along said street to Randolph street, at or near the Central Market—would respectfully report that, in the opinion of your committee, Russell street below Gratiot avenue is too narrow to accommodate a street rail-

way without serious inconvenience to the general public use of said street; that of the streets lying between Croghan street and Jefferson avenue and running parallel therewith two of said streets, viz., Congress and Larned streets, have already been assigned by ordinance to the Congress and Baker Street Railway Company, and as to the two remaining streets, viz., Fort and La'ayette, the citizens living on the line of said streets have filed a remonstrance against the building of any line of railway thereon.

In view of the objections urged against the construction of the line of railway on the streets mentioned in the petition, we would recommend that the prayer of the petitioners be denied.

Respectfully submitted,

DANIEL SHANAHAN,
JACOB GUTHARD.

We therefore report in favor of granting the prayer of the petitioner.

Respectfully submitted,

JACOB GUTHARD,
PAUL GIES,
SEYMOUR FINNEY.

Accepted and adopted.

On motion of Ald. Guthard, Ald. Christian was excused from attendance at the present session.

HOUSE OF CORRECTION AND COUNSELOR.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on House of Correction and City Counselor, to whom was referred the communication of the Mayor dated March 28th, have examined the matter therein referred to and respectfully report: We find that under section 37 of the act establishing the Recorder's Court of the city of Detroit the State is clearly liable to the city for the expense attending the confinement of all prisoners that have been sentenced to the House of Correction, where the crime committed was punishable by imprisonment in the State Prison. We also find in section 11 of the act establishing the House of Correction that the "Inspectors of the State Prison may contract with the city of Detroit, or any duly authorized agent or officer in behalf of said city, for the confinement and maintenance in the Detroit House of Correction of persons convicted of any offense punishable by imprisonment in the State Prison." The section above referred to also provides that the compensation for the confinement and maintenance shall not exceed one dollar per week. Your committee further find that the County of Wayne did until January 1st, 1875, pay to the City of Detroit the cost of confinement and maintenance of all persons convicted and sentenced at the Recorder's Court to the House of Correction, including all those committing offenses punishable by imprisonment in the State Prison. Since the above date the county has not paid the expenses of this class of prisoners, and is withholding money actually due on account of other prisoners and applying it to the payment of the same paid on account of the State. We also find that the State Treasurer has not paid the same, or any portion thereof, due for the confinement and maintenance of this class of prisoners above referred to.

The account from 1869 to January 1st, 1875, amounting to \$7,508 38, was presented to the State Treasurer and it yet remains unsettled.

Your committee believing that there is now due the city from the State about \$10,000, would recommend that the City Counselor be directed to cause a statement of the account to be made to

April 1st, 1878, and to take the necessary steps to secure a settlement.

Respectfully submitted.

JAMES I. MITCHELL.
R. A. LIGGETT.
LEWIS B. CLARK.
D. C. HOLBROOK,
City Counselor.

Accepted and adopted.

STREET OPENINGS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Street Openings, to whom was referred the petition of Adam Betzing to have him refunded the sum of forty-one and fifty-eight one hundredths dollar, (\$41 58) paid by him for opening Farnsworth street, near Russell, on lot 9, and north one-half of lot 10, Gouin farm, have taken the same under careful consideration, and we find that the lots of said Betzing have not been the least benefited and strongly refused to pay the assessment, but being threatened by the collector to take his grocery wagon from him, which he could not very well spare, he then paid said assessment. Your committee then find that in 1875 the street opening laws were invalid by the Supreme Court, and said body declared that any assessment which was paid under compulsion shall be refunded. Your committee, therefore, are under the opinion that they will be obliged to report in favor of refunding the assessment, and beg leave to offer the following resolution.

J. A. KURTZ.
J. B. ROULAND.
MICHAEL HALLER.

Accepted.

Resolved, That the Controller be and is hereby directed to draw his warrant on the proper fund in favor of Adam Betzing for the sum of forty-one and fifty-eight one hundredths dollar (\$41 58), for assessment on lot 9, and north one-half of lot 10, Gouin farm.

Objected to and laid over.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Street Openings to whom was referred the petition of Mrs. John Steller, to have refunded to her the sum of eighty-six dollars and fifty cents (\$86 50), for opening Labrosse street from the east line of Thompson farm to Twelfth street, being her assessment on lot 1, block 70, Woodbridge farm, have examined the matter carefully, and find that Mrs. Steller had constantly refused to pay said assessment, but being threatened by the City Collector to levy on her property, she then went to borrow the money to pay the assessment to keep away the Collector from any more annoyance. We therefore, under the law, recommend the following resolution:

Respectfully submitted,

J. A. KURTZ.
J. B. ROULAND.
MICHAEL HALLER.

Accepted.

Resolved, That the Controller be directed to draw his warrant on the proper fund in favor of Mrs. John Steller for the sum of eighty-six dollars and fifty cents (\$86 50) for refunding the assessment on Labrosse street.

Objected to and laid over.

To the Honorable the Common Council:

Judge) her old stand in the market, but not below the minimum rates adopted by the Council.

GEORGE W. HERRICK.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Markets to whom, with the City Controller, was recommended the report submitted by said committee and Controller relative to the minimum rent to be paid per month upon all stalls in the public markets, would respectfully report that they have had the said report under consideration, and can see no reason for changing the schedule of prices presented in their former report, and would therefore recommend that the prices fixed and submitted in said schedule be adopted, to which former report and schedule reference is herein especially made.

Respectfully submitted.

D. SHANAHAN.
GEORGE DORR.
GEORGE W. HERRICK.

Accepted.

Ald. Owen moved to amend the report by fixing the rent of the stalls in the market at \$30 instead of \$40.

Ald. Danlap, President pro tem, was called to the chair.

Ald. Gies moved the previous question, which was ordered.

Ald. Owen's amendment was then lost as follows:

Yeas—Ald. Blodgett, Christian, Clark, Finney, Gies, Haller, Owen, Schmitt, and the President pro tem—9.

Nays—Ald. Dorr, Finnegan, Guthard, Heames, Herrick, Hough, Jackson, Kurtz, Liggett, Mitchell, Rouland, and Shanahan—12.

SPECIAL.

To the Honorable the Common Council:

GENTLEMEN—The undersigned, to whom was referred the petition of Meers. Van Dyke & Brownson as the attorneys of the estate of James A. Van Dyke, claiming that the cemetery lot known as the old "City Cemetery," on the Antoine Beaubien farm, has reverted to said estate for the reason that the premises are not used for the purposes granted, report that on June 11th, 1897, the late William Gray, as City Counselor, reported

that in his opinion the fee of said lot was in the city, and in this opinion we concur.

Respectfully submitted,

GEORGE DUNLAP,
JOHN D. FINNEGAN,
JAMES I. MITCHELL,
D. C. HOLBROOK,
City Counselor.

SERIAL.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Judiciary, to whom, with the City Counselor, was referred the communication relative to the case of Michael McCall vs. The City of Detroit, pending in the Superior Court of Detroit, in chancery, would respectfully report as follows: It is the opinion of Ashley Pond, Esq., special counsel retained to defend the interests of the city in the above entitled cause, that the complainant therein is legally and equitably entitled to the relief sought in his bill of complaint, and that the decree prayed for must be granted. In view of this conviction on his part, Mr. Pond has very generously agreed to waive any charge for services rendered, provided no further services are required of him in the case. Your committee would, therefore, recommend that the City Attorney be instructed to give the case any further attention which the interests of the city may require, and to consent to the entry of such decree as in his opinion is proper in the premises.

Respectfully submitted,

GEORGE DUNLAP,
JOHN D. FINNEGAN,
JAMES I. MITCHELL,
WILLIAM C. MAYBURY,
City Attorney.

Accepted and adopted.

SERIAL.

To the Honorable the Common Council:

The undersigned, a majority of the Committee on Judiciary and the City Counselor, having considered the petition of Messrs. Farwell & Robinson for the payment of the balances due on certain contracts for paving streets, report that for some three years past pavements of various kinds have been laid which were claimed to be patented, and proposals were received from the patentees or their assignees for the privilege of laying such patented pavements, and in some instances accepted. Amongst those accepted at 16 cents per square yard was what is called "Stow's cedar block pavement," owned by Messrs. Farwell & Robinson, assignees of the inventor.

The Board of Public Works, in advertising for bids, required all bidders to include in their bids the royalty to be paid on the patented pavement proposed, and in making the contracts for laying such pavement there was a provision that the royalty payable thereon should be retained by the city to pay the holder of the patent and to indemnify the city for laying such patented pavement.

Mr. Robinson, of the firm of Farwell & Robinson, entered into and performed several contracts for paving streets with Stow's patent, the work was duly accepted and the Controller retained from the money collected the amount of royalty which was supposed to be payable under the contracts. This money was collected, and is in the treasury, and belongs either to the patentee or to those claiming under him, or to the parties who paid it. It is this money the petitioners ask to be paid to them as a balance unpaid on these performed contracts, Mr. Robinson having assigned this balance to the firm of Farwell & Robinson. In this way the petitioners claim this money, either as royalty or as a balance unpaid on the contracts.

It has frequently happened that parties have entered into, and performed contracts for laying a patented pavement who had no interest in the patent. In such cases the money retained has been paid to the patentee, and it has never, until now, been denied that they were not entitled to it.

The matter as it now stands presents this singular state of facts, to wit: The owner of a patent agrees with the city to permit it to use his patent, provided the city will collect a certain roy-

alty of the contractors, or have it included in the contract to be retained by the Controller, to be paid to the patentee, to which the city agrees, and contracts are let for the laying of this patented pavement, at a certain price per square yard, and there is no separate sum mentioned in the bids or contracts for royalty in which are included this royalty.

The contract is performed, the money paid into the city treasury, and now the city refuses to pay the patentee the royalty agreed upon, and the only reason so far assigned for this refusal is that the pavement was not the subject of a patent and was void.

The petitioners now claim this money as payable on the work, labor and materials furnished under their contracts; in their first claim it was called royalty; and at one trial Mr. Farwell testified that there was no royalty included in their bids.

The undersigned do not perceive why the petitioners are not entitled to the money in either event, whether the amount was included in the bids or not. They are both contractors and owners of the royalty, and if royalty is payable they are entitled to it. If there was no royalty why are they not entitled to the money as contractors? They are entitled to it if payable to any one.

The refusal of the city to pay for the reason that the pavement was not patentable is a question we submit that cannot be raised at this late day.

After the city has agreed to pay a person for the use of the article he claims to own, and such person relying upon this agreement permits the city to use it, we think it matters not whether the pavement was patentable or not; and it is exceedingly doubtful that such a defense would be allowed under all the circumstances.

There has always been trouble since the city began to lay patented pavements; and the undersigned suggest a means of avoiding this difficulty. That the Board of Public Works prepare careful specifications for the best pavement adapted to this city, and without paying any attention to patents or patentees, proceed to let contracts containing guards against injunctions and damages, and if such pavement is attacked as patented, defend it and then raise the question squarely as to the validity of such patent.

The "Stowe" and "Phillips" patents, we believe, were fraudulently obtained and cannot be sustained, and these are the only patents that interfere with the kind of wooden pavement laid during the last year.

The undersigned therefore report in favor of paying the claim.

JOHN D. FINNEGAN,
JAMES I. MITCHELL,
of Committee on Judiciary.
D. C. HOLBROOK,
City Counselor.

Accepted.

MINORITY REPORT.

To the Honorable the Common Council.

GENTLEMEN—Of your special committee to whom were referred the demands of E. Robinson & Co. for "the balance now in the city treasury and now remaining due and unpaid on the contract for paving, grading and setting curb stones" on Eighteenth, Brady and Baker streets and Woodward and Ninth avenues, the undersigned respectfully submit the following minority report:

The papers shown and proofs made in the progress of the suits and before and since, establish beyond question that Messrs. Robinson & Co. are the sole licensees for this city of both the "Stowe" and "Phillips" pavements, and able to release the city from any valid claims on account of either, and if it can be shown that the pavements on the streets named are covered by either of these patents, the money demanded belongs to the claimants, and should be paid to them at once.

But, agreeing as I do with the majority of the committee in the opinion that both the Phillips and the Stowe patents are worthless, as applied to round block pavements, and further, that the pavements on the streets named are so laid as not to be an infringement on them if they were good, I am led by the following considerations to believe

that Messrs. Robinson & Co. are not entitled to any part of the money now held back by the Controller under the order of the Council.

The Board of Public Works in advertising for proposals for paving required all bidders to include in their estimates the sums which they had engaged to pay for royalty, which in both these cases was sixteen cents per yard and I have too high an opinion of the business capacity of these gentlemen to think that they would overlook or neglect such an important part of their estimates—some of the testimony in one of the cases before the court to the contrary notwithstanding.

Certainly all competing bids were increased by sixteen cents per yard for royalty, and it is fair to assume that if it had been known to be a free pavement the bids would have been nearly or quite sixteen cents below what they were.

The amount retained by the Controller does not belong to the city, but should go back by a refunding bill to the property owners on the streets from whom it was over assessed.

Referring to the claim that the payments demanded are of the same nature as that on Duffield street, judgment on which was taken in the Superior Court early in March, I find on inquiry that the defense in that case was not such as to raise any of the questions in dispute but was so conducted as to lead to the belief that a case was being prepared for the Supreme Court where a vigorous defence could be made and all questions finally and definitely settled.

Believing that these matters should be finally settled through the courts, I have the honor to recommend that the demands be refused.

Respectfully submitted.

GEORGE DUNLAP.

—Ald. Blodgett moved to lay the reports upon the table for one week.

COMMUNICATIONS FROM CITY OFFICERS.

FROM THE ATTORNEY.

To the Honorable the Common Council:

GENTLEMEN—In compliance with the resolution of your honorable body, passed at the last session, instructing me to report whether the Mutual Gas Light Company was not required by the ordinance under which it operates to have its works located within the limits of the city, would respectfully report as follows:

In the recital which follows the entitling of the ordinance under which the company operates it is set forth that certain persons, whose names are therein stated, their associates and successors, propose to organize as a body politic and corporate, under an act of the Legislature of the State of Michigan entitled "An act to authorize the formation of gas light companies," and for the purpose of building and operating gas works in the City of Detroit.

In section 2 of the ordinance under consideration it is provided that in case said corporation shall not within one year from the passage of this ordinance have built and completed gas works in the city sufficiently extensive to enable it to manufacture gas to a reasonable amount; then the consent given by this ordinance shall cease and this ordinance shall be null and void.

In section 6 of the ordinance under consideration provision is made that the said corporation shall execute good and acceptable bonds to the city of Detroit, conditioned to perform the obligations imposed upon it by the provisions of section 2.

From the parts of the ordinance herein referred to it was clearly intended and expressed that said Mutual Gas Light Company should build and operate its works within the city of Detroit.

Respectfully submitted,

CLAIMS AND ACCOUNTS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Claims and Accounts, to whom was referred the Controller's list of Approved Accounts of April 4th, 1878, respectfully report, that they have examined the same, and believing them to be correct, would recommend that they be paid from the proper funds.

Respectfully submitted,

SEYMOUR FINNEY,
JACOB GUTHARD,
DANIEL SHANAHAN.

Accepted and adopted as follows:

Yeas—Ald. Blodgett, Christian, Clark, Dorr, Dunlap, Finney, Finnegan, Gies, Guthard, Haller, Heames, Herrick, Jackson, Kurtz, Liggett, Mitchell, Owen, Rouland, Schmitt, Shanahan and the President—21.

STREETS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Streets, to whom was referred the petition of A. M. Hagadorn, praying that he might be allowed to erect a hitching post, to be surmounted by a small sign, in front of his place of business, No. 343 Woodward avenue, would respectfully report that the request of the petitioner seems to be a reasonable one, and will not interfere with the public interests. We therefore recommend that the prayer of the petitioner be granted.

Respectfully submitted,

GEORGE DORR,
DANIEL SHANAHAN,
JACOB GUTHARD.

Accepted and adopted.

SPECIAL.

To the Honorable the Common Council:

GENTLEMEN—The undersigned to whom was referred the communication of the Mayor in relation to the back rent for the use of the foot of Woodward avenue and to the leasing the foot of streets, report that the whole amount of the rent has been duly paid into the city treasury, and as to leasing the ends of these streets there can be no difficulty and no objection except that of Woodward avenue.

Some years since Mr. George N. Brady leased, for a term of years, the foot of Woodward avenue, for the purpose of using it for a ferry; he constructed and put on the ferry expensive boats, but a license was granted to Mr. John Horn to run a ferry from his dock adjoining the foot of Woodward avenue. The result of this was that he not only interfered with Mr. Brady, but in effect took equal possession and used the premises leased to Mr. Brady, greatly to the injury of Mr. Brady, not only in maintaining a ferry but also in using his premises.

The undersigned believe it to be the duty of the city to encourage the maintenance of a proper ferry at the foot of Woodward avenue, and to

have the same kept in an orderly and respectable manner, and that this can only be done by granting one license *only* for a ferry from the foot of that street, and that license should be granted to the sole lessee of the end of the street, and this lease should be to the highest bidder, with the right of the license in connection therewith.

We are satisfied that it would be unjust for the city to make any lease of the foot of that street without the power of protecting the lessee.

Respectfully submitted,

GEORGE DORR,
DANIEL SHANAHAN,
JACOB GUTHARD.

Committee on Streets.

D. C. HOLBROOK,

City Counselor.

E. I. GARFIELD,

Controller.

Accepted and laid on the table for one week.

FIRE LIMITS.

To the Honorable the Common Council:

GENTLEMEN—The petition of Amandus Hahn represents that he wishes to alter and remodel the premises at No. 164 Randolph street. The committee have given the premises a careful examination and find that he wishes to tear down and remove a very large and venerable barn on the rear of the lot, and also tear down a portion of the main building, 30x40 feet in dimensions, and remove the balance to the rear end of the lot and transform the same into a stable. In the front of the premises he intends to erect two brick stores, thereby very materially improving the premises. The changes contemplated will largely reduce the quantity of woodwork and combustible material there located, and in the judgment of the committee will greatly tend to diminish the danger to be apprehended from fire, and for these reasons they recommend that the prayer of the petitioner be granted.

Respectfully submitted,

JACOB GUTHARD,
PAUL GIES,
SEYMOUR FINNEY.

Accepted and adopted.

MARKETS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Markets, to whom was referred the petition of Mrs. Ellen Smith, praying that she may be permitted to occupy her old stand on the market, and that the same may be assigned to her, would respectfully report that they have had the petition under consideration, and that inasmuch as a former report of your committee, on a similar petition, has been referred to the Controller for his wise consideration, your committee would respectfully recommend that the petition of Mrs. Smith be referred to the same official for such action as he deems wise in the premises.

Respectfully submitted,

DANIEL SHANAHAN,
GEORGE DORR,
GEO. W. HERRICK.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Markets, to whom was referred the petition of Jacob Harris, praying that he may be permitted to occupy his stand in the market for the sale of Yankee notions on the same terms and conditions as the retail dealers in vegetables, would respectfully report that they have had the matter under consideration, and after careful deliberation have concluded to recommend that the prayer of the petitioner be denied, for the reason that we think it would be unwise to deviate from the schedule of prices adopted by this Council for the rent of stands in the market, and that it would be unjust to others occupying similar stands.

Respectfully submitted,

DANIEL SHANAHAN,
GEORGE DORR,
GEO. W. HERRICK.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Markets to whom was referred the petition of various persons, asking that the old market be removed, have had the matter under consideration, and beg leave to submit the following resolution for your consideration.

Your committee believe that this method is the best manner of settling the vexed market question.

Respectfully submitted,
DANIEL SHANAHAN,
GEORGE DORE,
GEO. W. HERRICK.
Committee.
E. I. GARFIELD,
Controller.

Resolved. That this Council consents to the issue and sale of "Central Market bonds" to the amount of \$100,000, as provided in the act of the Legislature, the proceeds of said sale to be used for the erection of a Central Public Market in Michigan Grand avenue.

Resolved. That a special meeting of the Board of Estimates be called on the 14th day of April, at ten o'clock A. M., for the purpose of considering the above resolution.

FROM THE COUNSELOR.

To the Honorable the Common Council:

GENTLEMEN—The claim of the city against the late Edward S. The administrator has given me notice of this petition and as the city is the principal creditor, asks that the city examine the

matter and to act in the matter as may appear just in the premises.

Respectfully submitted,

D. C. HOLBROOK,

City Counselor.

GENTLEMEN—Your Committee on Streets, to whom, with the City Controller, was referred the communication of the Mayor relative to receiving more revenue for the use of the docks at the foot of public streets, respectfully report that as to the dock at the foot of Woodward avenue we have concluded to recommend that an ordinance be adopted providing for a license of \$250 yearly to be imposed upon each person maintaining and operating a ferry for the transportation of vehicles and passengers across the river, and with the privilege of landing on the dock mentioned. The ordinance should further provide that no ferry boat shall remain at the wharf for a longer space of time than five minutes at the end of each trip, and provide for a forfeiture of license, also a penalty for a violation of any of the privileges conferred by the ordinance.

In their opinion the fire risks would be increased thereby, and they recommend that the prayer of the petitioner be denied. Anthony Banger also petitions to erect a shed at No. 999 Michigan avenue, at the extreme border of the fire limits. This shed he wishes to erect in the rear of his dwelling, and his premises are so situated that in our judgment there will be no additional risk there to; and further, there being no objection offered by the immediate residents, the committee report in favor of granting the prayer of the petitioner.

Very respectfully.

SEYMOUR FINNEY.

COMMUNICATIONS FROM CITY OFFICERS.

FROM THE ATTORNEY.

To the Honorable the Common Council:

GENTLEMEN—The undersigned respectfully informs your honorable body that he has been served with a declaration in a suit commenced in the Superior Court of Detroit, wherein Frances Small is plaintiff and the city of Detroit defendant.

This action is brought to recover money paid by the plaintiff in the matter of opening Labrosse street.

Respectfully submitted,

WILLIAM C. MAYBURY,
City Attorney.

Accepted and referred to the Counselor.

FROM THE BOARD OF PUBLIC WORKS.

To the Honorable the Common Council:

GENTLEMEN—The Board of Public Works have carefully revised the paving specifications. Said specifications are so constituted as to accord with the wishes of the property owners generally, and being composed of cedar blocks and stone combined, forms, when laid, a combination pavement.

The specifications are herewith transmitted for your consideration.

Respectfully submitted,

ALEX. CHAPATON,
President.

Accepted, and in connection therewith, Ald. Dorr offered the following:

Resolved, That the paving specifications submitted by the Board of Public Works be, and the same are hereby approved and adopted.

On motion of Ald. Dunlap the communication, specifications and resolution were laid upon the table.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—In reply to a notice from this office the following proposals for constructing water closets, etc., on the second and third floors of the City Hall were received on the 8th inst.:

	Total Cost.
John Cameron.....	\$3,223 00
Holmes & Webster.....	2,300 00
James McEwen.....	1,687 00
Monat & McDonald.....	1,930 00
A. G. Alexander.....	1,915 00
John Reilly.....	2,099 00
J. M. McIntyre & Co.....	2,079 84
Ferguson, McKay & Co.....	1,886 90

In order to make this improvement it will be necessary to occupy a portion of the City Engineer's office on the second floor, and a portion of the offices of the County Surveyor and Drain Commissioner. The county officers seem to be reluctant in giving the city permission to so occupy said offices without providing them with other rooms during the continuance of the lease now held by the county.

Having received a communication from the Board of County Auditors relative thereto the board herewith transmit the same, recommending that the whole matter be referred to the Committee on Public Buildings for adjustment.

Respectfully submitted,

ALEX. CHAPATON,
President.

Referred as recommended in the report.

The following is the communication of the Auditors:

Board of Public Works:

GENTLEMEN—In reply to your communication of the 11th inst., respecting the proposed alteration on the third floor of the City Hall we would most respectfully state that we have no objection to giving up a portion of the room now occupied by the Drain Commissioner and County Surveyor, providing the city will agree to provide a suitable room for the accommodation of those officers during the term of the unexpired lease of the county, should such provision become necessary.

Board of County Auditors.

HARRY D. HADDOCK,
Clerk.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—In response to a resolution adopted by the Common Council, March 24th, 1876, directing the Board of Public Works to take down the mill chimney now standing on the premises owned or occupied by Messrs. Respectfully submitted,

ALEX. CHAPATON,
President.

Accepted, and in connection therewith Ald. Reuland offered the following:

Resolved, That the Board of Public Works be directed to advertise five days for proposals for tearing down the chimney now standing on the premises owned or occupied by Messrs. Ives, Green & Company for mill purposes.

The question then recurring upon the adoption of the resolution, the same was objected to and laid over under the rules.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—The Board of Public Works, to whom was referred the petition of R. C. Ludlow and others for a lateral sewer in the alley in the block bounded by Canfield and Spruce streets and Harrison avenue and Twelfth street;

In the alley between Forest and Hancock avenues, from the west side of John R street to the Brush farm; respectfully report:

After a careful examination of the foregoing premises, it is found that the improvements asked for would not only be a benefit to the property adjacent thereto, but the requirements of the occupants of the premises demand that ample drainage should be afforded. The Board therefore recommend that the prayer of the petitioners respectively be granted.

Respectfully submitted,

ALEX. CHAPATON, President.

Accepted, and in connection therewith Ald. Guthard offered the following:

Resolved, By the Common Council of the city of Detroit, That for the convenience and health of the people of said city, public necessity demands that the following brick lateral sewers should be constructed, to wit:

Respectfully submitted.

ALEX. CHAPOTON,

President.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—The fountain in East Grand Circus Park seems disproportionate in size for grounds of the extent of those contained in the Grand Circus Park, and as there are parks in the city in which this fountain can be placed with advantage, it is desirable that a transfer of said fountain be made. The Adelaide Campau Park being without a fountain, and being much smaller than the Grand Circus Park, the board respectfully recommend that the fountain in the East Grand Circus Park be removed to, and placed in said park.

Respectfully submitted.

ALEX. CHAPOTON,

President.

STREETS AND CONTROLLER.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Streets to whom with the Controller was referred the communication of the Mayor relative to the matter of obtaining more revenue for the use of docks at the foot of public streets, would respectfully report, that as to the docks at the foot of Bates and Orleans streets we would recommend that the former be leased to E. R. Viger, for a term of one year with the privilege of two years more at an annual rental of two hundred dollars, payable quarter yearly in advance, and the latter (viz. Orleans street,) be leased to the Detroit Dry Dock Company, on like terms, but with the proviso that the dock may be occupied and used by the Board of Water Commissioners of the city of Detroit, at such times and in such a manner as the business of said board may require.

Your committee recommend the letting of the docks mentioned at the low rate of rental indicated for the reason that each of the leasees named has at considerable expense repaired and improved their respective docks and it is but just that some preference should be given them in consideration therefor, and we would respectfully recommend the adoption of the following resolutions submitted herewith.

Respectfully submitted,

GEORGE DORR,
DANIEL SHANAHAN,
JACOB GUTHARD,
E. L. GARFIELD.

Controller.

Resolved. That the Controller be and he is hereby authorized and directed to lease the dock at the foot of Orleans street to the Detroit Dry Dock Company for a term of one year, with the privilege of two years more, at an annual rental of two hundred dollars, payable quarter yearly in advance, with the proviso that the dock may be used by the Board of Water Commissioners of the city of Detroit, at such time and in such manner as the business of said board may require.

Resolved. That the Controller be and he is hereby authorized and directed to lease the dock at the foot of Bates street to E. R. Viger for a term of one year, with the privilege of two years

more, at an annual rental of two hundred dollars, payable quarter yearly in advance.

Accepted.

Objected to and laid over.

SPECIAL.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Claims and Accounts, to whom with the City Attorney was referred the petition of Messrs. Shanahan and McLogan, praying that the sum of \$322 17, being the amount of the unpaid assessment due them on their contract for building a brick lateral sewer on the north side of Fort street, from Twenty-first to Twenty-third streets, and in the alley between Lafayette and Fort streets, from Twenty-third to Twenty-fourth streets, would respectfully report as follows:

The deficit here claimed is the amount of the assessment with interest, for the construction of the sewer mentioned, levied on the southerly 120 feet of lot 1, P. C. 727. By the decision of the Superior Court in the case of Michael McCall vs. The City of Detroit, recently decided, the collection of this assessment by sale of the premises, under the levy made was declared illegal, and the sale enjoined. This assessment can be collected, if at all, only by a re-assessment of the premises described, and as the petitioners have already been delayed in receiving their pay for the work done, over a year, through no neglect of theirs, but through the defective proceedings taken on the part of the city, it appears to your committee just that the petitioners should receive, without further delay or inconvenience, the amount of the original assessment, with interest, at the rate of 7 per cent per annum from the time when the assessment roll was placed in the hands of the Collector.

We would recommend that the City Attorney advise this Council at an early day, whether in his opinion a new assessment can be made to cover the deficit in the assessment levied.

We would recommend the adoption of the resolution herewith submitted.

Respectfully submitted,

SEYMOUR FINNEY,
JACOB GUTHARD,
DANIEL SHANAHAN,
Committee on Claims and Accounts.
WILLIAM C. MAYBURY,
City Attorney.

Resolved. That the City Controller be and he is hereby instructed to draw his warrant on the contingent fund in favor of Shanahan and McLogan for the sum of three hundred and seventy-five dollars and ninety cents, to cover the amount of the unpaid and uncollected assessments claimed by said parties for the construction of the sewer on the north side of Fort street, from Twenty-first to Twenty-third streets, and in the alley between Lafayette and Fort streets, from Twenty-third to Twenty-fourth streets.

Accepted and laid upon the table for one session.

COMMUNICATION FROM THE MAYOR.

To the Honorable the Common Council:

GENTLEMEN—I return to your honorable body that part of your proceedings of the 14th inst., authorizing the Controller to pay Messrs. Farwell and Robinson \$9,583 38, which they claim is due them on contract as royalty for paving streets during the year 1875, for the reason that the Board of Public Works inform me that it was fully understood at the time the contract was entered into between Messrs. Farwell & Robinson and the city, that the 16 cent royalty was only to be paid them in case the patent proved to be valid, and if otherwise, the amount retained by the Controller was to be refunded to the property owners who paid for the paving; and from the best information I can gather, I am fully impressed with the belief that the validity of the patent cannot be sustained. I am, therefore, of the opinion that it should not be paid, and that it would be for the interest of the city, to have the question legally decided; for, as it now stands, the patent is held as a bugbear and threat to frighten timid people who would otherwise put in bids to do the work at less rates; but the fear of litigation deters them from entering into competition with their more fortunate rivals, who, I understand, are the owners of twenty seven patents, and who, last season, after the work was all contracted for and finished, gave the city a receipt in full (the consideration being \$1), releasing them from all claims whatsoever that the patentee had or might have against the city for paving done by them for the year 1874; and I understand that Mr. Stow is now and has been willing to sell the city the right to put down the same pavement for 3 cents per square yard royalty.

The Board of Public Works should decide which is the best and most economical pavement, so that all who desire to bid should have an opportunity to do so, and if necessary let the city guarantee them against this patent humbug that makes its yearly appearance about the time that the city lets its contracts. In this way you will get rid of rings, and we shall then have the benefit of fair competition and consequently lower prices.

In the published notice issued by the Board of Public Works, was contained the provision that all bidders proposing to lay patent wood pavements, should include in their proposals 16 cents per square yard royalty. The object of this, was to enable the city to assess and collect by special assessment, a sum sufficient to cover the amount due to the contractor for his labor and materials, and in addition thereto an amount which should cover any claim for royalty that might be made by parties professing to own patents. *This is for the benefit of the city and not for the contractors.* The contract entered into by the city and the contractors, provides that the Controller shall retain the extra amount raised by assessment to cover royalty, and hold the same to indemnify the city against all claims for damages of every kind and nature, on account of using a supposed patent pavement. The contract being performed, the contractor is paid for all he does, viz: Furnishing labor and material. This has been done with Messrs. Farwell & Robinson; they have been paid for labor and material furnished. What the city agreed to pay them they have received.

Their claim for the amount retained by the Controller cannot be based on the contract, as they have been paid for the contract work, etc. If they assert that the patentee had a claim against the city for the royalty, and they are now assignees of this claim, then the validity of the patent under which they claim can be tested be-

fore the courts; for unless there is a valid patent there can be no legal claim for royalty.

The position taken by Messrs. Farwell & Robinson is that they were to indemnify the city against any claim for royalty, but the city, as I understand it, never supposed that Messrs. Farwell & Robinson, or any one else, had any valid patent to the pavement they were putting down; but, as they had been threatened with lawsuits in years gone by, they thought it only prudent to make the special assessment large enough to cover any and all contingencies that might arise.

ALEX. LEWIS,

Mayor.

P. S. Since writing the above the Controller informs me that Henry M. Stow, who claims to be the patentee and owner of the patent referred to above, has served a paper on him, enjoining the city from paying to Messrs. Farwell & Robinson the royalty claimed, as he should hold the city responsible in case they do so, for any damages that he may sustain in the matter.

ALEX. LEWIS,

Mayor.

Accepted, and on motion of Ald. Christian the vote whereby the resolution referred to was passed, was reconsidered by the following vote:

Yeas—Ald. Blodgett, Christian, Clark, Dorr, Dunlap, Finney, Finnegan, Gies, Guthard, Haller, Herrick, Jackson, Kurtz, Liggett, Mitchell, Owen, Rouland, Schmitt, Shanahan, Wilks and the President—31.

Nays—None.

Ald. Gies moved that the resolution lie upon the table.

The chair referred to the house the question whether the motion to lie upon the table should be entertained and the same did not prevail and the reception of the motion was refused by the following vote:

Yeas—Ald. Clark, Gies, Guthard, Haller, Herrick, Jackson, Kurtz and Rouland—8.

Nays—Ald. Blodgett, Christian, Dorr, Dunlap, Finney, Finnegan, Liggett, Mitchell, Owen, Schmitt, Shanahan and Wilks—12.

The question then being shall the resolution pass notwithstanding the veto of the Mayor, the same did not prevail by the following vote:

Yeas—Ald. Herrick—1.

Nays—Ald. Blodgett, Christian, Clark, Dorr, Dunlap, Finney, Finnegan, Gies, Guthard, Haller, Jackson, Kurtz, Liggett, Mitchell, Owen, Rouland, Schmitt, Shanahan, Wilks, and the President—30.

REPORTS OF COMMITTEES.

WAYS AND MEANS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Ways and Means, to whom was referred the communication of the clerk relative to the notice caused to be served by him on Jacob Pfeifer, collector of the Twelfth ward, requiring said Pfeifer to file new official bonds, and his failure to comply with said notice, would respectfully report that from such means of information as we have been able to obtain, it appears that said Jacob Pfeifer is either unable to procure the required bond, or has no desire to do so. It is further reported to your committee that said Pfeifer has determined to leave the city, and has already made all preparation for his departure. We would therefore recommend the adoption of the accompanying resolution.

Respectfully submitted,

M. F. CHRISTIAN,
GEORGE DUNLAP.

Resolved, That the office of Collector of the Twelfth ward of the city of Detroit be and the same is hereby declared to be vacant.

Accepted and adopted as follows:

Yeas—Ald. Blodgett, Christian, Clark, Dorr, Dunlap, Finney, Finnegan, Gies, Guthard, Haller, Herrick, Jackson, Kurtz, Liggett, Mitchell, Owen, Rouland, Schmitt, Shanahan, Wilks, and the President.—**El**.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Ways and Means, to whom was referred the petition of S. J. Giddy and William Gargraves, praying that they may be relieved as sureties from the liquor bond of Henry Loewer, would respectfully report that they have had the matter under consideration and are of the opinion that the Common Council have no power to act in the matter and inasmuch as Section 5 of "The Regulating Law" passed at the Legislative session of 1876 provides that "whenever any condition of said liquor bond shall be broken, a new bond may be required by the County Treasurer, and also in the case of the death, insolvency, or removal of either of the sureties, and in any other contingency requiring it." Your committee would therefore recommend that this and all petitions of a like nature be referred to the County Treasurer.

Respectfully submitted,

M. F. CHRISTIAN,
GEORGE DUNLAP.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Ways and Means to whom was referred the following communication from the City Counselor:

To the Honorable the Common Council:

GENTLEMEN—The claim of the city against the late Edward S. Leadbeter as Treasurer of the city, was duly presented and allowed against his estate: the administrator of this estate recovered a judgment against Henry Weber for about \$7,000, which he, under the statutes of this State, has petitioned the Judge of Probate for leave to the administrator to compromise. The administrator has given me notice of this petition and as the city is the principal creditor, asks that the city examine the matter and to act in the matter as may appear just in the premises.

Respectfully submitted,

D. C. HOLBROOK,
City Counselor.

Asking for instructions in the matter above referred to, respectfully report, that we have carefully considered the subject, and after consultation with Mr. Hoyt Post, administrator of the estate of the late E. S. Leadbeter, City Treasurer, and George H. Prentiss, Esq., attorney for said administrator, we are satisfied that no positive instructions as to the line of policy to be pursued should be given, owing to the peculiar and complicated nature of the circumstances surrounding the case. Your committee believe that if a reasonable amount, say 50 cents on the dollar, can be realized on the face of the judgment, perhaps it would be advisable to accept the compromise, but in the absence of any positive knowledge on this point your committee are not willing to recommend any arbitrary course of action which might result in a sacrifice of the entire claim, and which can only be determined by the subsequent proceedings. Your committee therefore believe that the whole subject should be referred back to the City Counselor with directions to examine the matter, and to take such action as in his opinion will be for the best interests of the city.

All of which is respectfully submitted.
**M. P. CHRISTIAN,
 GEORGE DUNLAP.**

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Ways and Means, to whom was referred the bond of Charles Banford, a liquor dealer, doing business at No. 40 Congress street West, respectfully report that we have examined said bond, and finding it correct and satisfactory, recommend its approval.

Respectfully submitted,
**M. P. CHRISTIAN,
 GEORGE DUNLAP.**

Accepted and adopted as follows:

Yeas—Ald. Blodgett, Christian, Clark, Dorr, Dunlap, Finney, Finnegan, Gies, Guthard, Haller, Herrick, Jack-on, Kurtz, Liggett, Mitchell, Owen, Rouland, Schmitt, Shanahan, Wilks and the President—21.

STREETS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Streets to whom was referred the petition of J. W. Gamsey, manager of the Atlantic and Pacific Telegraph Company, to erect two telegraph poles on Griswold street, between Larned and Congress streets, for the purpose of enabling the company to remove its office from No. 56 to 54 Griswold street, would respectfully recommend that the prayer of the petitioner be granted, with the proviso that within the space of two months said company shall erect permanent poles of such a character and in such places on said Griswold street as the Board of Public Works may direct.

Respectfully submitted,
**GEORGE DORR,
 DANIEL SHANAHAN,
 JACOB GUTHARD.**

Accepted and adopted.

FIRE LIMITS.

To the Honorable the Common Council:

GENTLEMEN—The remonstrances of Wm. R. Curry, H. G. Jones and five others, against granting permission to Amandus Hahn to change and repair the premises on Randolph street, the committee have considered and submit the following: We find that several of the remonstrants have been previously granted privileges of a similar character, and the changes thus effected by them were considered an improvement to that locality. The petitioner does not intend to construct a dwelling in rear of the stores he desires to erect, and furthermore contemplates the erection of a fire wall of brick in the rear of his barn, thereby affording protection in that direction. We are of the opinion that the decrease of the woodwork on the premises will diminish the fire risk, and the erection of the stores will constitute a material improvement. We reaffirm the recommendations contained in a former

report and recommend that the prayer of the remonstrants be denied.

Very respectfully,
**JACOB GUTHARD,
 PAUL GIES,
 SEYMOUR FINNEY.**

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Fire Limits, report as follows upon various petitions referred to them: Benjamin Stone desires to repair and rebuild the kitchen and washroom in rear of the building formerly known as Purdy's Hotel, on Woodward avenue. He has recently refitted and renovated the premises and removed a large quantity of woodwork and combustible material in the rear thereof. The addition, if erected, will not enhance the fire risk, and we report favorably thereto. Mr. H. W. Brown asks to reconstruct his frame barn on Adams avenue east. The structure is in such a dilapidated condition that any alteration thereto will necessarily enlarge the danger by fire to adjoining buildings, and we are constrained to report adversely thereto. Mr. A. P. Cameron asks that he be allowed to erect three wooden buildings on the north side of Fort between Tenth and Eleventh streets. The committee have previously expressed themselves as opposed to granting such permission, and for the reasons set forth in a former report, would recommend that the prayer of the petitioner be denied.

Very respectfully,
**JACOB GUTHARD,
 PAUL GIES,
 SEYMOUR FINNEY.**

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—The Committee on Fire Limits, having examined the following petitions, report thereon as follows: Martha F. Stewart desires to raise her house, No. 19 Howard street, to a height of three feet, set the same upon blocks, and place new sills thereunder, and to make the necessary repairs occasioned by this change. We recommend that permission be granted, conditioned that she does not exceed the limits herein set forth. Andrew Shieler asks that he be allowed to erect an additional story to his cottage, corner Grand River avenue and Seventh street. The premises are situated on a triangular lot, in an isolated position, and the change will effect no increase in the fire risk. We recommend that the prayer of the petitioner be concurred in. Mr. E. E. Doncan wishes to construct a 7x8 addition to his house, No. 100 Congress street east. The said addition will fill up a small niche in one corner of his dwelling, thereby rendering the same square, and will in no sense enhance the fire risk. We recommend that the prayer of the petitioner be granted.

Respectfully submitted,
**JACOB GUTHARD,
 PAUL GIES,
 SEYMOUR FINNEY.**

Accepted and adopted.

ORDINANCES.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Ordinances, to whom was referred the ordinance amending section 2 of chapter 55 of the revised ordinances of 1871, as reported by the City Attorney, respectfully report that they have examined the same, and believing the changes suggested by him to be necessary and proper we therefore report the same back and recommend the passage of the ordinance.

Respectfully submitted,
**R. A. LIGGETT,
 M. P. CHRISTIAN,
 JAMES I. MITCHELL.**

WHEREAS, Divine Providence, whose ways are inscrutable, has entered the household of our esteemed associate, Ald. Heamer, and plucked therefrom a fair flower, a loving and beloved daughter; therefore,

Resolved, That we, in tendering our earnest sympathies to our associate and his family in this their sad hour of affliction, recognize the fact ever apparent to all, that the dearest ties of family and kindred are, alas, too soon to be sev-

ered; that "earth to earth and dust to dust" are true words written in the economy of nature and of nature's God as our inevitable destiny, but that, above all this sorrow of affliction, this rupture of tenderest ties, we have that grand consolation of the Scriptures ever before us, reminding us that:

"Happy are they who die in the Lord;" and that the consolation afforded by this belief may assuage the grief of our afflicted associate and his family is our sincerest desire.

Resolved, That the City Clerk be and is hereby requested to transmit a copy of these resolutions to the afflicted family.

Resolved, That as a mark of respect for our brother official this Council do now adjourn.

Adopted as follows:

Yeas—Ald. Blodgett, Christian, Clark, Dorr, Dunlap, Finney, Finnegan, Gies, Guthard, Haller, Heames, Herrick, Kurtz, Liggett, Mitchell, Owen, Rowland, Schmitt, Shanahan, Wilks and the President—20.

GENTLEMEN—In compliance with the instructions of your honorable body I submit that in my opinion it is the duty of street railway companies operating in the city of Detroit to repair, clean and remove snow, dirt and all rubbish from the space between the tracks and for a specified distance outside of the same.

The ordinances conferring the privilege of constructing and operating railway lines contain a uniform provision to this end, and are clear and explicit in their requirements.

FROM THE CITY COUNSELOR.

To the Honorable the Common Council:
GENTLEMEN—A suit was commenced in the Superior Court by the Fort Street and Elmwood Railway Company against the city to recover the value of materials for repaving the track of that company. In that court a judgment was rendered in favor of the city. The company took the case to the Supreme Court and the judgment was reversed, that court holding that the city is bound to furnish the materials for repaving the track when necessary.

GENTLEMEN—We are instructed by R. C. Phil-

lips to demand of you an adjustment and payment of royalties for the infringement of his Letters Patent No. 131,544 for an improvement in wooden pavements, by the city of Detroit. The validity of these Letters Patent has been determined by the decision of the Circuit Court for the Southern District of Ohio, Judge Emmons presiding, in the case of R. C. Phillips vs. the City of Cincinnati, and royalties paid by the city of Cincinnati. And this decision has been followed by the Circuit Court of Kentucky and royalties recovered of the city of Covington. We trust that upon examination of these cases you will be satisfied that this claim of Mr. Phillips's ought to be settled without further litigation.

Yours truly,

STALLO & KITTREDGE,
Attorneys for R. C. Phillips.

FROM THE BOARD OF PUBLIC WORKS.

STATE OF MICHIGAN, } ss.
COUNTY OF WAYNE.

John Walsh, of the city of Detroit, in the county of Wayne and State of Michigan, being duly sworn, deposes and says that he was formerly in business with one James Shields, under the firm name of Shields & Walsh. The firm was sued by Dennis Lawler, an employee, for arrears in his wages. Lawler obtained judgment before James O. Melick, Esq., a justice of the peace, against deponent and his copartner for the sum of \$198 and costs. Deponent further saith that on this judgment the defendant Lawler obtained an execution against the goods and chattels of deponent and his copartner. The execution was placed in the hands of James McKenzie, constable of the First Ward of the city of Detroit, who levied by virtue thereof on certain personal property belonging to the defendant Shields, and took possession of said property. Deponent further saith that he paid his proportion of the aforesaid judgment, and although nominally a defendant, the plaintiff had received all that he claimed from him and agreed to look to Shields for the balance of the judgment; that after the property of Shields had passed into McKenzie's hands, a writ issued out of the Circuit Court of the county of Wayne to replevy said property; that thereupon said McKenzie demanded of Lawler a bond of indemnity and this bond deponent signed; that said McKenzie then permitted the property in his hands to pass into the hands of Lawler, or persons unknown, and cannot be found; that said McKenzie assigned or gave over to said Shields the bond taken from deponent, and utterly refuses to retake the property or surrender the same to the sheriff of the county under the writ of replevin issued; that said constable has shown bad faith in the transaction, and neglects or refuses to do anything to protect deponent from loss. Deponent further saith that the sureties on the offered bond of said McKenzie are worthless. Further deponent saith not.

JOHN WALSH.

Given to and subscribed before me, this 21st day of April, A. D. 1876.

WILLIAM C. MAYBURY,
Notary Public, Wayne County, Michigan.

PUBLIC BUILDINGS.

To the Honorable the Common Council:

GENTLEMEN—The Committee on Public Buildings to whom was referred the communication of the Board of Public Works relative to constructing water-closets and basins on the second and third floors of the City Hall, together with the proposals received for constructing the same, report:

The committee concluded satisfactory arrangements with the county officers, and the closets can be constructed without in any way affecting the lease now held by the county. In constructing these closets it will be necessary to partition off a part of the office of the City Engineer, thereby rendering said office too small for the purposes of said Engineer. The committee, therefore, to obviate this difficulty recommend that the room now used as a committee room be vacated for that purpose and added to the Engineer's office, in which case the committee can, until otherwise provided for, either meet in the office of the Board of Public Works or City Attorney's office. Your committee, therefore, in view of the benefit to be derived from said improvement, recommend that the following resolution be adopted:

Resolved, That the Board of Public Works be directed to contract with Messrs. Ferguson, McKay & Co for constructing water-closets basins, etc. on the second and third floors of the City Hall, they being the lowest bidders therefor.

Respectfully submitted,

J. B. ROULAND,
GEORGE DUNLAP.

Laid on the table for one session.

STREETS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Streets to whom was referred the petition of Samuel Bauman, requesting to be released for the present from the necessity of building sidewalks on the north side of Leland and Ontario streets in front of out lot 14, of the L. Moran farm, for the reason that the sidewalk mentioned would be of no use to the public and a needless expense to him, would respectfully report that we are in favor of granting the prayer of the petitioner, provided that he complies with the notice of the Board of Public Works and constructs sidewalks on the south side of Leland and Ontario streets at the point indicated in said notice.

Respectfully submitted,

GEORGE DORR,
JACOB GUTHARD.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Streets, to whom was referred the petition of the Hon. Bradford Smith, praying that some means be taken by which the jumping on and riding on the rear of the street cars, by boys, may be prohibited, would respectfully report that they have given the subject careful consideration and believe the matter complained of is fraught with great danger, both to life and limb. Your committee would therefore recommend that the Committee on Ordinances and City Attorney, be requested to bring in such an ordinance as will in their judgment best regulate this matter.

Respectfully submitted,

GEORGE DORR,
JACOB GUTHARD.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Streets, to whom was referred the communication of the Mayor relative to the leasing of the docks at the foot of streets, would respectfully report as follows:

Your committee would recommend that the dock at the foot of Riepelle street be leased to James E. Pitman for one year, with the privilege of two more, at an annual rental of one hundred and fifty dollars, payable quarterly in advance. This dock was contracted to be leased to Mr. C. A. Lorman, but he having found cheaper and more desirable quarters in the neighborhood, refused to execute a lease, and the offer of Mr. Pitman was the best your committee could obtain.

We would further recommend that the improved space at the foot of Joseph Campan avenue be leased to Walter Buhl and E. F. Barnum, representing the Detroit Boat Club, for the term of one year, with privilege of two additional years, at an annual rental of fifty dollars, payable quarterly in advance.

Your committee would, therefore, recommend the adoption of the annexed resolution.

Respectfully submitted,

GEORGE DORR,
JACOB GUTHARD,
E. I. GARFIELD.

Controller.

Resolved, That the Controller be and he is hereby directed to execute a lease of the dock at the foot of Riepelle street to James E. Pitman, for the term of one year, with the privilege of two additional years, at an annual rental of one hundred and fifty dollars, payable in equal instalments, quarterly yearly in advance.

Laid on the table.

Resolved, That the Controller be and is hereby directed to execute a lease of the unimproved space at the foot of Joseph Campan avenue to Walter Buhl and E. F. Barnum for the use of the Detroit Boat Club for the term of one year, with the privilege of two additional years, at an annual rental of fifty dollars, payable in equal instalments quarterly in advance.

FROM THE BOARD OF REVIEW.

To the Honorable the Common Council:

GENTLEMEN—The Board of Review respectfully beg leave to report that they have reviewed, corrected and approved the assessment rolls of the several wards of the city, and in accordance with the provisions of section 8, of chapter 9, of the revised charter, return them (herewith accompanying) to your honorable body.

The present session of the board has been marked by an unusual number of applications for the reduction of values. Rich and poor have alike presented earnest claims for reductions. The burthens borne in the past year of taxation have awakened a keen interest in the assessments for the present year. The new method, wisely adopted by the City Assessor, of presenting on the rolls the actual value of everything assessed, instead of a mere percentage thereof, leaves no room for misunderstanding, and enables every taxpayer to know truly what is meant.

Among the claims presented were some which required more than ordinary investigation and personal inspection. This was given as far as practicable in the brief interval of time allotted to

their labors. It was thus only found that what might appear on the rolls to be unequal was clearly just and proper in the distinctions made.

A due regard to the changes which have occurred in the vicinity of the river, on Woodward avenue, prompted the Board to reduce the valuation there upon the land in about ten per cent. The same applies to some of the streets in the eastern part of the city near the river, such as Atwater, Franklin and Woodbridge streets. Also, on Jefferson avenue opposite the Biddle House.

Sales have recently been made of property in the city, in some cases, at very high figures; and in others very low. They cannot safely in either case be held to govern this board or the City Assessor in making up the rolls, but by a fair and equal average of both arriving at a just proportion.

A large amount of property in the possession of the national and other banks heretofore omitted to be assessed, has in the present instance been placed upon the rolls by this board. They have done this after obtaining the opinion of the City Counselor.

The accumulations of individuals known to the assessor are required by law to be assessed, and this board can see no valid reason why the property of corporate bodies, any more than private citizens, should be exempt. The sum assessed upon them is what they are known to hold in excess of the liberal allowance made by the General Government of twenty per cent of their capital, as a protection for losses.

This is a fund belonging to them that pays no taxes elsewhere, is no part of the capital stock of the institution, but as created in the earnings of the same.

Respectfully submitted,

ALLAN A. RABINEAU,

A. SHELLEY,

WM. A. BUTLER.

Accepted and referred to the Committee on Taxes.

FROM THE SAME.

To the Honorable the Common Council:

SPECIAL.

To the Honorable the Common Council:

GENTLEMEN—The undersigned special committee, to whom was referred the resolution of your honorable body authorizing and directing an investigation of the charges made by Ald. Dunlap that bribery had been resorted to in endeavoring to obtain a favorable action on the claim preferred by Messrs. Robinson & Farwell, for a balance claimed to be due them from the city, would respectfully report, that as a committee we are without power to act in the matter referred to us. The charter, section 21, chapter 5, provides that the chairman of any committee and the members of any board, established by or under this act, may administer oaths and take affidavits in respect to any matter pending before such committee or board. Such committee or board shall have the power to subpoena witnesses, to compel their attendance and the production of necessary papers in all examinations pending before them, and to that end the Common Council may prescribe and regulate the necessary proceedings, etc.

It is clear that the provision of the charter confers authority to issue process for the appearance of persons and the production of papers only upon the various municipal boards, the regular committees of the Council, and upon such special committees composed of members of the Council as may be from time to time appointed.

Your honorable body will recognize the futility of entering upon an investigation of such a serious charge as that referred to in the resolution without having power to compel the attendance of unwilling witnesses whose testimony would be the most important, and the production of such instruments of evidence as might tend to show the truth or falsity of the charges made.

Your committee believes that this investigation should be conducted by a committee clothed with every power which the charter confers, so that no obstacle should impede or obstruct its efforts to develop the whole truth. There are other objections, personal to the members of your committee, to which the attention of your honorable body is respectfully called—the course of the investigation proposed, or in such proceedings as may be taken after the labors of the committee are ended—it may become the duty of the Mayor to exercise some of the authority or discretion vested in him as chief executive officer of the city; that his action as such would be prejudiced by his position as a member of this special committee is clearly possible. No such special reasons affect the remaining members of

21

your committee, but it appears to them most proper that the committee should be selected from the members of this Council.

Respectfully submitted,

ALEX. LEWIS,
 Mayor.

E. I. GARFIELD,
 Controller.

WILLIAM C. MAYBURY,
 City Attorney.

Accepted, and in connection therewith Ald. Heames offered the following:

Resolved, That three members of this Council be appointed by the President to act in place of the Mayor, and with the Controller and City Attorney to investigate the charges of bribery claimed to have been resorted to in endeavoring to procure the passage of the claim of Messrs. Robinson & Farwell, recently acted upon by this Council.

Adopted as follows:

Yeas—Ald. Blodgett, Christian, Clark, Dorr, Dunlap, Finney, Finnegan, Guthard, Haller, Heames, Herrick, Jackson, Kurts, Liggett, Mitchell, Owen, Rouland, Schmitt, Shanahan, Wilks and the President—21.

Nays—None.

And thereupon the chair appointed as such committee Ald. Heames, Dunlap and Finnegan.

SPECIAL.

To the Honorable the Common Council:

GENTLEMEN—Your Special Committee to whom were referred the petitions of J. S. Vernor, Ervin Palmer and others for the division of the Fifth ward by Baggs and Arch streets, respectfully report in favor of granting the prayer of the petitioners and recommend that the City Attorney be instructed to bring in ordinances to make such division and also to divide the new Fifth ward into two election districts by Elizabeth and Orchard streets.

Respectfully submitted,

SEYMOUR FINNEY,
 GEORGE DUNLAP.

Accepted and recommendations concurred in.

SPECIAL.

To the Honorable the Common Council:

GENTLEMEN—Your special committee, to whom was referred the resolution of Ald. Haller to investigate the propriety of changing the name of Ninth avenue to Trumbull avenue, beg leave to report that Ninth avenue formerly bore the name of Trumbull avenue, but the Common Council, in the year of 1867, yielding to the demand for public convenience, caused all streets running north and south, west of Cass street, to be known by numbers, that accordingly Ninth street, being a beautiful street, and following number eight in its turn, was thus properly named Ninth avenue, instead of Ninth street, as it otherwise would have been named. The change at that time was well received, and not a single objecting voice was heard, not even from the relatives of Mr. Trumbull, the gentleman after whom the street had been named. Your committee deem it neither proper nor advisable to change the name of said avenue, first, because of the inconvenience it will create to strangers as well as to our own citizens; second, because the encouragements to other parties to present the names of other streets for baptism.

MICHAEL HALLER,
 GEO. W. HERKICK,
 J. A. KURTZ.

Accepted and Ald. Haller moved the adoption of the report.

Ald. Owen offered the following:

MINORITY REPORT.

To the Honorable the Common Council:

GENTLEMEN—Your Committee to whom was referred the ordinance rechanging the name of the avenue now known as Ninth avenue, back to its original title Trumbull avenue, would respectfully report that we have given the same very careful consideration both in committee and by personal investigation, and we submit the following facts:

Gen. Woodbridge, after great pains and sacrifice

of property, arranged an avenue nearly two miles in length, and 100 feet wide, which he dedicated to the city, for the purpose of perpetuating the name of one, who was endeared to himself by kindred ties, and honored and revered by every patriotic citizen of the city, State, and nation. It was, therefore, that the name of his distinguished relative, should be kept green in the hearts of future generations, that the General dedicated to the city, the beautiful avenue which should for all time bear the honored name.

Your committee is of the opinion that this Centennial year, when the patriotic heart of the nation beats again in honorable commemoration of the gallant heroes of '76, would be an auspicious time to repair the errors of the past, and return to the residents of Ninth avenue the privilege and pleasure of handing down to posterity, the name of one who was known and respected alike by the State and nation.

The undersigned therefore earnestly urge the passage of the ordinance rechanging the name of Ninth avenue to Trumbull avenue.

WM. A. OWEN,
M. P. CHRISTIAN.

Ald. Owen moved to amend the majority report by substituting therefor the minority report.

Adopted as follows:

Yeas—Ald. Blodgett, Christian, Clark, Dorr, Dunlap, Finney, Finnegan, Guthard, Heames, Jackson, Liggett, Mitchell, Owen, Rouland, Schmitt, Shanahan, Wilks, and the President—18.

Nays—Ald. Haller, Herrick and Kurtz—3.

To amend Section 2, of an Ordinance, entitled, An Ordinance Regulating the Getting On and Off of Passengers To and From Street Railway Cars. Approved July 14th, 1873.

It is hereby ordained by the Common Council of the City of Detroit:

SECTION 1. That Section 2, of an Ordinance entitled, An Ordinance Regulating the Getting On and Off of Passengers To and From Street Railway Cars, approved July 14th, 1873, be and the same is hereby amended so as to read as follows:

SEC. 2. No conductor or driver on any street railway car, while such car is in use, shall permit any person to enter or leave the same by way of the front or forward platform, and no person where the forward platform of any street railway car in actual use, is enclosed or guarded, as required in the preceding section shall enter or leave, or attempt to enter, or leave such car by the forward platform thereof; and no person under the age of sixteen years, shall ride on the rear platform of any street railway car, or get on, or off the same, while said car is in motion.

SEC. 3.—This ordinance shall take immediate effect.

SPECIAL.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Judiciary, to whom with the City Attorney was referred the communication of Messrs. Stallo & Kitteredge solicitors for R. C. Phillips, the owner of the Phillips patent pavement, would respectfully report that we have had two sessions in deliberating on this matter at each of which Mr. J. H. Phillips, a son of the patentee above referred to has been present, and represents the claims of the patentee to be in substance, as follows:

He insists that the Phillips patent, so-called, is a valid patent, and in support of this he presents a certified copy of a decree entered in a suit decided in the Circuit Court of the United States for the Southern District of Ohio, Judge H. H. Emmons, presiding, wherein R. C. Phillips was complainant, and the city of Cincinnati defendant. This decree sustains the validity of the patent there claimed, and in other respects grants the relief and discovery prayed for in the bill of complaint. The manner in which the Phillips patent pavement is laid in Cincinnati, or the circumstances under which the decree referred to was obtained are unknown to your committee except as heretofore stated. He, Mr. Phillips, insists that he is entitled to royalty on all pavement laid, under the Phillips patent, in the city of Detroit, except as to such pavement as may have been laid by agreement with Messrs. Robinson & Farwell, the duly authorized licensees of said patentee. Also that he will claim the payment of royalty to him on all pavement laid in the city of Detroit, and known as the "stone cylindrical block pavement," as in his opinion this latter is a clear infringement on the Phillips patent. Notice was further given to your committee by Mr. Phillips that in his opinion the pavement intended to be laid in Detroit the present season under the specifications recently adopted by this Council is an infringement on the Phillips patent, and the laying of the same would be enjoined or such other proceeding taken as the interests of Mr. Phillips may demand.

In reply to a request from your committee as to the amount Mr. Phillips claimed as royalty it was stated that a compromise of the claim could be effected on the basis of ten cents per square yard.

Your committee in view of the uncertainty as to the liability of the city to Mr. Phillips or other patentees making like claims, and the threatened liability of the city for laying pavement under the specifications recently adopted, can see no end to the difficulties which have arisen and which will arise in the future concerning these matters in dispute, unless all doubts are settled by a judicial finding.

We would therefore recommend that the City

Counselor be instructed to defend the city in the suit threatened by Mr. Phillips whenever such suit may be brought.

COMMUNICATION.

To the Honorable the Common Council:

GENTLEMEN—The chairman of the Committee on Streets has called my attention to the action of your honorable body with reference to leasing any rights the city may possess to the terminus of the streets fronting on the river. You are aware of the fact that my warehouses are located at the foot of Griswold street and that about ten years ago my wharf was extended into the river about fifty feet, leaving a jog in the wharf at the foot of said street not extended, making the same dangerous to the lives of our citizens, several of whom were drowned at the place in the darkness of night. Seeing this I proposed to the city to extend the wharf of the street out to the proper line at my own expense, and a lease was executed to me by the city in accordance with that proposition, but on the further condition that I should keep and maintain the same in good repair. This I have done and last year I expended over \$700 in carrying out my obligation in this regard, and while the city has expended over \$30,000 in repairing and maintaining the wharves at the foot of other streets, yet not a single dollar of the public money has been expended for this wharf. Under the charter and city ordinances the foot of our streets can only be used for public travel; no obstructions nor storage of commodities are permitted, but the owners of property on either side have the right for vessels when loading or unloading at their wharves to lap over and cross the streets. As Griswold street is only thirty feet wide at the river I do not see how in view of the foregoing facts the city can grant any valuable rights, but in order to prevent the possibility of petty annoyances to our commerce and shipping business from canoes and fishing smacks from Canada, I have felt willing to incur a large annual expense in keeping the wharf in repair and good order, and I now respectfully request your honorable body to direct the Controller to renew my lease on the same conditions as the last, which will soon expire. You all know that I

have kept the street clear and entirely unencumbered, and it has been my pride to maintain it clean and in good order, and the citizens have had at all times an opportunity to enjoy an unobstructed view of our noble river at the foot of Griswold street.

I have the honor to remain, gentlemen, with great respect, etc.,

Moses W. Field.

Accepted and referred to the Committee on Streets.

FROM THE CLERK.

That be presented the proceedings of the last session of the Council to the Mayor on the 29th ult., and the same were approved on the 1st inst. Accepted and placed on file.

Also, that D. H. Nisbet, James Schmidt, Desire Delos, R. A. Brown, P. F. Cahill, and Charles Spongle have filed indemnity bonds for trafficking in liquors.

Referred to the Committee on Ways and Means. Also, that Dr. J. P. Corcoran, City Physician for the Second District, has filed his report for April.

Also, that Henry Herzog, Constable of the First Ward, has filed his official bond.

REPORTS OF COMMITTEES.

WAYS AND MEANS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Ways and Means, to whom was referred the bond of Henry Herzog, appointed Constable of the First ward, respectfully report that we have examined said bond, and finding it correct and satisfactory, recommend its approval.

Respectfully submitted,

M. P. CHRISTIAN,
GEORGE DUNLAP,
H. HEAMES.

Accepted and adopted as follows:

Yess—Ald. Christian, Clark, Derr, Dunlap, Finney, Finnegan, Gies, Guthard, Haller, Heames, Herrick, Jackson, Kurtz, Liggett, Mitchell, Owen, Rouland, Schmitt, Shanahan, Wilks, and the President—21.

Nays—None.

STREETS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Streets, to whom was referred the several petitions of James Riley and Louis Barry, asking permission to erect sign boards in front of their respective places of business, would respectfully report that the privileges desired by the petitioners, if granted, would conflict with the ordinance now in force governing the erection of signs. Your committee would therefore recommend that the prayer of the petitioners in each case be denied.

Respectfully submitted,

GEORGE DORR,
DANIEL SHANAHAN,
JACOB GUTHARD.

Accepted and adopted.

FIRE LIMITS.

To the Honorable the Common Council:

GENTLEMEN—The Committee on Fire Limits have examined various petitions referred to them, and report thereon as follows: John Dunneback wishes to raise his building, southeast corner of Fort and Beaubien streets, a distance of two feet, and make such repairs as the change will necessitate. As the dimensions of the building will not be materially enlarged, nor the fire risk increased thereby we recommend that the prayer of the petitioner be granted. Mr. E. C. Jones, southeast corner of Cass and Larned streets, wishes to elevate his water closet one story and construct a passage way thereto from the rear of his dwelling. The change will necessitate a considerable increase of woodwork on the premises, and in our opinion will thereby enhance the danger by fire; we therefore report unfavorably thereon. Mrs. Bridget Evans wishes to raise the roof of her dwelling, corner of Twenty-fourth street and Michigan avenue, for which she will ever pray. Mrs. Evans is a widow lady of limited means, and she thinks if she is permitted

to raise the said roof, her health will thereby be improved. An examination of the premises convinces us she is correct in her judgment, and we hereby express our concurrence in her petition and recommend it be granted.

Very respectfully,

JACOB GUTHARD,
PAUL GIES,
SEYMOUR FINNEY.

Accepted and adopted.

STREET OPENINGS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Street Openings, to whom was referred the petition of Nelson M. Farrar and others, requesting that proceedings be taken to open Daizelle street from Sixteenth to Eighteenth street, would respectfully report that in the opinion of your committee it would be unwise to attempt the opening of any street or alley in the city of Detroit under the existing provisions of the charter. We would therefore recommend that the prayer of the petitioners be denied.

Respectfully submitted,

J. A. KURTZ,
MICHAEL HALLER,
J. B. ROULAND.

Accepted and adopted.

SPECIAL.

To the Honorable the Common Council:

GENTLEMEN—Your special committee to whom were referred the petitions for extended street railway franchises of Fred. Carlisle in behalf of the Congress and Baker Street Railway Company, and also that of the Fort Wayne and Elmwood Avenue Street Railway Company, have given the matter careful consideration, and beg to report as follows: Street railways have of late years contributed greatly in the development of a city's prosperity; they have enabled the man of small income to live far away from his employment or business, at a cheap rent or in a cheap home, and for a nominal fare be carried to and from his business or occupation at all hours of the day and night. They are at present, as they have been in the past, the means of building up and improving the outer portions of all cities, and thus of converting farm lands into valuable property, in many cases more valuable and more desirable as residence property than that which is more centrally located; they afford a rapid, cheap and pleasant means of transit for the old and the young, the rich and the poor, and for these reasons your committee, on general principles, regard street railways in a very favorable light, and will not refuse a franchise if it is deemed practicable, and public necessity and convenience seem to warrant it. Your committee believe that the Congress and Baker Street Railway should be permitted to continue their track eastward as far as Mount Elliott avenue on the street they now occupy, viz., Congress street. That street is paved 30 feet, is not a favorite driving street, on account of its cobble stone pavement, and is wide enough for street railway and other purposes. A system prevails in some cities of going up one street and down another, thus avoiding switches; this system has never obtained here, and your committee does not favor it enough to recommend it at present and, as it leads to very much confusion, especially to strangers, your committee would report adverse to granting said Congress and Baker Street Railway Company the right to occupy Fort street, but would restrict them to the use and occupation of Congress street alone, from their present terminus east to Mount Elliott avenue, and would recommend that the City Attorney bring in in the necessary ordinance. We believe this would be a great accommodation to the residents on Congress street and especially those more removed from the central portion of the city.

Relative to the Fort Wayne and Elmwood Street Railway Company's petition, asking for permission to use and occupy Lafayette street, we would report adverse thereto for the same reasons that we restricted the Congress and Baker Street Railway Company to Congress street; besides, it

would bring the competing lines too near each other, and furthermore, Lafayette street having been paved only a width of 25 feet, it would seem to be too narrow for that purpose; as to the other portion of their petition relative to permitting them to extend their track down Elmwood avenue to Lafayette street, and thence east to Mt. Elliott avenue, your committee think it would be an accommodation to the public to grant said extension, and do report favorably thereto and recommend the City Attorney to draw up the necessary ordinance for that purpose.

Respectfully submitted,

GEORGE DORR,
WM. A. OWEN,

Accepted and laid on the table for one week.

SPECIAL.

To the Honorable the Common Council:

GENTLEMEN—Your committee to whom was referred the petition of Charles Degot for permission to move his house from the corner of St. Anfin avenue and Larned street to the corner of Campan avenue and Macomb street, see no reason why the prayer of the petitioner should not be granted, as said petitioner intends to remodel and rebuild in such a manner as to make this house unobjectionable to any parties living in the neighborhood where said house is to be moved. Said Degot is to build a new front to his house, which will make it appear as a new building.

Respectfully submitted,

J. B. ROULAND,
GEO. W. HERRICK.

Accepted and adopted.

To the Honorable the Common Council:

GENTLEMEN—The Committee on Licenses to whom was referred the petition from I. W. Ezekiel and six others, praying that the taxes of pawnbrokers be reduced, respectfully report that they have had the same under consideration and are of the opinion that the taxes are rather erroneous, compared with the taxes levied in other cities, and therefore recommend that the ordinance be so amended that the tax be \$150 00, as that would be a reasonable tax. STREET OPENINGS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Street Openings, to whom was referred the petition of Charles Krebs and others, relative to an alley in the block between Hastings, Prospect, Montcalm and Columbia streets, have examined into the matter and would report as follows: We find that said alley was opened in 1866 from the west line of the Rivard farm to Prospect street a width of fifteen feet only, and that the rest of said alley westward to Hastings street is twenty feet wide, thus creating a jog in the middle of said block of five feet, which is very annoying to the petitioners; that however objectionable your committee can see no remedy for it until some new street and alley opening legislation can be procured, when said alley should be opened of a uniform width of twenty feet. Your committee think, however, that all obstructions ought to be removed to the extent of the width of said alley, and would present the accompanying resolution.

Respectfully submitted,

J. A. KURTZ,
MICHAEL HALLER,
J. B. ROULAND.

Resolved, That the Board of Public Works notify all property owners, agents or occupants of lots abutting on said alley to remove all obstructions as per above report within ten days, according to the ordinance in such case made and provided.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Street Openings, to whom was referred the petition of A. M. Campan, asking to be refunded the sum of \$52, paid by him for opening an alley in the block bounded by Clinton avenue and Macomb street, from McDougall to Elmwood avenue, in the year 1878, would respectfully report that we find the statements made in the petition of Mr. Campan mainly correct. Said alley was opened in the year 1873 by a jury and the report was confirmed by the Recorder's Court. It does not appear that Mr. Campan made any objection to said opening, but that he paid his assessment for the same without compulsion; and your committee are further of the opinion that Mr. Campan had more than value received for his money. We are also of the opinion that it is unwise for this Council to attempt either directly or indirectly to destroy the beneficial results attained the past few years by street openings, but should steadily refuse to reopen any cases of street or alley openings except in those cases where the claimants would plainly obtain relief in the courts. Any other course will flood this Council with petitions, many of

rious in their nature and false in their statements, and will in the end mulct the city of a very large amount of money. We think that the courts would grant Mr. Campan no relief; we therefore report adverse to the petition.

Respectfully submitted,

J. A. KURTZ,
MICHAEL HALLER,
J. B. ROULAND.

Accepted and adopted.

SPECIAL.

To the Honorable the Common Council:

GENTLEMEN—Your Special Committee to whom was referred the project of an appropriate celebration of this our Centennial Fourth of July, have given the subject considerable investigation, and conversed with many leading citizens, and find the old spirit of '76 is rampant among all classes; we also find that while many of our citizens are going to Philadelphia, many more of us will be compelled to stay at home to celebrate, and as it is the desire of your committee to afford all our citizens an opportunity of assisting in this laudable and patriotic project, and for the purpose of a united action therein, we would request His Honor, the Mayor, to call a meeting of citizens at as early a day as practicable, a committee of whom, to act in conjunction with the committee of the Council in making all necessary arrangements for a suitable and appropriate celebration; we would also recommend an appropriation from the "celebration fund" of the sum of \$1,600 as the Council quota for the above purpose. All of which is respectfully submitted,

GEORGE DORR,
M. P. CHRISTIAN,
JAMES I. MITCHELL,

SPECIAL.

To the Honorable the Common Council:

GENTLEMEN—The undersigned special committee, to whom, with the City Controller and City Attorney, was referred the resolutions of your honorable body directing an investigation of the charge made by Ald. Dunlap that bribes had been offered to influence the payment to Messrs. Robinson & Farwell of money claimed to be due them and held in the city treasury, would respectfully report as follows:

We find that the charges made not only did not directly or indirectly implicate the Council, or any individual member thereof, but clearly exempted the Council from any complicity in the matter.

The investigation of your committee having progressed so far as to leave no reflection or imputation of any nature resting upon this body by the terms of the charge as made, we do not consider ourselves authorized by your honorable body, or called upon by any consideration of public good or policy, to pursue the inquiry any further. It would, in any event, only implicate in the crime charged persons not amenable to the discipline of this Council and having no relation to the city government.

FROM THE BOARD OF PUBLIC WORKS.

To the Honorable the Common Council:

GENTLEMEN—About 50 feet of the abutment and wing wall under the northwest corner of the Fort street bridge has fallen to the ground, and left that portion of the bridge unsupported except by timbers temporarily placed thereunder for security; and the southwest end will also fall unless immediate attention is given thereto. The falling of this wall can only be accounted for by the company's grading its track so low as to expose the foundation of the same to the elements; and there is no doubt but the frost, together with the constant jar caused by cumbersome trains passing to and fro, so weakened the wall as to cause the same to give way.

The company informs the board that it was the understanding with the city that when bridges were built over the Michigan Central Railroad track the city should thereafter keep the whole in repair, including abutments, wing walls, etc.

This case in the opinion of the board is somewhat different from those heretofore brought to your attention, for in order to accommodate the company the track was lowered regardless of the effect it would have on the future stability of the abutments under bridges along the line of its track, thereby rendering the company, instead of natural causes, responsible for the falling of the same. The city, as heretofore, is willing to assume its share of the burden in keeping these abutments in repair when they are rendered unsafe by natural causes, but when the cause can be traced directly to negligence or otherwise on the part of the company, it is deemed no more than justice that said company should repair the evil.

The matter is therefore submitted to your honorable body for such action as in your wisdom may be for the interest of all concerned.

Respectfully submitted,
ALEX. CHAPOTON,

President.

Accepted and referred to the Committee on Streets and Councillors.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—The Board of Public Works to whom was referred the petition of Maria Grazer and others, for a brick lateral sewer in the alleys between Fort and Lafayette streets and Elmwood avenue and the west line of Lieb farm; and

The petition of W. C. Campbell and others for a brick lateral sewer in the alley south of Michigan avenue between Thirteenth and a-half and Fourteenth streets, respectfully recommend that the prayer of the respective petitioners be granted.

Respectfully submitted,

ALEX. CHAPOTON, President.

Accepted, and Ald. Guthard, leave being granted, offered the following:

Resolved, By the Common Council of the city

empt from taxation, your committee recommend the adoption of the annexed resolution.

Respectfully submitted,

C. C. BLODGETT,
R. A. LIGGETT,
H. HEAMES.

Resolved, That the same be and is hereby stricken from the assessment rolls the sum assessed against lot No. 11, Lieb farm, the same now being used for cemetery purposes.

Adopted as follows:

Yeas—Ald. Blodgett, Christian, Clark, Dorr, Dunlap, Finney, Finnegan, Guthard, Haller, Heames, Herrick, Jackson, Kurtz, Liggett, Owen, Rouland, Schmitt, Wilks, and the President—19.

Nays—None.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Taxes, to whom with the City Attorney was referred the petition of the trustees of the Detroit Female Seminary, claiming that the property owned and occupied by said corporation in the city of Detroit had been improperly placed on the tax rolls of said city for the present year, would respectfully report that the petitioners rely on the provisions of subdivision 8, section 5 of chapter 31 of the Compiled Laws of 1871, for the exemption claimed. The statute referred to reads as follows, viz.: "The personal property of all library, benevolent, charitable and scientific institutions incorporated within this State, and such real estate belonging to such institutions as shall actually be occupied by them for the purposes for which they were incorporated." Following this statute are special acts under which the several institutions mentioned may be incorporated, and in each of these special acts the exemption referred to in the statute above cited is noted.

The Detroit Female Seminary is incorporated under an act entitled "An act to provide for the incorporation of institutions of learning," approved February 9th, 1855. In this act no exemption is provided for.

In omitting the word "educational" from the statute relied on by the petitioners, and in providing special acts for the incorporation of institutions mentioned in the exemption, there was a clear intention on the part of the Legislature to distinguish these institutions from those incorporated under the general educational act.

The seminary conducted by the petitioners is one in which the general branches of learning are taught as in the common schools of the State, and the revenue derived from said seminary passes directly into the treasury of the corporation for the use and benefit of those interested. It is in every sense a private enterprise. Your committee would recommend that the prayer of the petitioners be denied.

Respectfully submitted,

C. C. BLODGETT,
R. A. LIGGETT,
H. HEAMES.

WILLIAM C. MAYBURY,
City Attorney.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Taxes to whom was referred the communication of the Board of Review transmitting to this Council the assessment rolls of the various wards, would respectfully report that after mature deliberation we are of the opinion that the rolls should be approved and confirmed as submitted, and to that end we ask that the annexed preamble and resolution be adopted.

C. C. BLODGETT,
R. A. LIGGETT,
H. HEAMES.

WHEREAS, The Board of Review of the City of Detroit have returned to this Council the assessment rolls of the several wards of said city for the year 1876; and

WHEREAS, Said Common Council have fully considered said rolls, no appeals having been

made from the decision of said board to this Council in regard to the same; therefore

Resolved, That the assessment rolls for the several wards of the city of Detroit for the year 1876 be and the same are hereby fully and finally confirmed.

Adopted as follows:

Yeas—Ald. Blodgett, Christian, Clark, Dorr, Dunlap, Finney, Finnegan, Guthard, Haller, Heames, Herrick, Jackson, Kurtz, Liggett, Owen, Rouland, Schmitt, Wilks, and the President—19.

Nays—None.

SPECIAL.

To the Honorable the Common Council:

GENTLEMEN—The undersigned, to whom was referred the petition of Dwyer & Vhay, asking the privilege of storing fireworks and selling the same at wholesale at the place of business now owned and occupied by them at No. 68 Jefferson avenue, report: We have made a careful examination of this question and while your committee have no desire to prevent the patriotic citizens from giving expression to their enthusiasm through the liberal use of the sky-rocket, we are of the opinion that to grant the privilege of storing this class of goods within the city limits would be exceedingly unwise, for, in case of fire in a building in which large quantities of fireworks were stored the dangers to which the lives of the firemen are always exposed would be largely increased by the explosions which would take place and the spread of the fire would also be rapidly augmented. Did we grant this privilege to one dealer we would in justice be compelled to grant it to all others, and as a consequence the business portion of the city would be endangered in a manner wholly unjustifiable. We would therefore recommend that the prayer of the petitioners be denied.

GEORGE WILKS,
R. A. LIGGETT,
Aldermen of First Ward.

Accepted and adopted.

FROM THE TREASURER.

To the Honorable the Common Council of the city of Detroit:

GENTLEMEN—The many changes which have been made of late years in the names of streets, and also of descriptions of tracts within the city limits, have made it a matter of much difficulty as well as uncertainty to designate upon the abstract books of this office prior to 1871, which are arranged by farms, the precise lands sold for taxes and assessments to that date. The amount of city claims on the city taxes alone is about \$18,000. I deem it most essential for the interests of the city that a careful comparison should be made, and an accurate reference to the old subdivisions be entered upon the new abstract books, commencing with 1871.

These last books were compiled during the administration of the late City Treasurer from the tax rolls of 1872, by extra clerical aid authorized by the Council, and being arranged by streets, have become, from the number of old streets since extended and new ones laid out, inadequate to record the sales made on these later subdivisions, and it is absolutely necessary that they should, before the sales of June next can be properly recorded, be written up to correspond with the latest rolls in the office of the City Assessor's. An index of the streets for each ward, which was omitted at the time of compilation, is also requisite as well for public convenience as to render the records complete.

Believing it also to be greatly to the interest of the city that its unredeemed claims for taxes and assessments down to 1870 (now scattered over fifteen books) should be arranged in a more systematic manner for convenience of examination and possible facility of settlement, I would respectfully suggest that they be condensed into a book prepared for the purpose, thus rendering easily available for the above purpose, and for any action which the Council may deem proper to take upon them in the future.

I respectfully request of your honorable body authority to employ the additional help necessary for the above purpose.

Very respectfully,

WM. PARKINSON,

City Treasurer.

Referred to the Committee on Ways and Means.

FROM THE CITY CLERK.

That he presented the proceedings of the last session of the Council to the Mayor on the 6th inst., and the same were approved on the 8th inst.

Also that Dr. T. V. Law, City Physician of the Fifth District, has filed his report for March.

Accepted and placed on file.

Also that Nell McGugan and James Hogan have filed indemnity bonds for trafficking in liquors.

Referred to the Committee on Ways and Means.

Also that Dr. H. A. Goodwin, City Physician of the First District has filed his report for April.

Accepted and placed on file.

REPORTS OF COMMITTEES.

STREETS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Streets, to whom was referred the petition of August West-hert for permission to erect a sign post in front of his store, No 835 Michigan avenue, would respectfully report, and find that to grant his petition will not interfere with the present Street Ordinance in regard to obstructions, and we are in favor of allowing him to erect the same.

Respectfully submitted,

GEORGE DORR,

JACOB GUTHARD,

Accepted and adopted.

FIRE LIMITS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Fire Limits, to whom was referred various petitions, have examined the same and report thereon as follows: Thomas S. Reath and Trangoit Schmidt petition respectively as follows: The former wishes to raise one end of a roof on a shed about six inches and place a composition roof thereon, and the latter desires to tear down an old shed in rear of his premises and rebuild it in a more substantial manner. The change in both instances is of a trivial nature and will not affect the fire risk, and we report favorably thereto. Mr. H. H. LeRoy petitions for authority to repair a wood-shed. In our opinion the repairs contemplated are of such a nature as not to require any special permission, and we recommend he be allowed to proceed. George A. Johnson, No. 168 Howard street, wishes to build a small addition to his house and place a gravel roof thereon. The premises are so located that the addition thereto will cause no increased risk, and no objections being offered thereto, we recommend the petition be granted. Mr. John Freeman, No. 438 Fort street east, wishes to raise and square off the roof of his wood-shed on his premises there located. The change is of a similar nature as the ones above referred to, and we recommend that the prayer of the petitioner be granted, as the fire risk will not thereby be increased. Patrick McLaughlin, whose premises are situated on Congress street, between Sixth and Seventh streets, desires to erect a double brick dwelling, and wood-shed, kitchen and barn thereon, and also to occupy the street for building purposes. The additional wood work will, in our opinion, enhance the fire risk in that locality, and we report adversely thereto. So much of the petition as relates to the construction of the brick dwelling and the occupation of the street we concur in, and recommend that it be granted.

Very respectfully,

JACOB GUTHARD,

SEYMOUR FINNEY.

Accepted and adopted.

TAXES.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Taxes, to whom was referred the petition of Alex. M. Campan, asking to have set aside the sale of all that portion of the McDougall farm which lies between Croghan street and Clinton avenue, report: We find that in 1869 the assessment was made on this property as farm land, and also that another was made the same year after it was subdivided into lots. He paid the taxes on the lots and the farm was sold for taxes. In 1871 the Committee on Taxes reported a resolution, which was adopted, setting aside the sale of the lots, whereas the books in the Treasurer's office show that the farm was sold and not the lots. To set the matter right, your committee report and recommend the adoption of the annexed resolution.

Respectfully submitted,

C. C. BLODGETT,

R. A. LIGGETT,

H. HEAMES.

FROM THE SAME.

To the Honorable the Common Council:
GENTLEMEN—Your Committee on Ways and Means, to whom was referred the request of the City Treasurer in regard to certain improvements deemed necessary in the abstract books in his office, have had the same under consideration.

The changes proposed by the Treasurer are, first, to revise the old abstract books, which commence with the year 1841, and which are arranged by farms, so as to identify all descriptions of lands thereon, with the latest subdivisions of the same upon the new abstract books, which latter are arranged by streets, and, second, to record upon the new books compiled from the tax rolls of 1872, all later changes and subdivisions made, so as to correspond with the rolls for 1876, now in the office of the City Assessor, adding also a complete index of the streets; and, third, to condense into a prepared book all city claims for taxes and assessments previous to 1871, with a view to convenient reference and an endeavor towards their collection.

Your committee, believing that the rapid growth of our city, with its accompanying improvements and changes, render the suggestions of the City Treasurer, necessary, not only for the proper discharge of that part of his official duty, but also for the interests of the city, as well as public convenience, respectfully recommend the adoption of the following resolution.

Respectfully submitted,

M. P. CHRISTIAN,
GEORGE DUNLAP,
H. HEAMES.

TAXES.

To the Honorable the Common Council:

GENTLEMEN—The Committee on Taxes to whom was referred the petition of George Oldekopp, asking to be refunded the sum of \$18 67 paid by him for the opening of an alley running from Antoine to Hastings street, between Adams avenue and Elizabeth street, report: We find that in 1874

he petitioned the Council to have this assessment refunded, and the Committee on Taxes reported adversely to it June 19th, 1874, for the reason as stated that "the owner of the lot failed to put in any objections to the Recorder's Court when the matter of the opening of the said alley was being considered, and by this neglect cut himself off from any redress;" and for the further reason "that the assessment referred to was charged against Mr. Moran and not against the petitioner." Your committee see no reason why that report should be reversed, and therefore recommend that the prayer of the petitioner be denied.

Respectfully submitted,

C. C. BLODGETT,
R. A. LIGGETT,
H. HEAMES.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Taxes, to whom was referred the petition of A. Coquard, asking that the assessment made on his house, located at the corner of Jefferson avenue and Riopelle street, be reduced from \$1,120 to \$200, report: We find that he is receiving an annual rental of \$40 for the use of the house, and so long as this continues your committee would not favor a decrease of the assessment, and would therefore recommend that the prayer of the petitioner be denied.

Respectfully submitted,

C. C. BLODGETT,
R. A. LIGGETT,
H. HEAMES.

Accepted and adopted.

PRINTING.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Printing, to whom, with the Controller were referred the accounts of the *Abend Post* and Wm. A. Scripps, transmitted without approval have carefully examined the same and submit the following result, and recommend their payment as indicated:

	Bill rendered.	Allowed.
Daily <i>Abend Post</i>	\$ 156 52	\$ 119 04
Daily <i>Abend Post</i>	164 01	97 75
Wm. A. Scripps	506 50	198 67
Wm. A. Scripps	97 50	73 07
Wm. A. Scripps	49 00	29 74

The overcharges in the bills of the *Abend Post* were made by charging the city for printing the official proceedings in brevier type and measuring with a nonpareil rule. The proceedings are now printed and measured in nonpareil, and the proprietors have withdrawn their claim for over-measurement.

The overcharge in the bills of Wm. A. Scripps occurs in making out his accounts at more than the contract price, and also in measurement, which your committee believing to be incorrect have refused to allow.

In the Index to the Council proceedings, which is printed in nonpareil and leaded, your committee find, for themselves, and by the testimony of experts that a gross overcharge in measurement and also in price is made. Your committee have allowed the bill at full measurement of nonpareil type and at the contract price. The leads which should not have been used we have deducted and have allowed the bill as if the type had been set solid as in previous years. The leading of the index, which was done only to add to the printer's bill, increased the number of pages from 72 to 110. In the course of the investigation, a printer's rule, bearing the stamp of McKellar, Smith & Jordan, who are the proprietors of the oldest type foundry in the country, was submitted to the committee by Mr. Scripps, and was also brought to the committee room by two practical printers who had been asked to be present and assist the committee in arriving at a solution of the vexed question. Upon a close examination of the rule it was found to have been altered, that is, the standard measure had been nearly obliterated and another made measuring in the printer's favor. When this was discovered and brought to the notice of Mr. Scripps, he acknowledged that the rule had been

altered. Your committee obtained a correct rule of the same make, and also other rules from other manufacturers, and find that while a portion of the rule is correct, that part of the rule which is used for nonpart type (which is the type used in the Index), is far from correct. It has not been made clear to your committee why the rule has been changed, and they are left to believe that it was done for the sole purpose of increasing the bill.

Your committee have reduced the principal items as follows: Index, 723,000 ems to 387,632; the pour roll 60,000 ems to 46,900; price of composition from 60 cents to 35 7/10 cents; press work from 40 cents per token to 25 2/10 cents.

Your committee find no excuse for these overcharges, and they cannot condemn too severely those who make them.

The committee are examining other claims which have been paid, with a view of ascertaining if any overcharges have been made in former years.

Very respectfully, etc.

JOHN D. FINNEGAN.

SEYMOUR FINNEY.

Committee on Printing.

E. I. GARFIELD.

Controller.

Ald. Gies moved to adopt that part of the report relating to the *Abend Post*.

Ald. Kurtz moved to lay the entire report upon the table for one session.

Adopted.

OBITUARY.

By Ald. Owen:

Whereas, The wife of the Hon. Wm. G. Thompson, late President of this Council, has been, after a brief though painful illness, stricken down by the dread messenger Death in the very bloom of youthful womanhood, in the prime of usefulness and social happiness in the high circle in which she moved; a woman of tender sympathies, gentle, and amiable, whether in the presence of common people or in the highest and most cultivated, she never failed to fix upon the minds of all who met her the unchangeable impression that she was of the highest type of nature, a true and noble lady without ostentation; and

Whereas, Those of this body who knew the deep love which existed between husband and wife and parent and child, who have been thus sadly separated, do most sincerely sympathize with our late brother and associate councilman, whose only comfort now is found in his motherless daughter, whose loss is even greater than his own. The tender, loving voice of one of the most angelic of mothers is silent and lost to her forever. May God in His mercy strengthen husband and child, the family and parents of deceased, to bear their heartrending woe; therefore, be it.

Resolved, That as an expression of deep sympathy and respect for both the afflicted families in their great bereavement this Council do now adjourn.

Adopted as follows:

Yeas—Ald. Blodgett, Christian, Clark, Dorr, Dunlap, Finney, Finnegan, Gies, Guthard, Haller, Heames, Herrick, Jackson, Kurtz, Liggett,

Mitchell, Owen, Schmitt, Shanahan, Wilks, and the President—21.
None.

And thereupon the Council was declared adjourned.

CHAS. H. BORGMAN,
 City Clerk.

FROM THE ATTORNEY.

To the Honorable the Common Council:

GENTLEMEN—In compliance with instructions from your honorable body I herewith submit an

ordinance requiring parties to connect their premises by proper drains with lateral sewers adjacent thereto.

Respectfully submitted,

WILLIAM C. MAYBURY,

City Attorney.

The communication was accepted and the ordinance placed upon its first and second readings by its title, laid on the table and ordered published in the proceedings.

The following is the ordinance:

AN ORDINANCE

To amend chapter 56 of title 5 of the Revised Ordinances of 1871, by adding thereto three sections, to be numbered sections 7, 8 and 9 of said chapter, and to amend section 5, as follows:

It is hereby ordained by the Common Council of the city of Detroit.

Sec 6. No parties except those embraced in the said assessment roll shall connect with any such lateral sewer or drain, without permission of the Board of Public Works, and without payment to the Receiver of Taxes of such sum or sums as the City Engineer shall decide it to be right and proper for them to pay; and any person or persons who shall violate this section shall be prosecuted before the Recorder's Court, and fined not to exceed one hundred dollars, and costs of prosecution, and the amount so decided upon by the Engineer shall also be recovered before said court.

Sec 7. Every owner, lessee or occupant of a lot or subdivision thereof on which buildings are erected or improvements made, or the owner, lessee or occupant of improved lots, or subdivisions thereof, when so ordered by the Board of Public Works, shall cause a connection to be made between the said premises owned, leased or occupied by them and the lateral sewer built or which may hereafter be built adjacent to said premises; said connection to be made of such material and size and in such a manner as the Board of Public Works shall approve of and subject to all other conditions imposed by the preceding sections of the ordinance of which this ordinance is amendatory and supplemental: Provided, however, that the provisions of this section shall not relate to the owner, lessee or occupant of such improved premises as have now private drains or sewers thereon connected with public sewers or private drains, unless the same have become in the opinion of the Board of Public Works useless or insufficient to drain the premises.

Sec 8. Any violation of or failure to comply with the provisions of the preceding section of this ordinance shall be punished by a fine not to exceed one hundred dollars and costs, and in the imposition of any such fine and costs the court may make a further sentence, that in default of the payment thereof, such offender be imprisoned in the Detroit House of Correction or County Jail for any period of time not exceeding six months.

Sec 9. This ordinance shall take immediate effect.

FROM THE BOARD OF PUBLIC WORKS.

To the Honorable the Common Council:

GENTLEMEN—In reply to a notice from this office the proposals herewith attached for constructing brick lateral sewers were this day received.

For Nos 20, 22 and 23 Messrs. Wagner and Dehoff were the lowest bidders.

For Nos 21, 24, 25 and 26 Henry Horn is the lowest bidder.

The Board recommend that the above named parties be awarded contracts.

Respectfully submitted,

ALEX. CHAPTON,

President.

and is hereby ordered to advertise five days for proposals for constructing said lateral sewers.

Adopted as follows:

Yeas—Ald. Blodgett, Christian, Clark, Dorr, Dunlap, Finney, Finnegan, Gies, Guthard, Haller, Heames, Herrick, Jackson, Kurtz, Liggett, Mitchell, Owen, Rouland, Schmitt, Wilks, and the President—21.

FROM THE CITY CLERK.

REPORTS OF COMMITTEES

WAYS AND MEANS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Ways and Means, to whom was referred the official bond of Chas. Streyskal, appointed by the Common Council on the 18th day of April, 1876, Constable of the Twelfth Ward, and also the bonds of Charles Fragin and Octave Courville, liquor dealers, respectfully report that we have examined the said bonds, and finding them correct in form and satisfactory, recommend their approval.

Respectfully submitted,

M. P. CHRISTIAN,
GEORGE DUNLAP,
H. HEAMES.

Accepted and adopted as follows:

Yeas—Ald. Blodgett, Christian, Clark, Dorr, Dunlap, Finney, Finnegan, Gies, Guthard, Haller, Heames, Herrick, Jackson, Kurtz, Liggett, Mitchell, Owen, Rouland, Schmitt, Wilks and the President—21.

FIRE LIMITS.

To the Honorable the Common Council:

GENTLEMEN—The Committee on Fire Limits have examined the several petitions referred to them and report thereon as follows: E. Siewert, on Brush street, near Harriet, wishes to raise his dwelling, place new sills underneath and re-shingle it. The premises will be greatly improved by the change, and rendered more desirable for sanitary purposes, and as no objection is offered thereto, we recommend that the prayer of the petitioner be granted. Michael McWilliams, corner Abbott street and Ninth Avenue, asks permission to erect a small woodshed in the rear of his premises. We recommend that he be allowed to proceed on condition that he does not exceed the limits set forth in his petition. Mrs. Frances C. Knight wishes to repair her house, No. 202 First street. The premises are outside the fire limits, and we submit the matter without recommendation, having no jurisdiction in the premises. E. Hambringer wishes to erect a shed 10x16 feet in dimensions, No. 221 Congress street east. We recommend he be allowed to erect a structure of that size, believing it will not materially affect the fire risk in that locality. Wm. Keyser wishes to enlarge his barn on Brush street, between Larned and Congress, for the purpose, as we are informed, of storing hay therein. We report adversely thereto, believing that property in that locality will be greatly jeopardized by the change. J. F. Morris wishes permission to repair his house on Twelfth street, between Fort and Lafayette. The premises will be improved by the change, and we recommend permission be granted provided the fire risk is not thereby increased.

Very respectfully,

JACOB GUTHARD,
PAUL GIES,
SEYMOUR FINNEY.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—The Committee on Fire Limits have investigated the petitions of two prominent

citizens of the Ninth Ward, and ascertained that both gentlemen desire to establish improvements by constructing woodsheds in the rear of their premises, said premises being located on Michigan avenue. While the committee have always evinced a disposition to encourage substantial improvements of a public nature, they believe that proper attention should be paid to minor enterprises of this character; and further, the petitioners occupying positions and embracing opinions so diametrically opposed on matters of public policy, they think it will tend to reconcile them and in a great degree contribute to closing up the gap that has been so steadily widening for some time past. To accomplish this purpose, they would report favorably to the petitions, and recommend that they be granted under supervision of the aldermen of the Ninth Ward.

Very respectfully,
JACOB GUTHARD,
PAUL GIES,
SEYMOUR FINNEY.

Accepted and adopted.

STREETS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Streets, to whom was referred the several petitions of William S. Morton, for and in behalf of the Central Market, Cass Avenue and Third Street Railway Company, J. Huff Jones, Charles O'Neill and many other residents and property owners on the line of Larned street west, praying that permission might be granted said railway company to extend its line from Griswold street through Larned street west to Third street, and thence to Woodbridge street, would respectfully report that the extension desired would, in the opinion of your committee, promote the public convenience, and has no objectionable feature that we have been able to discover. The residents and property owners on Larned and Third streets, who are the parties most directly interested, have with great unanimity given their approval to the project. We would therefore recommend that the prayer of the petitioners be granted, and that the City Attorney be instructed to transmit the proper ordinance.

Respectfully submitted,

GEORGE DORR,
JACOB GUTHARD,

Accepted, and laid on the table for one session.

HOUSE OF CORRECTION.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on House of Correction to whom was referred the annual report of the Superintendent for the year ending December 31st, 1875, report that we have examined the same and believing it to be correct recommended its adoption.

Respectfully submitted,

JAMES I. MITCHELL,
R. A. LIGGETT,
LEWIS B. CLARK.

Accepted and adopted.

CLAIMS AND ACCOUNTS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Claims and

Accounts, to whom was referred the Controller's list of approved accounts of the 15th of May, 1876, respectfully report that they have examined the same, and believing them to be correct, would recommend that they be paid from the proper funds, excepting voucher No. 189, which is not approved.

MARKETS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Markets to whom was referred the petition of Harrie Jacobs praying that he might be relieved from the payment of the sum of fifty dollars which the ordinance requires shall be paid annually by each Wood Inspector for the maintenance and repair of the public wood yards in their respective districts, would respectfully report that we see no reason why the prayer of the petitioner should be granted. The petitioner complains of the injustice and defects of the ordinance prescribing his rights and duties, and insists that the income from his fees did not fully compensate him for his services. As to these objections your committee would reply that the ordinance in question was open to the inspection of Mr. Jacobs before he accepted the position of Wood Inspector and the defects in the same, if such there were, ought to have been as apparent to him then as they were when his official term was drawing to a close. As to the injustice of the ordinance in requiring the payment of the annual fee mentioned, Mr. Jacobs might have avoided this by declining the office when appointed. The fact that Mr. Jacobs did not derive a full compensation for his services from the fees of his office was unfortunate for him, and in this bereavement he has the sympathy of your committee, but as the fees of the office held by Mr. Jacobs are entirely speculative the city does not undertake to guarantee compensation to the incumbent. Your committee is informed by the Controller that Mr. Jacobs has presented a bill against the city amounting to the sum of forty dollars for his services in measuring wood for the city poor. Your committee would therefore recommend that the Controller be instructed to deduct the amount of Mr. Jacobs' bill from the claim of the city against him, and also that he notify Mr. Jacobs to pay the balance in favor of the city into the City Treasury forthwith.

Respectfully submitted,

DANIEL SHANAHAN,
GEORGE DORR,
GEO. W. HERRICK.

Accepted and adopted as follows:

Yeas—Ald. Blodgett, Christian, Dorr, Dunlap, Finney, Gies, Haller, Heames, Herrick, Jackson, Kurtz, Liggett, Mitchell, Owen, Rouland, Schmitt, Shanahan, Wilks, and the President—19.

STREETS.

To the Honorable the Common Council:

Church, for permission to erect a table or stand on the triangular space on the northwest corner of Woodward and Michigan avenues, for restaurant purposes on the Fourth of July, 1876, respectfully report: We are of the opinion that this portion of our city is well supplied with restaurants of all kinds, but for a centennial Fourth of July we think "the more the merrier," and we are in favor of granting the permission asked for, as far as the occupation of the street is concerned, and furthermore, believing and trusting that they will confine their eatables and drinkables to the law and order standard, to the cups "that cheer but do not inebriate," we cheerfully accord to them permission to dispense the same to the hungry

and thirsty crowd that may visit our fair city on the coming centennial.

Respectfully submitted,

GEORGE DORR,
JACOB GUTHARD.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Streets, to whom, with the City Counselor, was referred the communication of the Board of Public Works relating to the dangerous condition of the bridge on Fort street west, at the crossing of the Michigan Central Railroad, would respectfully report that the abutment wall on the westerly side of said bridge has fallen down, and leaves the same in a dangerous condition. The Superintendent of the Michigan Central Railroad, Mr. H. V. Ledyard, has agreed with your committee that the company will erect the side pier of the abutment, being that portion of the wall extending beyond the width of the bridge on either side. As it is the duty of the city to keep in repair and rebuild when necessary all bridges and bridge walls, built on and over the premises of the Michigan Central Railroad Company at street crossings, we would recommend that the Board of Public Works be instructed to take measures to have the walls of the Fort street bridge repaired in such manner as the board may consider best, and that the board, when the plans for doing the work have been completed, advertise for proposals for doing the work thereon, except as to such portion of the wall as the railroad company have agreed to build.

COMMUNICATION FROM THE MAYOR.

To the Honorable the Common Council:

GENTLEMEN—I return to your honorable body, without my approval, that part of your proceedings of the 23d which divides the Fifth ward into two wards, for the reason that there is no urgent necessity for such a division, as it certainly cannot be for want of proper representation, for, as far as I am aware, not a word of complaint is uttered against the present incumbents, Aldermen Finney and Dunlap, and all admit that they leave no part of their work undone; on the contrary, it is acknowledged on all sides that no ward in the city is more faithfully or ably represented than the Fifth. If it is necessary to divide at all, the dividing line should be Seiden street instead of Baggs street, as it would then be dividing the territory into two equal parts as near as could be, and render it unnecessary as the ward fills up to re-divide it again in the future; or, if it is claimed that the division is needed to accommodate the bulk of the population, then the division should be made at Elizabeth instead of Baggs street, as the former is now as near the center of the thickly populated part of the ward as can be, and then, too, it will be adding taxation at a time when the people call for economy and retrenchment in public expenditures, as it will necessitate the election of Aldermen, Members of the Board of Estimates, Board of Education, City Physicians, Collectors, Constables, new registration, etc., and it was well understood at the time the Board of Public Works was organized that it was for the purpose of relieving your honorable body from the details that necessarily fall to the lot of the Aldermen of the different wards, and the wisdom of your course in establishing that Board at that time is fully shown by its approval and appreciation by the general public.

If any change is to be made it would be better

to diminish rather than increase the number of representatives.

We need have no fear of having too few representatives; the country as a general thing is too much represented.

The Eighth and Ninth Wards following in the lead of the Fifth are also ambitious for more offices, and have already applied to your honorable body for a division in their wards. They too should be refused for the reasons stated above.

Respectfully, yours,

ALEX. LEWIS,
Mayor.

Accepted, and, on motion of Ald. Owen, the vote whereby the ordinance was passed was reconsidered by the following vote:

Yeas—Ald. Blodgett, Christian, Dorr, Dunlap, Finney, Finnegan, Guthard, Haller, Heames, Herrick, Jackson, Liggett, Mitchell, Owen, Rouland, Schmitt, Shanahan, Wilks, and the President—19.

Nays—None.

The question then being "Shall the ordinance pass notwithstanding the objections of the Mayor?" the same did not prevail by the following vote, two-thirds or the aldermen elect not voting therefor:

Yeas—Ald. Blodgett, Christian, Dorr, Dunlap, Finney, Guthard, Liggett, Mitchell, Rouland, Wilks, and the President—11.

Nays—Ald. Finnegan, Haller, Heames, Herrick, Jackson, Owen, Schmitt and Shanahan—8.

GENTLEMEN—At a session of your honorable body held on the 19th inst., a resolution was offered by Ald. Finney, requesting me to have prop-

erty owners on Cass avenue, between Sproat and and Bagg streets (formerly Clifford street), notified to affix the proper numbers to their respective houses. I beg leave to report to your honorable body that the interested parties were notified and in nearly every instance have complied with the notice. In connection with the above I wish to call your attention to Chapter 41 of Ordinances, in reference to numbering of buildings, in which no provision is made for enforcing the collection of the penalty, hence the ordinance cannot be properly enforced. I therefore respectfully suggest to your honorable body the propriety of amending the ordinance so that it can be enforced.

Respectfully submitted,

A. J. ROGERS,

Superintendent of Police.

Accepted and referred to Committee on Ordinances.

FROM THE CLERK.

Also, that M. J. Weber, Herman Utech, Elizabeth Greiser, Mathew Higgins, Richard Poole, August Betkerowitz and Philip Arnold, have filed indemnity bonds for trafficking in liquors.

Referred to the Committee on Ways and Means.

Carried.

Ald. Haller moved to indefinitely postpone the resolution.

Adopted as follows:

Yeas—Ald. Christian, Dunlap, Finney, Finnegan, Guthard, Haller, Heames, Herrick, Jackson, Liggett, Owen, Rouland, Schmitt, Shanahan, and the President—15.

REPORTS OF COMMITTEES.

WAYS AND MEANS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Ways and Means, to whom were referred the reports of various city officers for the week ending May 20th, 1876, respectfully report that we have examined the same, and, believing them to be correct, recommend their adoption.

Respectfully submitted,

M. P. CHRISTIAN,
GEORGE DUNLAP,
H. HEAMES.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Ways and Means, to whom was referred the bonds of Julian Strellinger, Charles Spahr, Fred. Rickel, Christian Metzger, Henry Boettcher, Geo. Westerlich, John Jeup, August Quast, Wm. Kuhn, John Wacker, O. Heesebacher, John Fey, Peter Ulrich, Fred Wolf, Chas. Reichart, Geo. Berger, Anthony Dunnbeck, A. Goebel & Co., John Hock, George Kieler, Wm. Krapp, Joseph Roeder, Fred Jacob, Mrs. M. Buckenberger, August Yost, Julius Sherach, Berth Miller, Joseph Roeder, Charles Dible, Fred Nathnagle, John Yaeger, Gottlieb Frey, Fritz Uebelhoer, August Heessing, August Mabier, Henry Greenwald, August Goetterman, Mathias Deconnick, John Melchior, Heinrich Kohlhaas, Henry Enzeroth, Chas. Solomon, Peter Boland, Anthony Wiethoff, Joseph Boland, Fred. Behr, Joseph Sterit, Jacob Baerge, Louis Kiersch, Geo. Bretsch, Philip Delp, Wm. Frank Diederich & Braesacher, E. P. Benoit, August Wirth, Paul Mathauer, Wm. Amrhein, Adam Rosbach, Adolph Ziese, Gustav Goellner, Catherine Stegmaier, Amanda Hohn, Frank Prochaska, Carl Koch, Stewart & Cameron, John Block, Mrs. Elizabeth Klein, Fred Uebelhoer, John Breithaupt, Henry

Loewer, Lewis Mann, Christian Mueller, A. F. Marschner, Friz Sackmann, Augustus Ruoff, Henry Ziese, Christian Mann, Math. Mitchell, Charles Peles, Peter Wirth, Roegner & Eckner, liquor dealers, respectfully report that we have examined the same and find them correct and satisfactory, with the exception of the bond of John Block, which, although executed on the 15th day of May, is sworn to as having been signed and sealed before a notary public of Wayne county, on the 1st day of June, 1876. We therefore recommend that the bonds be approved with the exception of that of John Block, which we reject as worthless.

Your committee also take occasion to state in this connection that many of the bonds referred to them are drawn up in a very careless and loose manner, without any regard to their legality, and, as is evident from the bond of Mr. John Block, which is only alluded to as a specimen of many of a similar character, by persons totally unfit or incompetent to perform such work in an intelligent or legal manner. This bungling way of drawing up legal papers, which require the greatest care to be of any use to the public or to the parties interested, is the cause of great inconvenience and loss of time to the parties giving the bonds, to the committee who have to examine and report upon them, and also to this Council, and an increased expense in needless printing. Your committee are also cognizant of the fact that in many cases the sureties on the bonds have been utterly worthless, and from whom not one cent could be collected, and who have been informed when swearing to the fact that they were worth \$3,000 over and above all incumbrances, that this was a mere matter of form and of no vital importance. In view of all these facts and that these bonds may receive closer scrutiny, and subserve the purpose for which they were intended, your committee recommend that hereafter all liquor bonds shall be endorsed on the back either by the City Attorney or the City Clerk that they are in conformity with the law under which they are issued, and in legal form. By this course much time, expense and inconvenience will be saved to all parties.

Respectfully submitted,

M. P. CHRISTIAN,
GEORGE DUNLAP,
H. HEAMES.

Committee on Ways and Means.

JUDICIARY.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Judiciary, to whom was referred the petition of D. Donovan, to have sale of lot corner of Fifth and Michigan avenue, for paying tax of 1867, cancelled, respectfully report as follows: Assessment roll No 620, for paying said avenue, was confirmed by the Common Council July 2d, 1867; the assessment on said lot for paying was \$378 70; it being a triangular shaped lot, he applied for a reduction, and December 22d, 1868, the Committee on Taxes reported in favor of a reduction, but specified no amount; June 1st, 1868, his lot was sold for taxes; subsequently he again applied for a reduction, and on the 13th of April, 1869, Ald. Considine introduced a resolution directing the Controller to draw his warrant on the Treasurer in favor of D. Donovan for \$75 to cancel so much of said paying tax; this was adopted, but not unanimously, as is required; June 7th, 1870, a similar resolution was introduced, which was referred to the Committee on Taxes and City Attorney, who, on the 14th of June, 1870, reported in favor of its adoption, which prevailed unanimously; June 24th, 1870, Mr. Donovan was remitted the costs on the above assessment, in amount \$18.

As we have been unable to find that the paying

tax was ever paid we are obliged to report adverse to granting the prayer of the petitioner.

Respectfully submitted.

GEORGE DUNLAP,
JOHN D. FINNEGAN,
JAMES I. MITCHELL.

Accepted and adopted.

CLAIMS AND ACCOUNTS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Claims and Accounts, to whom was referred the Controller's list of approved accounts of the 28d of May, 1876, respectfully report that they have examined the same, and believing them to be correct, would recommend that they be paid from the proper funds. Voucher No. 129, which was not approved May 19th, is now approved upon the explanation of the President of the Board of Public Works.

Respectfully submitted.

SEYMOUR FINNEY,
JACOB GUTHARD,
DANIEL SHANAHAN.

STREETS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Streets to whom was referred the petition of George F. Thompson, praying that he might be permitted to paint a sign on the river side of the timbers of the dock at the foot of Woodward avenue, would respectfully report that we see no injury which could possibly arise from granting the permission prayed for, and would therefore recommend that the prayer of the petitioner be granted, with the distinct understanding that said sign shall be scraped off, or otherwise obliterated, at any time when the Council may so order, and at the expense of the petitioner.

Respectfully submitted.

GEORGE DORR,
JACOB GUTHARD,

MARKETS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Markets, to whom was referred the petition of A. J. Reynolds praying for permission to use the northeast corner of the Cass Market for the purpose of drying fruit with a patent evaporator, would respectfully report that we do not consider the use of the market mentioned for the purpose specified in the petition as being legitimate or coming within the scope of the general purposes for which public markets are created and maintained. The business desired to be carried on by the petitioner is not one which will supply a general public need or necessity, and the public markets are proper places for the exhibit and sale of goods, but can scarcely be considered a proper place for the manufacture thereof.

We would therefore recommend that the prayer of the petitioner be denied. In view of the fact that the petitioner may desire to lease a stand in the market mentioned for the exhibition and sale of his fruit, we would recommend that the Controller be directed to rent to him for this purpose should application be made therefor.

Respectfully submitted.

DANIEL SHANAHAN,
GEORGE DORR,
GEO. W. HERRICK.

Accepted and adopted.

SPECIAL.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Claims and Accounts to whom with the City Attorney was referred the petition of Daniel Shanahan praying that he might be paid the amount of an uncollected assessment levied on lot 7 in block 12 of Crane & Wesson's section of the Forsyth farm for the construction of a lateral sewer of which he was

the contractor, would respectfully report that we find lot 7, referred to in the petition, to have been erroneously assessed and improperly placed in the taxing district set apart to pay the expense of constructing the lateral sewer mentioned; that the owner of said lot 7, one Thomas Burke, declined to pay the assessment, alleging that said lot derived no benefit from the sewer, and no obligation to pay rested upon him, nor was there any valid lien upon his property, that the sewer in question was built over five years ago, and the petitioner, Mr. Shanahan, has been kept out of this assessment during all this time. Your committee would recommend a re-assessment for the amount of the deficit, were it not for the facts that so long a time has been allowed to lapse since the original assessment was made, the small amount required, and the doubt your committee entertain of the legality of a re-assessment under all the circumstances of the case. We would recommend the adoption of the following resolution hereto annexed.

Respectfully submitted.

SEYMOUR FINNEY,
JACOB GUTHARD,
DANIEL SHANAHAN,
WILLIAM C. MAYBURY,
City Attorney.

Resolved, That the Controller be and he is hereby instructed to draw his warrant on the contingent fund in favor of Daniel Shanahan for the sum of \$51.50 to settle the amount of the unpaid assessment on lot 7, block 12, of Crane & Wesson's section of the Forsyth farm, for the construction of a lateral sewer in the alley of the block bounded by High, Cherry, Fourth and Fifth streets.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Ways and Means, to whom was referred the bonds of M. J. Weber, Herman Utech, Elizabeth Greiser, Mathew Higgins, Richard Poole, August Betkerowitz and Philip Arnold, liquor dealers, respectfully report that we have examined the same and find that the bonds of M. J. Weber, Herman Utech, Elizabeth Greiser, and August Betkerowitz, are sworn to as having been executed on the 1st day of June, 1876, and the bonds of Mathew Higgins, Richard Poole, and Philip Arnold are not sufficiently explicit in stating whether they are wholesale or retail dealers, or whether in spirituous or malt liquors. Your committee are therefore compelled

to report adverse to the approval of said bonds, as not being in proper legal form.

Respectfully submitted,

M. P. CHRISTIAN,

CLAIMS AND ACCOUNTS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Claims and Accounts, to whom was referred the Controller's list of approved accounts of the 2d June, 1876, respectfully report that they have examined the same, and believing them to be correct, would recommend that they be paid from the proper funds, excepting voucher No. 5, which needs explanation.

SEYMOUR FINNEY,
JACOB GUTHARD,
DANIEL SHANAHAN.

Accepted and adopted as follows:

STREETS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Streets, to whom was referred the communication of the Hon. Moses W. Field with reference to the leasing of the foot of Griswold street, have duly considered the same, and respectfully report that in our opinion Mr. Field is equitably entitled to a continuance of his lease on the ground that the entire wharf was constructed at his own expense and he has maintained the same in good repair and safe condition for several years. Last year the timbers having rotted the wharf gave way, as all wooden wharves do unless rebuilt every six or seven years, and Mr. Field, supposing that his lease had not expired, went on in good faith and expended about \$700 in constructing new works and making a substantial wharf the whole width of said street.

In the judgment of your committee the wharves at the foot of streets in the central part of the city should not be leased for business purposes other than the usual traffic and travel common in all streets, believing that the public interests would not be promoted by having such wharves encumbered for storage and business purposes, but kept free and clear for the promotion of the public health and in order to give our citizens the opportunity of enjoying at central points, at all times, an unobstructed view of the shipping upon our noble river, and also for the safety of our city in case of a great fire, by affording a certain and an unfailing supply of water for the fire engines in case of accident to the water works.

Mr. Field has kept the street unobstructed during the continuance of his lease, and considering the large amount recently expended by him in rebuilding the wharf, your committee recommend that a lease be granted to him for three years for \$100 per annum.

Respectfully submitted,

GEORGE DORR,
DANIEL SHANAHAN,
JACOB GUTHARD.

Accepted and adopted as follows:

Yeas—Ald. Blodgett, Christian, Dorr, Finney, Finnegan, Guthard, Haller, Heames, Herrick, Hough, Jackson, Kurtz, Mitchell, Owen, Rouland, Schmitt, Shanahan, Wilks, and the President pro tem.—19.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Streets, to whom was referred the petition of Peter B. Ives for permission to erect a refreshment stand on the Campus Martius, near Monroe or Woodward avenues, or somewhere in that vicinity, would respectfully report that this Council has no jurisdiction in the matter, without changing our or-

dinances, and do therefore report adverse to the prayer of said petitioner.

Respectfully submitted,
**GEORGE DORR,
 DANIEL SHANAHAN,
 JACOB GUTHARD.**

Accepted and adopted.

FIRE LIMITS.

To the Honorable the Common Council:

GENTLEMEN—The Committee would submit the following report on various petitions referred to them: James Wood, No. 67 Clinton street, wishes to raise his cottage about two feet and place new sills thereunder, thereby improving his premises and rendering it more desirable for sanitary reasons. The fire risk will be in no wise increased, and we report favorably thereto. Richard Hughes, 854 Michigan avenue, wishes to erect a barn on his premises. We report adversely thereto, believing the fire risk in that locality will be materially enhanced if permission is accorded to erect the said structure.

Respectfully submitted,
**JACOB GUTHARD,
 SEYMOUR FINNEY.**

Accepted and adopted.

GENTLEMEN—The Board of Public Works, to whom was referred the petition of Levi Bishop, suggesting the propriety of placing inscriptions on the gun mountings in front of the City Hall, report:

As is stated by the petition, those guns are objects of interest, particularly to the stranger, and the inquiry is frequently made as to their history, but there not being persons near, at all times, who can give the desired information, people are reluctantly compelled to pass on ignorant of the fact that they are trophies of the battle of Lake Erie. The Board are of the opinion that the suggestion is a good one, and recommend that the following be inscribed on said mountings in large letters, to wit:

"Ferry's Victory, Lake Erie, September 10, 1813."

Respectfully submitted.

FIRE LIMITS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Fire Limits to whom were referred the petitions of Joseph Zacheneder and George H. Morrison would report as follows: Joseph Zacheneder desires to remove a shed 32x14 and two smaller sheds adjacent, all having board roofs, and put in their places one shed, 32x8, with a gravel roof. We report in favor of granting the petition for the reason that the proposed change will greatly decrease the fire risk. Geo. H. Morrison desires to erect a small woodshed in his back yard, which shed will be detached from any building whatever, and near no buildings but his own. Your committee think

the fire risk will not be increased, and we report in favor of granting the prayer of the petitioner.

FROM THE SAME.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Taxes, to whom was referred the petition of Therese Schulte, to be refunded \$47.68, claimed to have been paid by her unjustly on a personal property tax, would report that on examination we find that said tax was levied on a mortgage owned by said Schulte which fact she does not deny, but makes the point that it was assessed in the fourth ward whereas she lives in the Ninth ward. Your committee are of the opinion that the tax was justly levied and lawfully collected, and the technical objection made by the petitioner that her residence was mistaken by the assessor is, in the opinion of your committee, without merits, we therefore report adversely.

Respectfully submitted.

C. C. BLODGETT,
R. A. LIGGETT,
H. HEAMES.

Accepted and adopted.

ORDINANCES.

AN ORDINANCE

To amend chapter 41 of the Revised Ordinances of 1871, by adding thereto a section to be known as and numbered section 10.

It is hereby ordained by the Common Council of the City of Detroit.

SECTION 1. That chapter 41 of the Revised Ordinances of 1871 be and the same is hereby amended by adding thereto a section to be known as and numbered section 10, and to read as follows:

SEC. 10. Any person who shall neglect or refuse to comply with any of the provisions of this ordinance shall be punished by a fine not to exceed one hundred dollars and costs; and in the imposition of such fine and costs, the court may make a further sentence that the offender be imprisoned in the Detroit House of Correction until the payment thereof for any period of time not exceeding six months.

SEC. 2 This ordinance shall take immediate effect.

SPECIAL.

To the Honorable the Common Council:

GENTLEMEN—Your Alderman of the Second Ward, to whom was referred the petition of Messrs.

In view of the foregoing facts your alderman of the Second Ward would respectfully recommend that the prayer of the petitioners be granted.

J. SCHMITT.

COMMUNICATIONS FROM CITY OFFICERS.

FROM THE CITY ATTORNEY.

To the Honorable the Common Council:

GENTLEMEN—In compliance with the resolution of your honorable body, directing me to report by what authority of law the owners of premises fronting on wide streets and avenues of the city occupy or use portions of said streets and avenues for private purposes exclusively, and further as to the proceedings necessary to regain, in behalf of the city, possession of the spaces thus taken, I would respectfully submit as follows: In my opinion there is no authority; nor can any such authority be legally conferred by virtue of which the owners or occupants of premises fronting on the public streets and avenues of the city can make any use of said streets and avenues inconsistent with the public right in the same. In any and all cases where legislation has been had under any supposed power conferred by the charter, to vest in the owners of property adjacent to streets and avenues privileges exclusive of the public rights therein such legislation is void, and no rights become vested nor privileges obtained thereunder.

Such investigation as I have been enabled to make of the legislation of the Common Council in the past relative to the regulation and control of the streets and the uses thereof by owners of property adjacent thereto, has disclosed the fact that in many instances the Council, acting under the authority conferred in Power 13, section 22, chapter 5 of the Charter has in some instances granted permission to owners of property on the line of several of the wider avenues in the city to ornament certain allotted spaces by planting trees, sodding and otherwise beautifying said places. In the several cases referred to the property owners have acted under the license granted them, and as the agents of the city for the purpose of the improvements desired. In such cases the Council has, by carefully worded resolution, prescribed the exact purpose and intent of the license granted, making the same subject to revocation and repeal; and has not in any case that I have been able to discern adopted any legislation on this subject by which the rights of the public have been made subservient to the convenience or cupidity of individuals. The license or permission granted operate to protect the individuals acting under it in making the improvements specified and empowers them to use reasonable means in the exercise of any expedient to protect and preserve from injury the improvements made. A familiar instance of this last proposition is where the street has been improved by a citizen in front of his premises by planting shade trees, sodding and putting up a low rail fence for the protection of the lawn in the manner authorized and under the license conferred by the Council: in such case the Council having prescribed the improvements and the manner of its completion is estopped from declaring the improvement a nuisance, the citizen a trespasser or the railing if reasonable in height and construction, an obstruction to the street. If any other rule obtained we would see the anomaly presented of the Council declaring that to be a nuisance and obstruction which had been done under its lawful authority and direction.

Whenever parties have usurped special rights in the streets under cover of the license conferred

ment on each side, the board recommend that they be awarded the contract.

Respectfully submitted,

ALEX. CHAPOTON,
President.

Accepted, and leave being granted, Ald. Dorr offered the following:

FIRE LIMITS.

To the Honorable the Common Council:

GENTLEMEN—The petition of R. Nelson, referred to us for investigation, shows that he desires to move his building about four feet and construct a small addition thereto, thereby improving his premises and adding greatly to its desirability for residence purposes. The said premises are located corner of Clifford and Middle streets, and as the improvement will not visibly effect the fire risk, we report favorably thereto.

Mrs. E. Gillman, No. 163 St. Aubin avenue, asks permission to construct a shed of considerable proportions on her lot, but if the permission is accorded her the structure will abut immediately upon the premises of her neighbors, who strongly object thereto, and we submit a recommendation that the prayer of the petitioner be denied.

Very respectfully,

JACOB GUTHARD,
SEYMOUR FINNEY.

Accepted and adopted.

GENTLEMEN—Your Committee on Ways and Means, to whom was referred the bonds of nine liquor dealers, as follows: John A. Sanders, Jeremiah Calton, Joseph E. Phillips, John Pinder, Joseph R. Malcomson, Mrs. John Blankenhin, Sophia Holmes, Green & Cook, George F. Renaud, respectfully report that we have examined the same, and believing them to be correct and satisfactory recommend their approval.

CLAIMS AND ACCOUNTS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Claims and Accounts, to whom was referred the Controller's list of approved accounts of the 18th June, 1876, respectfully report that they have examined the same, and believing them to be correct, would recommend that they be paid from the proper funds.

FIRE LIMITS.

To the Honorable the Common Council:

GENTLEMEN—The Committee would report upon the following petitions referred to them for ex-

amination, viz: Geo. A. Jameson wishes to repair his office on Grand River avenue by changing the roof thereon from a flat to a gable roof. There is no objection thereto and no increased fire risk, and we recommend the prayer of the petitioner be granted. James Graham petitions with reference to a barn on his premises, and asks that it be allowed to remain. If the structure is permitted to stand it will, in our opinion, materially increase the fire risk, and we report adversely thereto. Mrs. Udolphia Edmunds, on Croghan street, petitions to erect a shed on her premises. If the building is erected it will cover the only vacant space on the premises, and enhance the fire risk in that vicinity. We recommend the prayer of the petitioner be denied.

Very respectfully,

JACOB GUTHARD,
PAUL GIES,
SEYMOUR FINNEY.

Accepted and adopted.

PUBLIC BUILDINGS AND CONTROLLER.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Public Buildings and the Controller, to whom was referred the petition of the Western Advertising Company by S. M. Putney, Esq., general manager, giving a description of an elaborately carved, profusely decorated and artistically ornamented advertising frame, and asking that, after its return from the Centennial, the same may be placed in the corridor of the City Hall, as an appropriate memento of this our centennial year, have given the matter due consideration and beg to report as follows: Manufacturers, merchants and business men of all kinds have invariably found that "advertising is the road to success." This sentiment is heartily indorsed by your committee, and they would also cheerfully recognize the enterprise that prompted the above mentioned company in the design and execution of the "frame" there referred to, trusting that our citizens will avail themselves of its advantages as an advertising medium; your committee would, however, report that the City Hall having been built by the taxpayers of the city at large, for a specific purpose, it would be an unjust discrimination in favor of one class of citizens to permit them to use the corridors and walls of this building for advertising purposes, unless the same privilege were granted to all, and as it is evident this latter cannot be done without increasing the "wall capacity" of the building, we report adverse to granting the prayer of said petitioners.

Respectfully submitted,

J. B. ROULAND,
THOMAS JACKSON,
GEORGE DUNLAP,
E. L. GARFIELD,

Controller

Accepted and adopted.

STREET OPENINGS.

To the Honorable the Common Council:

GENTLEMEN—Your Committee on Street Openings, to whom was referred the petition of Michael Kicline, Commissioner of Highways of the township of Hamtramck, setting forth that one Mr. Richards has completely obstructed Russell street at the northern end, thus shutting off communication between Hamtramck on the northern part and the city, would report that we find that said street was opened by the authorities of Hamtramck according to law in the year 1863, and the same has been used by the public for thirteen years as a public highway, no question having been heretofore raised by any one in regard to the legality and regularity of such opening; that in the winter of 1875 a large portion of Hamtramck was added to the city, including the locality in question, thus taking all matters there relating to public improvements out of the hands of the authorities of Hamtramck and vesting them in the city of Detroit; that about two weeks ago said Richards built a fence across said Russell street, with the result as set forth in the petition, which action your committee believe to be without warrant of law. We therefore recommend that the Board of Public Works be hereby directed to no-

city said Richards to remove said obstruction forthwith, and in default that they remove it themselves and notify the City Attorney of such default, who in such contingency is hereby directed to cause the proper proceedings to be instituted against said Richards for violating the ordinance in regard to obstructions.

J. A. KURTZ.
J. B. ROULAND.
M. HALLEK.

FROM THE CITY ATTORNEY.

To the Honorable the Common Council:

GENTLEMEN—The undersigned to whom was referred the pay roll of expenses incurred by the city for labor performed in Linden Park, so-called in the township of Hamtramck, would respectfully report that, while no objection is taken to the form of the roll, nor the prices charged therein, both appearing to be correct and reasonable, there is in my opinion an insuperable objection to the payment of the money called for in the fact that the city has no legal right or authority to expend money in the improvement of a park, situated beyond its territorial limits. The right of a city to expend money, raised by taxes imposed upon its citizens, and any concerns other than local, or to act upon property in any manner where the same is beyond its territorial limits, is clearly unwarranted unless such right is conferred by express authority, or demanded by the most urgent necessities of the city. There is dissenting authority of very excellent repute to even this last principle, yet the right of authority favors the doctrine that there is in every municipality an implied power and authority to go beyond its territorial limits to obtain a supply of that which its absolute necessities demand—and to that extent which these necessities may require. The charter of the city contains every express authority conferred upon the city in concerns, extra municipal, in a territorial sense, and when there is an absence of express authority thus conferred, such authority exists if at all, only by implication.

The charter in four instances, and only four, expressly confers upon the city authority to be exercised beyond its territorial limits, viz.: in the matter of drainage, vide charter pages 293 and 399; in the matter of obtaining a supply of water for the use of the city, vide charter pages 170, 174 and 177, and in the establishment of burial places for the dead, vide charter page 72; establishment of pest-house and hospitals, section 39, chapter 5, charter. Authority to be exercised beyond the limits of the city if it exists in any other instance than those already mentioned, exists by implication. In this last class of possible powers then, must be placed the power to have and control a public park beyond the city limits. Does this power exist then by implication, and, if so, are the necessities of a public park so great and urgent that this power can be rightfully exercised? It is my opinion that the power referred to does not exist by implication, and if it did that the necessities for its use have not yet arisen. The charter is not silent as to the powers of the legislative body of the city in reference to the establishment and control of public parks in the city, but not beyond the limits of the same.

It may be urged that while there has been no determination on the part of the Common Council of the necessity of a public park beyond the territorial limits of the city, either by resolution or other proceeding, that yet the acceptance of Linden Park by the Common Council in behalf of the city, with the conditional payments of money in expenditures might be construed to be a determination of such necessity. To this position, if urged, the objection is made that the city of Detroit cannot contract for power and privileges which it does not possess. That by its own contract it cannot confer upon itself the right to pay money which in the absence of such contract would be illegal—neither can the city decrease its responsibilities by the same method. The position may be taken that the dedication of Linden Park and its acceptance has placed the city in the position of a trustee of this grant. If this be true, then who is the *custos qui tenet*? If it be the public, it must be the general public, to-wit: The people of the State of Michigan. What right then has the city to tax, or the Council to appropriate money except for local concerns, which this clearly is not? The city cannot expend from its treasury the money collected from its citizens for the benefit of the people of the State at large. This is clearly the effect of disbursing the money called for in the way fall under discussion. The force of this last reasoning will be apparent when we consider that the proximity of Linden Park to the city will make no difference in the application of the principle. The authority to expend money on property one mile beyond the territorial limits of the city, will include the right to go any greater distance for the same purpose.

When Linden Park is brought within the territorial limits of the city, is made subject to such rules and regulations as the city may prescribe, and under these rules and regulations the liberty of full enjoyment is guaranteed to its citizens, then the money expended on this park will be for the special benefit of those from whose pockets such money is taken, then will this expense be both legal and equitable, or perhaps this result, if deemed desirable may be sooner obtained by special legislative grant of power, unless objections of a constitutional nature prevent.

Respectfully submitted,

WILLIAM C. MAYBURY,
City Attorney.

Accepted and placed on file.

FROM THE SAME.
